Whores of Babylon

In the seventeenth century, the largely Protestant nation of England was preoccupied with its Catholic subjects. They inspired more prolific and harsher criticism and more elaborate attempts at legal regulation than did any other minority group. To understand this phenomenon, Frances E. Dolan probes the verbal and visual representations of Catholics and Catholicism and the uses to which these were put during three crises in Protestant-Catholic relations: the gunpowder plot (1605), Queen Henrietta Maria's open advocacy of Catholicism in the 1630s and 1640s, and the popish and meal tub plots (1678—1680). She uses each crisis as a jumping-off point, an opportunity for speculation, as did contemporary writers. Drawing on political, religious, and legal writings and offering fresh readings of literary texts such as *Macbeth* and *Antony and Cleopatra*, Dolan shows how often Catholics and Catholicism were linked to disorderly women. Dolan maintains that since Catholics were members of many English families and communities and prominent at court, the threat they offered was precisely that they could not be readily isolated and assigned to a category—both laws and polemic struggled to identify Catholics, but never succeeded in establishing a clear line between Catholics and everyone else. In seventeenth-century England, Dolan says, the threat of Catholicism lay in the tension between the foreign and the familiar, the different and the same.

Marriage and Violence

Marriage is often described as a melding of two people into one. But what—or who—must be lost, fragmented, or buried in that process? We have inherited a model of marriage so flawed, Frances E. Dolan contends, that its logical consequence is conflict. Dolan ranges over sixteenth- and seventeenth-century Puritan advice literature, sensational accounts of "true crime," and late twentieth-century marriage manuals and films about battered women who kill their abusers. She reads the inevitable *Taming of the Shrew* against William Byrd's diary of life on his Virginia plantation, Noel Coward's

Private Lives, and Barbara Ehrenreich's assessment in *Nickel and Dimed* of the relationship between marriage and housework. She traces the connections between Phillippa Gregory's best-selling novel *The Other Boleyn Girl* and documents about Anne Boleyn's fatal marriage and her daughter Elizabeth I's much-debated virginity. By contrasting depictions of marriage in the sixteenth and seventeenth centuries and our own time, she shows that the early modern apprehension of marriage as an economy of scarcity continues to haunt the present in the form of a conceptual structure that can accommodate only one fully developed person. When two fractious individuals assert their conflicting wills, resolution can be achieved only when one spouse absorbs, subordinates, or eliminates the other. In an era when marriage remains hotly contested, this book draws our attention to one of the histories that bears on the present, a history in which marriage promises both intimate connection and fierce conflict, both companionship and competition.

True Relations

Examining seventeenth-century crises of evidence and genres of evidence on which both literary critics and historians now depend, *True Relations* explores the notion that we apprehend truth through other people's relations of it and that those relations, and our own relation to them, are a function of social relationships in conflict.

Damnable Practises: Witches, Dangerous Women, and Music in Seventeenth-Century English Broad-side Ballads

Broadside ballads-folio-sized publications containing verse, a tune indication, and woodcut imagery-related cautionary tales, current events, and simplified myth and history to a wide range of social classes across seventeenth century England. Ballads straddled, and destabilized, the categories of public and private performance spaces, the material and the ephemeral, music and text, and oral and written traditions. Sung by balladmongers in the streets and referenced in theatrical works, they were also pasted to the walls of local taverns and domestic spaces. They titillated and entertained, but also educated audiences on morality and gender hierarchies. Although contemporaneous writers published volumes on the early modern controversy over women and the English witch craze, broadside ballads were perhaps more instrumental in disseminating information about dangerous women and their acoustic qualities. Recent scholarship has explored the representations of witchcraft and malfeasance in English street literature; until now, however, the role of music and embodied performance in communicating female transgression has yet to be investigated. Sarah Williams carefully considers the broadside ballad as a dynamic performative work situated in a unique cultural context. Employing techniques drawn from musical analysis, gender studies, performance studies, and the histories of print and theater, she contends that broadside ballads and their music made connections between various degrees of female crime, the supernatural, and cautionary tales for and about women.

Apocalypse and Anti-Catholicism in Seventeenth-Century English Drama

Streete studies the political uses of apocalyptic and anti-Catholic rhetoric in a wide range of seventeenth-century English drama, focusing on the plays of Marston, Middleton, Massinger, and Dryden. Drawing on recent work in religious and political history, he rethinks how religion is debated in the early modern theatre.

The Early Modern Medea

This is the first book-length study of early modern English approaches to Medea, the classical witch and infanticide who exercised a powerful sway over literary and cultural imagination in the period 1558-1688. It encompasses poetry, prose and drama, and translation, tragedy, comedy and political writing.

