Open this book and you will step into the world of a generation gone, of pre- and post-war Hungarian Jewry, as young Leichu moves between two communities and their divergent lifestyles. This is a gripping story of separation and reunion, of pure faith and acceptance of G-d's will, and of triumph over despair.

A Jewish Mother from Berlin

Two novels by a Jewish writer who died in a World War II concentration camp. The title novel is on a woman's hunt for the rapist of her daughter amid the decadence of 1920s Berlin, while the novel, *Susanna*, is a romance whose protagonist is a mentally ill girl.

The Jewish Mother Book

Oy! So you've got a Jewish mother . . . and you're not even Jewish. Overbearing? Nagging? Shrugs her shoulders deeply and often? Turns all statements into questions? The master of the sigh? Read more about those characteristics we've come to know and love.

The Inability to Love

The Inability to Love borrows its title from Alexander and Margarete Mitscherlich's 1967 landmark book *The Inability to Mourn*, which discussed German society's lack of psychological reckoning with the Holocaust. Challenging that notion, Agnes Mueller turns to recently published works by prominent contemporary German, non-Jewish writers to examine whether there has been a thorough engagement with German history and memory. She focuses on literature that invokes Jews, Israel, and the Holocaust. Mueller's aim is to shed light on pressing questions concerning German memories of the past, and on German images of Jews in Germany at a moment that is ideologically and historically fraught.

You Never Call! You Never Write!

An illuminating, often humorous history of the Jewish Mother traces the evolution of this popular icon through decades of American culture, detailing both positive and negative aspects through the years while examining such images as the "Yiddishe Mama," "Molly Goldberg," the smothering and shrewish scourge of Portnoy's Complaint, and beyond.

The Jewish Mother Rolls It Over

MILFs. OK, OK. I was older than his mother. And he was the lover of my daughter. We were just names on his list. But he made me feel like a woman!

Mothers in the Jewish Cultural Imagination

Most Jews will feel intimately familiar with and attached to the figure of the 'Jewish mother', yet few have questioned representations of mothers and motherhood in Jewish culture. This volume aims to fill this gap by bringing to the fore the vast network of symbols and images which Jews have associated with mothers from the Bible to the modern period. It demonstrates the complex ways in which the Jewish mother has been used to construct and frame Jewish religion and culture.

Keepers of the Motherland

Keepers of the Motherland is the first comprehensive study of German and Austrian Jewish women authors. Dagmar Lorenz begins with an examination of the Yiddish author Glikl Hamil, whose works date from the late-seventeenth and early eighteenth centuries, and proceeds through such contemporary writers as Grete Weil, Katja Behrens, and Ruth Kl_ger. Along the way she examines an extraordinary range of distinguished authors, including Else Lasker-Sch_ler, Rosa Luxemburg, Nelly Sachs, and Gertrud Kolmar. Although Lorenz highlights the author's individualities, she unifies *Keepers of the Motherland* with sustained attention to the ways in which they all reflect upon their identities as Jews and women. In this spirit Lorenz argues that the themes and characters as well as the environments evoked in the texts of Jewish women authors writing in German resist patriarchal structures. The term 'motherland,' defining the domain of the Jewish woman's native language, regardless of political or ethnic boundaries, is juxtaposed with the concept 'fatherland,' referring to the power structures of the nation or state in which she resides. Lorenz describes a vital, diverse, and largely dissident literary tradition—a brilliant countertradition, in effect, that has endured in spite of oppression and genocide. Combining careful research with inspired synthesis, Lorenz provides an indispensable work for students of German, Jewish, and women's writings.

You Never Call! You Never Write!

Continually revised and reinvented, the Jewish Mother archetype becomes in Antler's expert hands a unique lens with which to examine vital concerns of American Jews and the culture at large.

