

No Way Out The Politics Of Polish Jewry 1935 1939

[#Polish Jewry politics](#) [#Jewish life Poland 1930s](#) [#pre-WWII Jewish political history](#) [#Polish Jewish leadership challenges](#) [#no way out Jewish experience](#)

This compelling work explores the precarious political landscape of Polish Jewry between 1935 and 1939, a period marked by escalating challenges and a growing sense of desperation. It meticulously analyzes the internal communal politics and the external pressures that left the community feeling there was truly no way out, highlighting the complex struggles and difficult choices faced by Polish Jewish political actors on the eve of World War II. This offers crucial insights into interwar Polish Jewish political history and the pre-WWII Jewish experience in Poland.

Full Movie

Johnny Strange of Action Incorporated places an ad for a female secretary and hires Geraldine Smith.

A conversation between two individuals about a mysterious meeting and payment.

John is accused of having something to hide by Anthony Fitch and his secretary, Geraldine Smith, witnesses the conversation from outside the window.

A self-defense story and the consequences of obstructing justice.

Discussing Fitch's beliefs on marriage and a suspicious woman

Rhoda encounters a stranger in her dressing room who claims to know her and asks about Anthony Fitch.

Discussing a crime and a potential witness.

Discovers Fitch had an item in his next broadcast, which he believes was the motive for Fitch's murder,

but they are unable to find it in his study.

Mrs. Lowe is in a hurry to catch a plane and leaves her sister and Mr. Strange behind with Mr. Webb, who apologizes for not being able to release them.

Rhoda Roberts denies knowing Fitch well and claims their interactions were strictly business.

During each session of the Intermediate Level Education Course, the Command and General Staff College holds the General Douglas MacArthur Military Leadership Writing Competition. Students author and submit papers on various leadership topics. Winning papers are selected by a panel of judges and are evaluated on originality, scholarship, writing style and value to the profession. As part of our mission to promote scholarship and add to the professional discourse, the Combat Studies Institute is pleased to publish this selection of award winning papers written by students from the Command and General Staff College classes 12-01 and 12-02 for the Academic Year 2012 General Douglas MacArthur Military Leadership Writing Competition.

General Douglas MacArthur Military Leadership Writing Competition

There are very few tasks in the Army more important than developing effective, competent leaders. As a significant part of this effort, the Army provides Field Manual (FM) 6-22, which establishes leadership doctrine and fundamental principles to guide leaders at all levels. In support of this important objective, the manual offers a comprehensive framework for leadership that explicitly outlines the highly valued characteristics and competencies all leaders are expected to aspire and emulate. However, as valuable as this framework may be, much of its content is based upon intuition and experience. As expressed in FM 6-22, the manual "combines the lessons of the past with important insights" in establishing a model for competent leadership. While this approach to framing leadership has value, it can also be a significant limitation that potentially overlooks other highly influential factors to producing successful leadership and positive organizational outcomes. Similar to flaws in relying exclusively on anecdotal evidence, there may be important factors identified within the empirical literature absent or lacking emphasis in FM 6-22. Further, certain characteristics or competencies may be more important than others depending on the context or leadership position. These limitations suggest a review of relevant research is necessary to enhancing the Army's current model of leadership.

General Douglas MacArthur Military Leadership Writing Competition Command and General Staff College 2012

A look at the life and military accomplishments of General Douglas MacArthur, whose career included serving as commander of the United States Army in the Far East during World War II.