The History of British Women's Writing, 1610-1690

During the seventeenth century, in response to political and social upheavals such as the English Civil Wars, women produced writings in both manuscript and print. This volume represents recent scholarship that has uncovered new texts as well as introduced new paradigms to further our understanding of women's literary history during this period.

Dangerous Familiars

Looking back at images of violence in the popular culture of early modern England, we find that the specter of the murderer loomed most vividly not in the stranger, but in the familiar. A gripping exploration of seventeenth-century accounts of domestic murder in fact and fiction, this book is the first to ask why.

Early Stuart Polemical Hermeneutics

Darren M. Pollock examines the 1611 Romans hexapla commentary by the prolific Church of England preacher and controversialist Andrew Willet. While some have considered Willet's later biblical commentaries to have been a retreat from his earlier engagement in religious controversy, the author argues that his exegetical work maintained a significant element of anti-Catholic polemics, only expressed in a different genre. This polemical hermeneutic served as an organizing principle and as a means by which to clarify the presentation of traditional Reformed readings in relief against a body of Roman Catholic theology that Willet believed threatened the gospel of grace. Paul's letter provided ample opportunity for Willet to identify what is distinctive about Reformed theology – or rather, as Willet would have it, the particular ways in which »papist« dogma had diverged from the true line of Christian belief running from the Fathers through to the (truly »catholic«) Reformed church of the seventeenth century. Willet's exegesis highlights many of the polemical issues that had long been contended between Protestants and Catholics, including the authentic versions of the bible, Scripture's attributes, and principles of interpretation, as well as doctrines like justification, predestination, the assurance of salvation, and the place of good works. A close investigation into Willet's exegetical method also helps to see how an identifiable hermeneutical lens is consistent with a disciplined reading that is faithful to the text. His polemical focus does not corrupt his exegesis or force upon it meanings that are alien to the text itself; rather, his polemical hermeneutic serves to focus his attention and frame positive doctrinal statements against the sharp contrast of alternate readings.

Anti-Catholicism in Britain and Ireland, 1600–2000

This edited collection brings together varying angles and approaches to tackle the multi-dimensional issue of anti-Catholicism since the Protestant Reformation in Britain and Ireland. It is of course difficult to infer from such geographically and historically diverse studies one single contention, but what the book as a whole suggests is that there can be no teleological narration of anti-Catholicism – its manifestations were episodic, more or less rooted in common worldviews, and its history does not end today.

Poetic Priesthood in the Seventeenth Century

Poetic Priesthood reads seventeenth-century devotional verse as staging a surprising competition between poetry and the established church. The work of John Donne, George Herbert, Richard Crashaw, John Milton, and Thomas Traherne suggests that the demands of faith are better understood by poets than by priests—even while four of these authors were also ordained. While recent scholarship has tended to emphasize the shaping influence of the liturgy on the poetry of this period, this book argues that verse instead presents readers with a mode of articulating piety that relies on formal experimentation, and that varies from the forms of the church rather than straightforwardly reproducing them. In crafting this poetic aid to devotion, these authors practiced an alternative and even more ample form of ministry than in their ecclesiastical activities. In the wake of the Reformation, the liturgy of the English church centered on rituals of communal prayer and praise, but the poetry considered in this study suggests that such rituals in fact risk distracting worshippers from the pleasures and challenges of navigating an individual relationship with God. Yet these poets do not make this suggestion by rejecting communal rituals outright. Their verse invokes ecclesiastical practice as a basis for formal innovation that suggests how intimacy with the divine might look, feel, and sound, connecting humans with their God more precisely and more individually than the liturgy can. As they shift between explicit comment on the liturgy and more subtle departures from it in the interplay of verse form and denotation, these authors claim the work of priesthood for poetry.

Marian Moments in Early Modern British Drama

Concerning itself with the complex interplay between iconoclasm against images of the Virgin Mary in post-Reformation England and stage representations that evoke various 'Marian moments' from the medieval, Catholic past, this collection answers the call for further investigation of the complex relationship between the fraught religio-political culture of the early modern period and the theater that it spawned. Joining historians in rejecting the received belief that Catholicism could be turned on and off like a water spigot in response to sixteenth-century religious reform, the early modern British theater

scholars in this collection turn their attention to the vestiges of Catholic tradition and culture that leak out in stage imagery, plot devices, and characterization in ways that are not always clearly engaged in the business of Protestant panegyric or polemic. Among the questions they address are: What is the cultural function of dramatic Marian moments? Are Marian moments nostalgic for, or critical of, the 'Old Faith'? How do Marian moments negotiate the cultural trauma of iconoclasm and/or the Reformation in early modern England? Did these stage pictures of Mary provide subversive touchstones for the Old Faith of particular import to crypto-Catholic or recusant members of the audience?