A Woman of Uncertain Character

This tale of a Russian immigrant is a "gripping and gritty memoir [and] a eulogy for a combative, self-conscious, often violent American working class" (Los Angeles Times). Jennie Persily, with her fiery red hair, buxom figure, and bohemian spirit, is a strong-willed fighter for justice and a passionate lover. A Russian-Jewish émigré who organizes unions in the sweatshops and on the mean streets of Chicago during the thirties and forties, Jennie frequently brings her son—the book's author, Clancy Sigal—along to rallies and on dangerous missions, often eluding union-busting hit men. As unsentimental, intelligent, and brazen as its subject, *A Woman of Uncertain Character* is a candid look into a childhood shaped by a feverishly brave, sexually open, and very complex mother. Sigal gains a deep, satisfying understanding of the woman who made him, and the world that made her.

The Image of the Jew in American Literature

Praiseworthy and complete scholarship make this the definitive work on the subject.

25 Questions for a Jewish Mother

"There's a little Jewish mother in every mother," as comedienne Judy Gold reveals in her achingly hilarious and poignant book *For a Jewish Girl* who remembers the first book ever read to her as a child was the pop-up version of *The Diary of Anne Frank*, learning how to be a Jewish mother who wasn't a carbon copy of HER Jewish mother wasn't easy. Here, Emmy Award-winning comedienne Judy Gold asks, "Are there any Jewish mothers out there like me, or are they all, G-d forbid, like my mother?" In *25 Questions for a Jewish Mother*, she incorporates her own adventures in Jewish motherhood and her memories of growing up Jewish in suburban New Jersey -- communicating with her mother by putting Ann Landers articles on the fridge ("Dear Ann, My mother won't let me walk alone to school and I'm 16! Please help." "Dear Ann, The crossing guard drinks. Please help.") -- with the voices of the fifty other Jewish mothers, she and her co-author, Kathleen Moira Ryan, interviewed. They asked homemakers, lawyers, Holocaust survivors twenty-five questions, including: --Who's your favorite Jewish mother (Judy's is Barbra Streisand.)? --How many times a day do you talk to your children or mother (for Judy, it's anywhere from one to the high double digits)? --Are Jewish mothers really more paranoid (or, "Why do I have to write an entire itinerary with names, addresses, and phone numbers every time I leave the house")? And so on. The culmination of these extraordinary stories confirms that there is ultimately something strong, courageous, and loving in every Jewish mother -- a hopeful -- and very funny -- message to mothers and their children everywhere.

Writing for Justice

In *Writing for Justice*, Elina Mortara presents a richly layered study of the cultural and intellectual atmosphere of mid-nineteenth-century Europe and the United States, through close readings of the life and work of Victor Séjour, an expat American Creole from New Orleans living in Paris. In addition to writing *The Mulatto*, an early story on slavery in Saint-Domingue, Séjour penned *La Tireuse de cartes* (*The Fortune-Teller*, 1859), a popular play based on the famed Mortara case. In this historical incident, Pope Pius IX kidnapped Edgardo Mortara, the child of a Jewish family living in the Papal States. The details of the play's production - and its reception on both sides of the Atlantic - are intertwined with the events of the Italian Risorgimento and of pre - Civil War America. *Writing for Justice* is full of surprising encounters with French and American writers and historical figures, including Hugo, Hawthorne, Twain, Napoleon III, Garibaldi, and Lincoln. As Elina Mortara passionately argues, the enormous amount of public attention received by the case reveals an era of underappreciated transatlantic intellectual exchange, in which an African American writer used notions of emancipation in religious as well as racial terms, linking the plight of blacks in America to that of Jews in Europe, and to the larger battles for freedom and nationhood advancing across the continent. This book will appeal both to general readers and to scholars, including historians, literary critics, and specialists in African American studies, Jewish, Catholic, or religious studies, multilingual American literature, francophone literature, theatrical life, nineteenth-century European politics, and cross-cultural encounters.