Military Review

General Douglas MacArthur was highly skilled and world famous as a military commander. Under his leadership after World War II, Japan was rebuilt into a democratic ally. But during the Korean War, in defiance of President Harry S. Truman and the Joint Chiefs of Staff, he pushed for an aggressive confrontation with Communist China—a position intended to provoke a wider war, regardless of the consequences. While MacArthur aspired to stamp out Communism across the globe, Truman was much more concerned with containing the Soviet Union. The infamous clash between them was not only an epic turning point in history, but the ultimate struggle between civil and military power in the United States. While other U.S. generals have challenged presidential authority, no other military leader has ever so brazenly attempted to dictate national policy. In MacArthur's War, Bevin Alexander details MacArthur's battles, from the alliances he made with Republican leaders to the threatening ultimatum he delivered to China against orders—the action that led directly to his downfall. Professional Journal of the United States Army

The field of Educational Leadership and Management originated and grew to maturity in the Western societies of the USA, UK and Australia. However, since the mid-1990s, scholars in east Asia have asserted the need to ground leadership theories and practices in the 'local contexts' in which school leaders practice. Mastering Theories of Educational Leadership and Management is one of the first volumes published which seeks to do this. The edited chapters illustrate and elaborate how perspectives on key concepts and theories of educational leadership are being interpreted and enacted in East Asian societies. By doing so the book makes a valuable contribution which will hopefully reduce the gap between theories as explained by Western scholars and practices as enacted in East Asian societies.

Douglas MacArthur

The two-year search for General Douglas MacArthur's speeches and reports was truly a labor of love. My Administrative Assistant, Ellen Schaefer, and I culled over 1,000 sources including memories, biographies, histories, military magazines such as the Army and Air Force Journals, unit histories, commercial magazines and newspapers. Magazines included such publications as National Geographic, Life Magazine and many esoteric less circulated literature such as Military Magazine, Retired Officers Magazine, Air Force Magazine and so many others. We received guidance and assistance from such sources as the U.S. Military Academy, the Engineering School at Ft. Leavenworth, the Command and General Staff School at Leavenworth, the Army War College, the MacArthur Archives Director James Zobel, the Library of Congress, the War Department; the sources seemed endless. We do believe we were able to capture all the major public speeches and reports covering MacArthur's truly productive years from 1908 through 1964. Contains more than 125 speeches/reports. It will be interesting to note, MacArthur established his personality early in his military career and never veered from this. His admonition from his Mother when MacArthur was a student at West Point was, never cheat, never lie, never tattle"". Adhering to this edict MacArthur offered to resign from the Academy rather than answer questions from the Academy panel investigating hazing and harassment by a group of fellow students. MacArthur continued to develop his hard line against political and military intrigue by resolving to always do what he believed right even if he knew no one was watching. Further he was determined never to refuse to carryout the order of a senior officer - never be insubordinate to constituted authority.""

Special Warfare

The present volume, first published in 1962, consists of two distinguished speeches given by the General of the U.S. Army, Douglas MacArthur. The first address took place on April 19, 1951 and was held before a joint meeting of the two houses of United States Congress—the House of Representatives and the Senate—and took place in the Hall of the House of Representatives. This meeting followed on just one week from MacArthur's removal from command by President Harry S. Truman. The second address was held on May 12, 1921 and was given to The Members of the Association of Graduates, U.S.M.A., The Corps of Cadets, and Distinguished Guests. It was given on the occasion of MacArthur's acceptance of the Sylvanus Thayer Award for outstanding service to the nation, which had gone to Eisenhower the year before. The event was held at the United States Military Academy in West Point, New York.

General MacArthur Speeches and Reports 1908-1964

Covers the life and career of the U.S. Army five-star general from his early life in various military outposts to a career in two World Wars.

Quarterly Review of Military Literature

This book was first published in 1951 as *The General and the President* after President Harry S. Truman relieved General Douglas MacArthur in the midst of the Korean War -a memorably explosive incident in American political history. But its significance extends far beyond a dramatic episode in the nation's past. This literate and ironic work continues to be an invaluable guide to the conflict between civilian and military authority, and it illuminates later and current controversies over the role the United States should play in Asian affairs. This new edition is graced by a remarkable introductory essay by Arthur Schlesinger, Jr. The text is reprinted from the 1965 republication under the title *The MacArthur*

Controversy, that is, the book as originally written with a few tenses altered and a few topical allusions deleted. General MacArthur and President Truman will be of special interest to students of American diplomacy, politics, and culture and to all concerned with the relationship between the armed forces and larger society.