A Companion to Catholicism and Recusancy in Britain and Ireland

Long ghettoized within British and Irish studies, Catholicism and Recusancy in Britain and Ireland demonstrates that, despite many challenges and differences among them, English, Scottish, Welsh, and Irish Catholics formed strong bonds and actively participated in the life of their nations and their Church.

Gender and the English Revolution

In this fascinating and unique study, Ann Hughes examines how the experience of civil war in seventeenth-century England affected the roles of women and men in politics and society; and how conventional concepts of masculinity and femininity were called into question by the war and the trial and execution of an anointed King. Ann Hughes combines discussion of the activities of women in the religious and political upheavals of the revolution, with a pioneering analysis of how male political identities were fractured by civil war. Traditional parallels and analogies between marriage, the family and the state were shaken, and rival understandings of sexuality, manliness, effeminacy and womanliness were deployed in political debate. In a historiography dominated by military or political approaches, Gender and the English Revolution reveals the importance of gender in understanding the events in England during the 1640s and 1650s. It will be an essential resource for anyone interested in women's history, feminism, gender or British History.

Devout Laywomen in the Early Modern World

Devout laywomen raise a number of provocative questions about gender and religion in the early modern world. How did some groups or individuals evade the Tridentine legislation that required third order women to take solemn vows and observe active and passive enclosure? How did their attempts to exercise a female apostolate (albeit with varying degrees of success and assertiveness) destabilize hierarchies of class and gender? To the extent that their beliefs and practices diverged from approved doctrine and rituals, what insights can they provide into the tensions between official religion and lay religiosity? Addressing these and many other questions, Devout Laywomen in the Early Modern World reflects new directions in gender history, offering a more nuanced approach to the paradigm of woman as the prototypical "disciplined" subject of church-state power.

Catholics and the 'Protestant Nation'

This collection of original essays combines the interests of leading 'Catholic historians' and leading historians of early modern English culture to pull Catholicism back into the mainstream of English historiography

The Mysterious and the Foreign in Early Modern England

"The essays collected in this volume explore many of the most interesting, and some of the more surprising, reactions of English people in the early modern period to their encounters with the mysterious and the foreign. In this period the small and peripheral nation of English speakers first explored the distant world from the Arctic, to the tropics of the Americas, to the exotic East, and snowy wastes of Russia, recording its impressions and adventures in an equally wide variety of literary genres. Nearer home, fresh encounters with the mysterious world of the Ottoman Empire and the lure of the Holy Land, and, of course, with the evocative wonders of Italy, provide equally rich accounts for the consumption of a reading and theatergoing public. This growing public proved to be, in some cases, naive and gullible, in others urbanely sophisticated in its reactions to "otherness," or frankly incredulous of travelers' tales."--BOOK JACKET.

Catholic Reformation in Protestant Britain

The survival and revival of Roman Catholicism in post-Reformation Britain remains the subject of lively debate. This volume examines key aspects of the evolution and experience of the Catholic communities of these Protestant kingdoms during the sixteenth and seventeenth centuries. Rejecting an earlier preoccupation with recusants and martyrs, it highlights the importance of those who exhibited varying degrees of conformity with the ecclesiastical establishment and explores the moral and political dilemmas that confronted the clergy and laity. It reassesses the significance of the Counter Reformation mission as an evangelical enterprise; analyses its communication strategies and its impact on popular piety; and illuminates how Catholic ritual life creatively adapted itself to a climate of repression. Reacting sharply against the insularity of many previous accounts, this book investigates developments in the British Isles in relation to wider international initiatives for the renewal of the Catholic faith in Europe and for its plantation overseas. It emphasises the reciprocal interaction between Catholicism and anti-Catholicism throughout the period and casts fresh light on the nature of interconfessional relations in a pluralistic society. It argues that persecution and suffering paradoxically both constrained and facilitated the resurgence of the Church of Rome. They presented challenges and fostered internal frictions, but they also catalysed the process of religious identity formation and imbued English, Welsh and Scottish Catholicism with peculiar dynamism. Prefaced by an extensive new historiographical overview, this collection brings together a selection of Alexandra Walsham's essays written over the last fifteen years, fully revised and updated to reflect recent research in this flourishing field. Collectively these make a major contribution to our understanding of minority Catholicism and the Counter Reformation in the era after the Council of Trent.

Women, Religion, and the Atlantic World (1600-1800)

Through a thoughtful consideration of the complexity of the religious landscape of the Atlantic basin, the collection provides an enriching portrayal of the intriguing interplay between religion, gender, ethnicity, and authority in the early modern Atlantic world.