Jewish Mothers Never Die

The mothers of some of the most illustrious Jewish men in recent history—Albert Einstein, Marcel Proust, Sigmund Freud, Woody Allen, the Marx Brothers—are chatting in heaven. The subject: their respective sons—and their undying love for their mothers. Each one, as before in life, engages in one-upmanship toward the others when speaking about her own renowned offspring, and no opportunity to boast can ever be missed. “He loves me so much that for my last birthday he bought me a fabulous fur coat.” “Oh! Mine topped that. He saved money for an entire year and treated me to a fantastic trip to the Caribbean.” “As for me, imagine, three times a week he actually pays a psychiatrist to talk about me.” Each woman insists on being the force, the savior, the *raison d’être* of her son’s career and success. We follow the intricacies of each woman’s marriage and details of her social environment, but more specifically, the relationship with her “unique” child. Written with a delicate touch, *Jewish Mothers Never Die* reveals in tender, funny, and searing portraits how some women continue to live through their children—even after death. Every reader will have a good chuckle, and all will enjoy this utterly charming and entertaining novel. Skyhorse Publishing, as well as our Arcade, Yucca, and Good Books imprints, are proud to publish a broad range of books for readers interested in fiction—novels, novellas, political and medical thrillers, comedy, satire, historical fiction, romance, erotic and love stories, mystery, classic literature, folklore and mythology, literary classics including Shakespeare, Dumas, Wilde, Cather, and much more. While not every title we publish becomes a New York Times bestseller or a national bestseller, we are committed to books on subjects that are sometimes overlooked and to authors whose work might not otherwise find a home.

Compelling and astonishing.”—Kristen Arnett, author of *Mostly Dead Things* Unfolding over the course of nine days, and written with enormous heart, *All My Mother’s Lovers* is a meditation on the universality and particularity of family ties, grief, and generational divides, as well as a tender and biting portrait of sex, gender, and identity. After Maggie Krause’s mother dies suddenly in a car crash, Maggie finds five sealed envelopes with her will, each addressed to a mysterious man she’s never heard of. Maggie and her mother, Iris, weren’t close, especially since Maggie came out, but she never thought they would run out of time to figure each other out. Now in her late twenties, Maggie is finally in something resembling a serious relationship, wondering if some of whatever shaped her parents’ decades-long love story might exist after all. Overwhelmed by her grief and frustrated with her family, Maggie decides to escape the shiva and hand-deliver her mother’s letters. The ensuing road trip takes her over miles of California highways, through strangers’ recollections of a second, hidden life (that seems almost impossible to reconcile with the Iris she knew), and a journey through her own fears as she navigates her new relationship. As she fills in the details of Iris’s story, Maggie must confront the possibility that almost everything she knew about her mother — her marriage, her lukewarm relationship to Judaism, her disapproval of her daughter’s queerness — is more meaningful than she ever allowed herself to imagine.

My Mother's Wars

An acclaimed writer on her mother’s tumultuous life as a Jewish immigrant in 1930s New York and her life-long guilt when the Holocaust claims the family she left behind in Latvia A story of love, war, and life as a Jewish immigrant in the squalid factories and lively dance halls of New York’s Garment District in the 1930s, *My Mother’s Wars* is the memoir Lillian Faderman’s mother was never able to write. The daughter delves into her mother’s past to tell the story of a Latvian girl who left her village for America with dreams of a life on the stage and encountered the realities of her new world: the battles she was forced to fight as a woman, an immigrant worker, and a Jew with family left behind in Hitler’s deadly path. The story begins in 1914: Mary, the girl who will become Lillian Faderman’s mother, just seventeen and swept up with vague ambitions to be a dancer, travels alone to America, where her half-sister in

Brooklyn takes her in. She finds a job in the garment industry and a shop friend who teaches her the thrills of dance halls and the cheap amusements open to working-class girls. This dazzling life leaves Mary distracted and her half-sister and brother-in-law scandalized that she has become a "good-time gal." They kick her out of their home, an event with consequences Mary will regret for the rest of her life. Eighteen years later, still barely scraping by as a garment worker and unmarried at thirty-five, Mary falls madly in love and has a torrid romance with a man who will never marry her, but who will father Lillian Faderman before he disappears from their lives. America is in the midst of the Depression, Hitler is coming to power in Europe, and New York's garment workers are just beginning to unionize. Mary makes tentative steps to join, despite her lover's angry opposition. As National Socialism engulfs Europe, Mary realizes she must find a way to get her family out of Latvia, and she spends frenetic months chasing vague promises and false rumors of hope. Pregnant again, after having submitted to two wrenching back-room abortions, and still unmarried, Mary faces both single motherhood and the devastating possibility of losing her entire Eastern European family. Drawing on family stories and documents, as well as her own tireless research, Lillian Faderman has reconstructed an engrossing and essential chapter in the history of women, of workers, of Jews, and of the Holocaust as immigrants experienced it from American shores.