Duty, Honor, Country

A biography of the controversial military leader remembered for his defense of the Philippines during World War II, administration of occupied Japan after the war, and leadership of United Nations troops in Korea until his recall by President Truman.

Douglas MacArthur

Written in his own hand, and finished only weeks before his death, *Reminiscences* by General Douglas MacArthur spans more than half a century of modern history. These pages show a man whose unique vantage point at the center of the stage enabled him to illuminate major controversies of our time, and whose views and ideas - never before published in full - are now bound to bring new and unexpected reappraisals to the conflicts in which he himself was the central figure. Douglas MacArthur served under eight presidents. He was honored as few men have been. His genius for command, and his ability to implement that command by strategy, stand as landmarks in military history. No man was ever so outspoken in his commitment to his troops or in his beliefs. A legend in his own lifetime, he was a man who aroused controversy, yet stood above the awe and the conflicts he inspired. Never before has one soldier's life so completely reflected a nation's military history. After graduation from West Point with the highest average ever achieved by a cadet, MacArthur served in Vera Cruz during the Mexican uprisings and then as military attache in the Far East, where he first perceived Japanese aspirations for hegemony the Orient. His courage in the trenches and his leadership of the famous Rainbow Division during the First World War were cited by General Pershing, who seven times awarded MacArthur the Silver Star.

No Substitute For Victory: Lessons In Strategy And Leadership From General Douglas Macarthur

This is a new release of the original 1951 edition.

Douglas MacArthur

But his self-confidence, the breadth and depth of his thinking and his eloquence and commanding presence ensured that he filled with distinction the senior appointments into which he was swiftly elevated between the wars. When Douglas MacArthur returned to the U.S. after being relieved of command in Korea in 1951, he was setting foot on American soil for the first time since 1935. During his long sojourn in the Pacific he had fought against America's enemies in concert with a wide array of often contentious European allies and emerging Asian forces. In *MacArthur* Gavin Long examined one of the most complex personalities, thrust into some of the most complex situations, to be found in the "Military Commanders" series. It is scarcely surprising that he sometimes gave his subject mixed reviews. Long was editor of the *Australian Official History of World War II* and offers an interesting account of MacArthur's relationship with his Australian allies. Examples of MacArthur's initiative and leadership ability in Mexico and World War I, ignored in some studies, are given due attention here. Of particular interest, due to rapid changes of government throughout the world in recent years, is Long's insightful account of MacArthur's administration of post-war Japan. MacArthur himself later recalled that "Japan had become the world's greatest laboratory for an experiment in the liberation of a people from totalitarian rule and for the liberalization of government from within"

Reports of General MacArthur are the official after-action reports of General of the Army Douglas MacArthur. Long out of print, this facsimile edition contains not only MacArthur's own perspective of his operations against the Japanese in the Southwest Pacific Area during World War II but also the enemy's unique account of Imperial Army campaigns against MacArthur's forces. Collectively, the reports have substantial and enduring value for military historians and students of military affairs, providing an illuminating record of momentous events influenced in large measure by a distinguished Soldier and towering figure in American historiography. The *Reports of General MacArthur* include two volumes being published by the Department of the Army in four books reproduced exactly as they were

printed by General MacArthur's Tokyo headquarters in 1950, except for the addition of this foreword and indexes. Volume II of the Reports represents the contributions of Japanese officers employed to tell their story of operations against MacArthur's forces. Volume I narrates the operations of forces under General MacArthur's command from the Japanese attack on Luzon in 1941 through the surrender in 1945. While service histories have covered much of the same ground in separate volumes, no single detailed narrative of General MacArthur's leadership as commander of the Southwest Pacific Area has yet appeared. Chapters dealing with the reconquest of Borneo, plans for the invasion of Japan, and the Japanese surrender make a distinctly new contribution. Volume I Supplement describes the military phase of the occupation through December 1948, reporting events not treated elsewhere in American publications. Volume II on Japanese operations brings together a mass of information on the enemy now only partially available in many separate works. Collectively, the Reports should be of wide interest and value to the American people generally, as well as to students of military affairs. They are an illuminating record of momentous events influenced in large measure by a distinguished American soldier.