The Papist Represented

Most eighteenth-century literary scholarship implicitly or explicitly associates the major developments in English literature and culture during the rise of modernity with a triumphant and increasingly tolerant Protestantism while assuming that the English Catholic community was culturally moribund and disengaged from Protestant society and culture. However, recent work by historians has shown that the English Catholic community was a dynamic and adaptive religious minority, its leaders among the aristocracy cosmopolitan, its intellectuals increasingly attracted to Enlightenment ideals of liberty and skepticism, and its membership growing among the middle and working classes. This community had an impact on the history of the English nation out of all proportion with its size—and yet its own history is glimpsed only dimly, if at all, in most modern accounts of the period. *The Papist Represented* reincorporates the history of the English Catholic community into the field of eighteenth-century literary studies. It examines the intersections of literary, religious, and cultural history as they pertain to the slow acceptance by both Protestants and Catholics of the latter group's permanent minority status. By focusing on the Catholic community's perspectives and activities, it deepens and complicates our understanding of the cultural processes that contributed to the significant progress of the Catholic emancipation movement over the course of the century. At the same time, it reveals that this community's anxieties and desires (and the anxieties and desires it provoked in Protestants) fuel some of the most popular and experimental literary works of the century, in forms and modes including closet drama, elegy, the novel, and the Gothic. By returning the Catholic community to eighteenth-century literary history, *The Papist Represented* challenges the assumption that eighteenth-century literature was a fundamentally Protestant enterprise. Published by University of Delaware Press. Distributed worldwide by Rutgers University Press.

Julian of Norwich's Legacy

Julian of Norwich the best-known of the medieval mystics today. The text of her *Revelation* has circulated continually since the fifteenth century, but the twentieth century saw a massive expansion of her popularity. Theological or literary-historical studies of Julian may remark in passing on her popularity, but none have attempted a detailed study of her reception. This collection fills that gap: it outlines the full reception history from the extant manuscripts to the present day, looking at Julian in devotional cultures, in modernist poetry and present-day popular literature, and in her iconography in Norwich, both as a pilgrimage site and a tourist attraction.

Women's Work in Early Modern English Literature and Culture

Dowd investigates literature's engagement with the gendered conflicts of early modern England by examining the narratives that seventeenth-century dramatists created to describe the lives of working women.

Wives Not Slaves

"Is marriage a privilege or a right? A sacrament or a contract? Is it a public or a private matter? Where does ultimate jurisdiction over it lie? And when a marriage goes wrong, how do we adjudicate marital disputes-particularly in the usual circumstance, where men and women do not have equal access to power, justice, or even voice? These questions have long been with us because they defy easy, concrete answers. Kirsten Sword here reveals that contestation over such questions in early America drove debates over the roles and rights not only of women but of all unfree people. Sword shows how and why gendered hierarchies change-and why, frustratingly, they don't"--

Fairies, Fractious Women, and the Old Faith

Fairies, unruly women, and vestigial Catholicism constituted a frequently invoked triad in late sixteenth-and early seventeenth-century drama which has seldom been critically examined and therefore constitutes a significant lacuna in scholarly treatments of early modern theater, including the work of Shakespeare. Fairy tradition has lost out in scholarly critical convention to the more masculine mythologies of Christianity and classical Greece and Rome, in which female deities either serve masculine gods or are themselves masculinized (i.e., Diana as a buckskinned warrior). However, the fairy tradition is every bit as significant in our critical attempts to situate early modern texts in their historical contexts as the references to classical texts and struggles associated with state-mandated religious beliefs are widely agreed to be. *Fairies, Fractious Women, and the Old Faith* examines the ways in which the fairy, rebellious woman, quasi-Catholic trio repeatedly stages resistance to early modern conceptions of appropriate class and gender conduct and state-mandated religion in *A Midsummer Night's Dream*, *The Merry Wives of Windsor*, *Cymbeline*, *All's Well That Ends Well*, and Ben Jonson's *The Alchemist*.

Gender Relations in Early Modern England

This concise and accessible book explores the history of gender in England between 1500 and 1700. Amidst the political and religious disruptions of the Reformation and the Civil War, sexual difference and gender were matters of public debate and private contention. Laura Gowing provides unique insight into gender relations in a time of flux, through sources ranging from the women who tried to vote in Ipswich in 1640, to the dreams of Archbishop Laud and a grandmother describing the first time her grandson wore breeches. Examining gender relations in the contexts of the body, the house, the neighbourhood and the political world, this comprehensive study analyses the tides of change and the power of custom in a pre-modern world. This book offers: Previously unpublished documents by women and men from all levels of society, ranging from private letters to court cases A critical examination of a new field, reflecting original research and the most recent scholarship In-depth analysis of historical evidence, allowing the reader to reconstruct the hidden histories of women Also including a chronology, who's who of key figures, guide to further reading and a full-colour plate section, *Gender Relations in Early Modern England* is ideal for students and interested readers at all levels, providing a diverse range of primary sources and the tools to unlock them.