Living and Loving in Diversity

Sad and funny, sexy and sensitive, angry and insightful: the deeply personal stories in this book reflect a rainbow of experiences and emotions, as diverse as the storytellers themselves. Join chief editor Maria Pallotta-Chiarolli and the Australian LGBTIQ Multicultural Council for a journey of discovery through queer multicultural multifaith Australia, with more than sixty voices from across the spectrum of sexualities and genders, families and relationships. Annette Xiberras, lesbian Wurundjeri Elder with a Maltese father, provides a Welcome to Book and insights into her Indigenous-migrant family. Filmmakers Tony Ayres and Franco Di Chiera share their experiences telling stories from minority cultures on Australian screens, while Benjamin Law talks queer Asian-Australian identity, and making *The Family Law* for SBS. Broadcaster Faustina Agolley talks about being 'out' as a woman of colour, and Anton Enus tells us about coming out as a 'coloured' gay man in South Africa. Entertainer Paul Capsis reflects on doing *Cabaret* in the age of Trump while Asiel Adan talks about non-binary gender across the US border in Mexico. Meanwhile, Christos Tsiolkas imagines Ari, the protagonist of his iconic novel *Loaded*, now middle-aged, during a weekend of mass violence in distant Paris, while Patrick Abboud travels the world so he can come home. Alyena Mohummadally searches for reconciliation between her queer and Muslim identities and Tony Briffa shares a personal story of growing up with intersex variations and the rigidity of Western medicine. Yiddishe Mamas

The Jewish mother feels her job isn't done even after death. You're never too dead to be a Jewish mother." --Mallory Lewis, daughter of Shari Lewis * What do Steven Spielberg, Woody Allen, Barbra Streisand, Jon Stewart, Bette Midler, and Natalie Portman have in common with this book? A Jewish mother. Is there such a thing as a Jewish mother? And if so, who is she? For the first time, best-selling Jewish author and humorist Marnie Winston-Macauley examines all aspects of the Jewish mother. Chronicling biblical Jewish mothers to modern-day Yentls, she creates a compendium using celebrity interviews, anecdotes, humor, and scholarly sources to answer these questions with truth and humor. * Contributors to the book range from Dr. Ruth Gruber and Rabbi Bonnie Koppel to Jackie Mason, Amy Borkowsky, John Stossel, Lainie Kazan, and more. * "The definitive source on Jewish mothers." --Eileen Warshaw, Ph.D., executive director of the Jewish Heritage Center of the Southwest

IN THE SHADOW OF DEATH

Maléa's story not only changed her life but also changed the life of her entire family. When I began writing this story, it was spoken in my spirit that this was much more than a story about a girl who the medical community thought was dying, who had been in coma for many months, of which she came out of successfully, nor was it about the number of painful medical procedures and traumatic episodes she had to endure while on this horrific and painful journey. Rather it was a story about a miraculous journey that a daughter and mother had been destined to travel together as a divine living testimony for those who dare to believe that there is a God, an all-powerful God, a God that is all seeing and all knowing who has powers that are far beyond man's diminutive mind and understanding! This phenomenal experience Maléa and I had not only reaches far beyond her and my understanding, but, I dare say, also reaches beyond everyone's mind who was there at the time when this happened and those who witnessed for themselves the unbelievable miraculous finish of it all, and who are still baffled and still marvel at how well mentally and physically Maléa turned out from all that she endured throughout this terrible medical journey. I call Maléa's medical ordeal a journey because of the length of time it took before any changes could be seen, and also because of the many difficult medical problems that Maléa and I traveled together, hers being physically painful and mine with her emotionally for five years.