The Emperor General

The definitive account of General Douglas MacArthur's rise during World War II, from the author of the bestseller *The Admirals*. World War II changed the course of history. Douglas MacArthur changed the course of World War II. *MacArthur at War* will go deeper into this transformative period of his life than previous biographies, drilling into the military strategy that Walter R. Borneman is so skilled at conveying, and exploring how personality and ego translate into military successes and failures. Architect of stunning triumphs and inexplicable defeats, General MacArthur is the most intriguing military leader of the twentieth century. There was never any middle ground with MacArthur. This in-depth study of the most critical period of his career shows how his influence spread far beyond the war-torn Pacific. A Finalist for the Gilder Lehrman Prize for Military History at the New York Historical Society

General MacArthur and President Truman

This biography of General Douglas MacArthur offers a comprehensive look at the military leader's life and career, from his family background to his pivotal role in World War II to his controversial tenure as Supreme Commander of the Allied Powers in postwar Japan. Whitney draws on his personal experience serving under MacArthur to provide a nuanced portrait of the man and his legacy. The Untold Story of Douglas MacArthur

A military historian traces the long struggle of American presidents to assert their power over uncooperative generals. Since World War II, the United States has been engaged in near-constant military conflict abroad, often with ill-defined objectives, ineffectual strategy, and uncertain benefits. In this era of limited congressional oversight and "wars of choice," the executive and the armed services have shared the primary responsibility for making war. The negotiations between presidents and their generals thus grow ever more significant, and understanding them becomes essential. Matthew Moten traces a sweeping history of the evolving roles of civilian and military leaders in conducting war, demonstrating how war strategy and national security policy shifted as political and military institutions developed, and how they were shaped by leaders' personalities. Early presidents established the principle of military subordination to civil government, and from the Civil War to World War II the president's role as commander-in-chief solidified, with an increasingly professionalized military offering its counsel. But General Douglas MacArthur's insubordination to President Harry Truman during the Korean War put political-military tensions on public view. Subsequent presidents selected generals who would ally themselves with administration priorities. Military commanders in Vietnam, Iraq, and Afghanistan did just that—and the results were poorly conceived policy and badly executed strategy. The most effective historical collaborations between presidents and their generals were built on mutual respect for military

expertise and civilian authority, and a willingness to negotiate with candor and competence. Upon these foundations, future soldiers and statesmen can ensure effective decision-making in the event of war and bring us closer to the possibility of peace. Praise for *Presidents and Their Generals* "This highly readable book, impressive in scope, is a major contribution to understanding the important yet often-shifting dynamics of civil-military relations in the U.S. past, present, and future." —W. A. Taylor, *Choice* "The author's opinions are precise and witty and based on comprehensive knowledge of his subject, as he clearly demonstrates how wars are lost by the arrogant and/or incompetent. A brilliant, fascinating picture of how wars badly begun and poorly run can affect an entire country—usually at the hands of just a few men." —Kirkus Reviews (starred review)

General Douglas MacArthur

At twenty-six Douglas MacArthur was military aide to President Theodore Roosevelt, and his courageous leadership of the Rainbow Division in World War I made him a general. At the same time, his reluctance to heed any authority but his own gained him a reputation of arrogance and insubordination that was to shadow his entire career. As MacArthur helped guide defeated Japan to democracy, it was remarked that he himself tolerated no democratic questioning of his commands. When he was summoned from Japan to take command of the desperately beleaguered forces in Korea, the conflict between duty and pride brought his career to a dramatic conclusion. With brilliant generalship he saved his army from defeat, only to be removed from his post when he refused to obey the president himself. Douglas MacArthur's deeds were of heroic proportion, but he is, and will continue to be, one of America's most controversial figures.