Editing Early Modern Women

This volume offers a new and comprehensive exploration of the theory and practice of editing early modern women's writing.

The Oxford History of British and Irish Catholicism, Vol II

The second volume of *The Oxford History of British & Irish Catholicism* traces the fortunes of Catholic communities in England, Wales, Scotland, and Ireland across a period of great uncertainty and change. From the outset of the Civil Wars in 1641 to the Jacobite rising of 1745, Catholics in the three kingdoms were varied in their responses to tumultuous events and tantalising opportunities. The competing forces of dynamism and conservatism within these communities saw them constantly seeking to re-situate or re-imagine themselves as their relationship to the state, to Protestantism, to continental Europe, as well as the wider world beyond, changed and evolved. Consciously transnational, the volume moves away

from insular conceptualisations of Catholicism and instead stresses connections with the European continent and beyond. Early chapters give broad overviews of the experience of Catholics in the period, tracking key events and important developments from 1641 to 1745. Chapters then address specific aspects of Catholicism, including empire and overseas missions, missionary activity, devotion, spirituality, trade, material culture, music, and architecture, among others, revealing a complex, rich and varied history of Catholicism in the period.

Jewish Poet and Intellectual in Seventeenth-Century Venice

The first Jewish woman to leave her mark as a writer and intellectual, Sarra Copia Sulam (1600?–41) was doubly tainted in the eyes of early modern society by her religion and her gender. This remarkable woman, who until now has been relatively neglected by modern scholarship, was a unique figure in Italian cultural life, opening her home, in the Venetian ghetto, to Jews and Christians alike as a literary salon. For this bilingual edition, Don Harrán has collected all of Sulam's previously scattered writings—letters, sonnets, a Manifesto—into a single volume. Harrán has also assembled all extant correspondence and poetry that was addressed to Sulam, as well as all known contemporary references to her, making them available to Anglophone readers for the first time. Featuring rich biographical and historical notes that place Sulam in her cultural context, this volume will provide readers with insight into the thought and creativity of a woman who dared to express herself in the male-dominated, overwhelmingly Catholic Venice of her time.

The Political Bible in Early Modern England

This book explores the Bible as a political document in seventeenth-century England, revealing how it provided a key language of political debate.

Women, Reading, and the Cultural Politics of Early Modern England

A study of the representation of reading in early modern Englishwomen's writing, this book exists at the intersection of textual criticism and cultural history. It looks at depictions of reading in women's printed devotional works, maternal advice books, poetry, and fiction, as well as manuscripts, for evidence of ways in which women conceived of reading in sixteenth- and early seventeenth-century England. Among the authors and texts considered are Katherine Parr, *Lamentation of a Sinner*; Anne Askew, *The Examinations of Anne Askew*; Dorothy Leigh, *The Mothers Blessing*; Elizabeth Grymeston, *Miscelanea Meditations Memoratives*; Aemelia Lanyer, *Salve Deus Rex Judaeorum*; and Mary Wroth, *The First Part of the Countess of Montgomery's Urania*. Attentive to contiguities between representations of reading in print and reading practices found in manuscript culture, this book also examines a commonplace book belonging to Anne Cornwallis (Folger Folger MS V.a.89) and a Passion poem presented by Elizabeth Middleton to Sarah Edmondes (Bod. MS Don. e.17). Edith Snook here makes an original contribution to the ongoing scholarly project of historicizing reading by foregrounding female writers of the early modern period. She explores how women's representations of reading negotiate the dynamic relationship between the public and private spheres and investigates how women might have been affected by changing ideas about literacy, as well as how they sought to effect change in devotional and literary reading practices. Finally, because the activity of reading is a site of cultural conflict - over gender, social and educational status, and the religious or national affiliation of readers - Snook brings to light how these women, when they write about reading, are engaged in structuring the cultural politics of early modern England.

Later Stuart Queens, 1660–1735

This book gathers contributions on the later Stuart queens and queen consorts. It seeks to re-insert Henrietta Maria, Catherine of Braganza, Mary of Modena, Mary II, Anne, and Maria Clementina Sobieska into the mainstream of Stuart and early Georgian studies, concentrating on the later Stuart queens from the restoration of King Charles II (who married Catherine of Braganza in 1662) until the death of Maria Clementina Sobieska in 1735, who was married to James Francis Edward Stuart, the titular King James III, otherwise known as the Old Pretender. It showcases these women's roles as

queen consorts and as ruling queens in Britain and Europe, and reveals how their positions allowed them to act as power-brokers, diplomats, patrons, and religious trendsetters during their lifetimes. It also explores their impact in early modern Britain and Europe by assessing their influence in religion, political culture, and the promotion of patronage.

English Women's Spiritual Utopias, 1400-1700

English Women's Spiritual Utopias, 1400-1700: New Kingdoms of Womanhood uncovers a tradition of women's utopianism that extends back to medieval women's monasticism, overturning accounts of utopia that trace its origins solely to Thomas More. As enclosed spaces in which women wielded authority that was unavailable to them in the outside world, medieval and early modern convents were self-consciously engaged in reworking pre-existing cultural heritage to project desired proto-feminist futures. The utopianism developed within the English convent percolated outwards to unenclosed women's spiritual communities such as Mary Ward's Institute of the Blessed Virgin and the Ferrar family at Little Gidding. Convent-based utopianism further acted as an unrecognized influence on the first English women's literary utopias by authors such as Margaret Cavendish and Mary Astell. Collectively, these female communities forged a mode of utopia that drew on the past to imagine new possibilities for themselves as well as for their larger religious and political communities. Tracking utopianism from the convent to the literary page over a period of 300 years, *New Kingdoms* writes a new history of medieval and early modern women's intellectual work and expands the concept of utopia itself.

Under the Veil

For women in early modern Europe, the Reformation and the Enlightenment entailed both new freedom and new restrictions. In response to an ideology that immured the female mind and spirit inside the body, women found in religion a hope for individual freedom, a sense of self-identity, and a justification for gender equality. *Under the Veil: Feminism and Spirituality in Post-Reformation Europe* invokes the veil's dual significance, as the marker of the religious woman, and as the metaphoric veil separating female interior life from its public construction. This collection of nine essays focuses specifically on the direct links between emergent feminism and religious faith as experienced through wide cultural, geographic, and confessional differences, united by themes of female subjectivity, selfhood, autonomy, and community. The essays range in topic and scope from the early seventeenth to the early nineteenth centuries, across Europe, Britain, and North America, through a wide range of experiences and written accounts – its subjects are Philadelphian visionaries and Quaker missionaries, Iroquois leaders and early Canadian nuns, Islamic societies and European female travellers, French mystics and educators, and British writers and intellectuals. These accounts reveal how women across a wide spectrum of formal beliefs and cultural backgrounds found in religion a way to negotiate the restrictions of their outward lives, and a radical source of personal and collective independence and value.

Biblical Readings and Literary Writings in Early Modern England, 1558-1625

The Bible had a profound impact on early modern culture, and bible-reading shaped the period's drama, poetry, and life-writings, as well as sermons and biblical commentaries. This volume provides an account of the how the Bible was read and applied in early modern England. It maps the connection between these readings and various forms of writing and argues that literary writings bear the hallmarks of the period's dominant exegetical practices, and do interpretative work. Tracing the impact of biblical reading across a range of genres and writers, the discussion demonstrates that literary reimaginings of, and allusions to, the Bible were common, varied, and ideologically evocative. The book explores how a series of popularly interpreted biblical narratives were recapitulated in the work of a diverse selection of writers, some of whom remain relatively unknown. In early modern England, the figures of Solomon, Job, and Christ's mother, Mary, and the books of Song of Songs and Revelation, are enmeshed in different ways with contemporary concerns, and their usage illustrates how the Bible's narratives could be turned to a fascinating array of debates. In showing the multifarious contexts in which biblical narratives were deployed, this book argues that Protestant interpretative practices contribute to, and problematize, literary constructions of a range of theological, political, and social debates.

Tudor and Stuart Consorts

This book examines the lives and tenures of all the consorts of the Tudor and Stuart monarchs of England between 1485 and 1714, as well as the wives of the two Lords Protector during the Commonwealth. The figures in *Tudor and Stuart Consorts* are both incredibly familiar—especially the

six wives of Henry VIII—and exceedingly unfamiliar, such as George of Denmark, the husband of Queen Anne. These innovative and authoritative biographies recognise the important role consorts played in a period before constitutional monarchy: in addition to correcting popular assumptions that are based on limited historical evidence, the chapters provide a fuller picture of the role of consort that goes beyond discussions of exceptionalism and subversion. This volume and its companions reveal the changing nature of English consortship from the Norman Conquest to today.

Performing Maternity in Early Modern England

Performing Maternity in Early Modern England features essays that share a common concern with exploring maternity's cultural representation, performative aspects and practical consequences in the period from 1540-1690. The essays interrogate how early modern texts depict fertility, conception, delivery and gendered constructions of maternity by analyzing a wealth of historical documents and images in conjunction with dramatic and non-dramatic literary texts. They emphasize that the embodied, repeated and public nature of maternity defines it as inherently performative and ultimately central to the production of gender identity during the early modern period.