The thought-provoking quotations presented here cover a broad spectrum of topics related to leadership. The majority of authors represented are great statesmen, philosophers, or military leaders, but also included are pertinent thoughts by corporate leaders, scholars, and writers. International in scope, the collection includes quotations from every period of history from ancient to contemporary times. In this eminently browseable book, the reader will find the quotations arranged in an accessible format. Guided by a detailed table of contents and a unique index, the reader can easily locate quotes either by topic or by author. Robert Fitton has created a valuable and enjoyable reference work for anyone interested in the many facets of leadership.

This book covers the proceedings from the 2016 International Symposium on Chaos, Complexity and Leadership, and reflects current research results of chaos and complexity studies and their applications in various fields. Included are research papers in the fields of applied nonlinear methods, modeling of data and simulations, as well as theoretical achievements of chaos and complex systems. Also discussed are leadership and management applications of chaos and complexity theory.

MacArthur at War

General Douglas MacArthur has been hailed as the greatest soldier in American history. While not everyone would agree with that assessment, there is no question that MacArthur played a prominent role in the emergence of the United States as a world power in the twentieth century. A distinguished combat soldier during World War I and an innovative educator at West Point in the 1920s, MacArthur became the army's chief of staff during the Great Depression. He went abroad in the 1930s to prepare the Philippines for war. His stand against the Japanese following Pearl Harbor made him a national hero, and his subsequent campaign against Japanese forces in the Southwest Pacific only added to his reputation. The Korean War gave MacArthur a final opportunity to display his military skills. MacArthur and the American Century assembles for the first time a nuanced and full scrutiny of MacArthur's entire career. Essays by such experts as Stanley L. Falk and D. Clayton James accompany materials by Dwight D. Eisenhower and MacArthur himself, providing analysis and evaluation of the immense impact this dramatic figure had on war, peace, and the American imagination.

MacArthur His Rendezvous with History

James Ellman digs deep, connects the dots, and concludes that General Douglas MacArthur was decidedly not a military genius. One of America's most controversial generals, Douglas MacArthur's rise through the U.S. Army's ranks was meteoric. However, he did not lead large formations of men in combat until he assumed command of forces in the Philippines in 1941. When war commenced with the bombing of Pearl Harbor, MacArthur's performance on the battlefield was a failure: he underestimated the Japanese, and his poorly trained forces were outmaneuvered and outfought by a much smaller invading force. However, in what became a repeating hallmark of his career, he successfully portrayed his actions to much of the American people as brilliant and heroic regardless of victory or defeat. After fleeing to Australia, MacArthur famously announced, "I will return," and followed through on a quest to retake Manila regardless of its impact on Allied global strategy or its cost in American, Australian, and Filipino blood. In his subsequent role as America's shogun in Tokyo, MacArthur was again surprised by an enemy he underestimated. The Korean War yielded his greatest victory, at Inchon, but also his greatest defeat, along the Yalu River. Unwilling to accept anything but complete victory, he openly defied President Truman: MacArthur fatally undermined chances for an early peace, planned to seed a great swath of enemy territory with radioactive cobalt, and attempted to widen a conflict which threatened to become a third world war. Raging against his subsequent firing, he only truly faded away after he was publicly criticized by a panoply of America's greatest WWII generals. Today, MacArthur still polarizes. Many biographies agree he was a great and patriotic leader marred by a few failures. Ellman argues the opposite: MacArthur was a lackluster battlefield commander who suffered stunning defeats while undermining the command structure of our military.

Presidents and Their Generals

With full color maps. From the foreword: "The Reports of General MacArthur include two volumes being published by the Department of the Army in four books reproduced exactly as they were printed by General MacArthur's Tokyo headquarters in 1950, except for the addition of this foreword and indexes. Since they were Government property, the general turned over to the Department in 1953 these volumes and related source materials. In Army and National Archives custody these materials have been available for research although they have not been easily accessible. While he lived, General MacArthur was unwilling to approve the reproduction and dissemination of the Reports, because he believed they needed further editing and correction of some inaccuracies. His passing permits publication but not the correction he deemed desirable. In publishing them, the Department of the Army must therefore disclaim any responsibility for their accuracy. But the Army also recognizes that these volumes have substantial and enduring value, and it believes the American people are entitled to have them made widely available through government publication. Volume I narrates the operations of forces under General MacArthur's command from the Japanese attack on Luzon in 1941 through the surrender in 1945. While service histories have covered much of the same ground in separate volumes, no single detailed narrative of General MacArthur's leadership as commander of the Southwest Pacific Area has yet appeared. Chapters dealing with the reconquest of Borneo, plans for the invasion of Japan, and the Japanese surrender make a distinctly new contribution."

MacArthur as Military Commander

A biography of the famous general Douglas MacArthur.

Frontline General: Douglas MacArthur

General of the Army Douglas MacArthur was an extraordinary military leader and one of the most controversial figures in American history. An enormous amount of literature has accumulated about his career, which spanned most of the 20th century. General MacArthur is the subject of this first comprehensive assessment and survey of all of the writings by and about him. Publication coincides and reflects the formal commemoration of the 50th anniversary of World War II. A short biographical essay and chronology set the stage for the historiographical critique, which is organized topically and into different time periods. This extensive historiographical narrative is cross-referenced to the annotated bibliography of 759 published and unpublished sources, both academic and popular, including film and fiction. Author and subject indexes complete the volume. This guide to the literature on MacArthur describes archival collections and research facilities; points to conflicting interpretations about the role of General MacArthur as Chief of Staff of the Army, in World War II, in the occupation of Japan, in the Korean War, and in the sensational recall from his position as Far Eastern Commander in 1951; and

suggests areas for further research. The historiographical narrative and annotated bibliography cover the career of the general from his earliest years to his death in 1964. This easy-to-use research tool is designed for students, scholars, and readers at all levels; for use by all those concerned with recent U.S. and world history; and for special commemorations of World War II.

Leadership

From 1942–1945 the Allies' war in the Southwest Pacific was effectively a bilateral coalition between the United States and Australia under the command of General Douglas MacArthur. By charting the evolution of the military effectiveness of the US-Australian alliance, MacArthur's Coalition puts the relationship between the United States and Australia at the center of the war against Japan. Drawing on new primary source material, Peter J. Dean has written the first substantial book-length treatment of the coalition as a combined military force. This expansive and ambitious book provides a fresh perspective on the Pacific War by providing a close-up, in-depth account of operations in the Southwest Pacific from the Kokoda Trail campaign to the reconquest of the Philippines and Borneo. Dean's work takes the reader deep into the key military headquarters in the Southwest Pacific and reveals the discussions, debates, and arguments between key commanders and staff officers during the course of planning and waging a monumental conflict. Drawing upon archival records across three continents, Dean brings the qualities of these senior officers to life by exploring the critical importance of personalities and leadership in overcoming cultural, doctrinal, and organizational divides in the largely unequal alliance. Set against the practicalities of fighting a fanatical enemy in some of the most inhospitable terrain in the war, his book shows how, despite these divides and MacArthur's difficult personality, the US-Australian coalition was able to forge a highly effective and ultimately triumphant fighting machine. With its unprecedented view of the joint nature of operations in the Southwest Pacific and its focus on frontline commanders and units in forging a successful fighting force, MacArthur's Coalition illuminates a critical aspect of the Allied victory in World War II.