Women's America

Featuring a mix of primary source documents, articles, and illustrations, *Women's America: Refocusing the Past* has long been an invaluable resource. Now in its eighth edition, the book has been extensively revised and updated to cover recent developments in U.S. women's history.

English Women, Religion, and Textual Production, 1500–1625

Contributing to the growing interest in early modern women and religion, this essay collection advances scholarship by introducing readers to recently recovered or little-studied texts and by offering new paradigms for the analysis of women's religious literary activities. Contributors underscore the fact that women had complex, multi-dimensional relationships to the religio-political order, acting as activists for specific causes but also departing from confessional norms in creative ways and engaging in intra- as well as extra-confessional conflict. The volume thus includes essays that reflect on the complex dynamics of religious culture itself and that illuminate the importance of women's engagement with Catholicism throughout the period. The collection also highlights the vitality of neglected intertextual genres such as prayers, meditations, and translations, and it focuses attention on diverse forms of textual production such as literary writing, patronage, epistolary exchanges, public reading, and epitaphs. Collectively, *English Women, Religion, and Textual Production, 1500-1625* offers a comprehensive treatment of the historical, literary, and methodological issues preoccupying scholars of women and religious writing.

Meditations on the Incarnation, Passion, and Death of Jesus Christ

Read by Protestants and Catholics alike, Catharina Regina von Greiffenberg (1633–94) was the foremost German woman poet and writer in the seventeenth-century German-speaking world. Privileged by her social station and education, she published a large body of religious writings under her own name to a reception unequalled by any other German woman during her lifetime. But once the popularity of devotional writings as a genre waned, Catharina's works went largely unread until scholars devoted renewed attention to them in the twentieth century. For this volume, Lynne Tatlock translates for the first time into English three of the thirty-six meditations, restoring Catharina to her rightful place in print. These meditations foreground women in the life of Jesus Christ—including accounts of women at the Incarnation and the Tomb—and in Scripture in general. Tatlock's selections give the modern reader a sense of the structure and nature of Catharina's devotional writings, highlighting the alternative they offer to the male-centered view of early modern literary and cultural production during her day, and redefining the role of women in Christian history.

History of Pilgrims Way

It Was at Canterbury Just over 1 , 400 Years Ago but St Augustine a Monk Sent from Rome Set Up a Monastery To Convert the Locals to Christianity since Then Canterbury's Always Been at the Center of Christian Beliefs in Britain but It Was the Murder of Archbishop Thomas Becket Here in 1170 after He Stood Up to King Henry II That Transformed this Cathedral into the Greatest Destination for Pilgrims in the Land That's Very Graphic this Is the Site of the Murder and You Can See Here on the Floor Thomas in Blood Red Being Here I Was Reminded of the Story of Pilgrims Wanting To Take Away Beckett's Blood Believing

That's Very Graphic this Is the Site of the Murder and You Can See Here on the Floor Thomas in Blood Red Being Here I Was Reminded of the Story of Pilgrims Wanting To Take Away Beckett's Blood Believing It Could Heal Them these Are Psychographic the Wailing of the Desperate and the Die Often Rang through Medieval Cathedrals We're So Fortunate To Have the Miracles of Modern Medicine When All Our Ancestors Could Do Was Drag Themselves to Shrines and Pray and Hope and Here We Are this Is the Spot Where the Shrine to Thomas Becket Stood that Would Have Marked the End of the Pilgrimage for Hundreds of Thousands of People over Hundreds of Years

We're So Fortunate To Have the Miracles of Modern Medicine When All Our Ancestors Could Do Was Drag Themselves to Shrines and Pray and Hope and Here We Are this Is the Spot Where the Shrine to Thomas Becket Stood that Would Have Marked the End of the Pilgrimage for Hundreds of Thousands of People over Hundreds of Years by all Accounts It Was a Shrine of Almost Heavenly Beauty Encrusted in Jewels It Would Have Been an Extraordinary End to Their Journey

And Here We Are this Is the Spot Where the Shrine to Thomas Becket Stood that Would Have Marked the End of the Pilgrimage for Hundreds of Thousands of People over Hundreds of Years by all Accounts It Was a Shrine of Almost Heavenly Beauty Encrusted in Jewels It Would Have Been an Extraordinary End to Their Journey the Shrine Was Destroyed during Henry the Eighth's Reformation along with Beckett's Body Becket Was Declared a Traitor and Stripped of His Sainthood Now all That Remains Is this Candle Burning on the Ground and Lettering on the Floor That Reads the Shrine of Thomas Becket Archbishop and Martyr Stood Here from 1220 until 1538 Now that Date Marks the End of the Golden Age of Pilgrimage in Britain

Margaret of Cortona and Other Stories

Edith Wharton (1862-1937), born Edith Newbold Jones, was an American novelist, short story writer, and designer. She combined her insider's view of America's privileged classes with a brilliant, natural wit to write humourous and incisive novels and short stories. Wharton was well-acquainted with many of her era's literary and public figures, including Henry James and Theodore Roosevelt. Besides her writing, she was a highly regarded landscape architect, interior designer, and taste-maker of her time. She wrote several influential books, including *The Decoration of Houses* (1897), her first published work, and *Italian Villas and Their Gardens* (1904). *The Age of Innocence* (1920), perhaps her best known work, won the 1921 Pulitzer Prize for literature, making her the first woman to win the award. Her other works include: *The Greater Inclination* (1899), *The Touchstone* (1900), *Sanctuary* (1903), *The Descent of Man and Other Stories* (1904), *The House of Mirth* (1905), *Madame de Treymes* (1907), *The Fruit of the Tree* (1907), *The Hermit and the Wild Woman and Other Stories* (1908), *Ethan Frome* (1912), *In Morocco* (1921), and *The Glimpses of the Moon* (1921).

An A to Z of Almost Everything

Literary Nonfiction. California Interest. Women's Studies. Film. Memoir. THE BIG LOVE is a Hollywood nightmare. It tells the story of Errol Flynn--a fading, alcoholic movie star--and the underage dancer-actress Beverly Aadland. The narrator? Beverly Aadland's fame-worshiping mother Mrs. Florence Aadland, who spurs the relationship on. There is nothing subtle or sympathetic about this memoir: It is outrageous, grotesque, surreal, notorious--an intimate look at Hollywood exploitation and decay. On the one hand, THE BIG LOVE depicts the deterioration of Errol Flynn, an actor who is quickly losing relevance after years of playing irresistible swashbucklers in films such as Captain Blood (1935) and

The Adventures of Robin Hood (1938). He is riddled with medical problems, drinking himself to death. On the other hand, there is Mrs. Florence Aadland, also an alcoholic, an uncultured stage mother psychotically pushing her daughter Beverly forward even at the cost of her own marriage. A bizarre, seedy time capsule of the 1950s, THE BIG LOVE is the long-lost literary sister of Barbara Payton's I AM NOT ASHAMED. And, after languishing out of print for years, it is ready to shock brand new audiences with its absurd humor, villainous characters, and sickly dissipation.

"I Addressed two books to the Illustrious Count Valerius, upon hearing that the Pelagians had brought sundry vague charges upon us--how, for instance, we condemned marriage by maintaining Original Sin. These books are entitled, On Marriage and Concupiscence. We maintain that marriage is good; and that it must not be supposed that the concupiscence of the flesh, or "the law in our members which wars against the law of mind," is a fault of marriage. Conjugal chastity makes a good use of the evil of concupiscence in the procreation of children. My first treatise contained two books. The first of them found its way into the hands of Julianus the Pelagian, who wrote four books in opposition to it. Out of these, somebody extracted sundry passages, and sent them to Count Valerius; he handed them to us, and after I had received them I wrote a second book in answer to these extracts. The first book of this work of mine opens with these words: "Our new heretics, most beloved son Valerius," while the second begins thus: "Amid the cares of your duty as a soldier."

In a period when access to fine paintings was restricted, Stubbs's reputation was spread chiefly through his engravings. This catalogue raisonn  is the only single volume to contain all Stubbs's known engravings and provides a complete record of prints made by others after his works. Introductory essays consider Stubbs's relationships with other artists, particularly his engravers, and examine how the prints were originally marketed. Part 1 covers the more important prints issued during Stubbs's lifetime, some of which are published here for the first time. Each of the 218 entries is fully illustrated and accompanied by comparative material. Part 2 comprises 440 supplementary entries and indicates the nature and extent of Stubbs's posthumous reputation. This book also is the first substantial review of the work of a major 18th century British painter by reference to the important, but neglected, medium of reproductive prints.

A to Z of Sport

It was Winston Churchill who, in his speech at Fulton, Missouri, advocated a 'special relationship between the British Commonwealth ... and the United States ... the continuance of intimate relationships between our military advisers, leading to the common study of potential dangers'. Through the eyes of Churchill, Roosevelt and their successors, Robin Renwick traces the development of the Anglo-American relationship since the desperate summer of 1940, and the part it played in shaping the post-war world. Detecting once again a whiff of the 1930s in the air, he concludes that, as one of the ties that binds Europe and North America, the relationship remains an important one, and not only to Britain and the United States. There are many on both sides of the Atlantic who will think that the world would have been poorer without it. Its future will depend on learning the lessons of military overstretch in Iraq and Afghanistan and resolving the mismatch between Britain's desire to play a role in world affairs and the resources allocated to doing so.