If I Only Knew...

If I Only Knew . . . Four words to describe the premise of life! Life's twists, turns, and navigation through bumpy roads could be avoided if only we knew that . . . If I Only Knew is the story of three generations, all female, all Jewish, spanning over three continents. From the late 1800s to present-day 2012, Gigi's story will take you through an emotional journey by way of a time capsule of some sort. This autobiography covers the story of a Jewish mother (born in Slovakia, July 4, 1920), who served in the British military, and unbeknown to her, was used by the British to work as a spy. If she only knew . . . Would she have made different choices? If she only knew that escaping the Nazi regime and serving time in the military in Egypt would save her from subsequent years of oppression under the communist regime—would she have made the ill-fated decision to return to Slovakia post-World War II? If Gigi's mother only knew that the note left under her door could lead her to a bridge that was blown up minutes later, would she have followed the path her lover tried to lead her on? If Gigi's mother only knew that the decisions she made would affect Gigi's life and bring upon her abuse, incest, betrayal of love and country, would she have made the same decisions? At thirteen, Gigi made the decision to escape the newly Russian-occupied Slovakia to the country she thought would be her saving grace—Israel. Instead of a place of refuge, the Jewish state that was supposed to protect Gigi ended up being one of the biggest betrayals of her life (one of many). If Gigi only knew that getting on the plane that fateful day would lead her to experience a different kind of holocaust, a personal one, would she have gotten on that plane? If Gigi only knew that her choice in husbands would land her in an insane asylum, cause her to attempt to leave this world, contact the FBI to protect her life, use an assumed name, and ultimately, inflict so much pain on her daughter, would she have married these men? In short, Gigi believes in destiny. She believes that the travails we experience are purposeful. Gigi believes that we are exactly where we are today, because it is what is meant to be. So, despite it all, the answer to the proverbial question of if I only knew, would I? Yes, Gigi would do it exactly as she had! Mistakes, pain, and all. It is all happenstance. Part of our journey through life. It is what you do with these life lessons that matter. It is Gigi's hope that her story of survival will embolden you to take control of any part of your life you feel is out of balance, no matter if it is financial, emotional or mental.

The United States Vs. Abbott, Et Al. a Love Story

A gripping, insightful, humorous firsthand account on the Varsity Blues College Admissions Scandal as seen through the eyes of a parent. From the moment armed federal officers barged into his bedroom at dawn, dragging him away in irons without telling him the nature of his crime, Greg Abbott recounts his experiences all the way through federal prison. Without skirting any wrongdoing, Abbott humanizes a case otherwise marked by federal abuse and one-dimensional, often flagrantly dishonest media portrayals. He shares why he paid \$125,000 to Rick Singer's Key Worldwide Foundation to support his daughter's standardized test scores, how he believed it was a humane, one-off accommodation for her physical disability—a severe form of Lyme disease that robbed his otherwise accomplished daughter of focus. The author shares unsettling truths about how lives otherwise blessed, even exemplary at times, can become cursed by a single false step taken out of love and compassion, not crass ambition. Such a misstep can incur the government's wrath where none was needed and become endless grist

for media and internet mills to satisfy our insatiable appetites for schadenfreude. His story, in the mere telling, exposes the real scandals of Varsity Blues and explains why citizens of all political stripes should be concerned. "We are merely one side of this multifaceted infamy," he writes.

Jewish American and Holocaust Literature

Deepens and enriches our understanding of the Jewish literary tradition and the implications of the Shoah. Challenging the notion that Jewish American and Holocaust literature have exhausted their limits, this volume reexamines these closely linked traditions in light of recent postmodern theory. Composed against the tumultuous background of great cultural transition and unprecedented state-sponsored systematic murder, Jewish American and Holocaust literature both address the concerns of postmodern human existence in extremis. In addition to exploring how various mythic and literary themes are deconstructed in the lurid light of Auschwitz, this book provides critical reassessments of Saul Bellow, Bernard Malamud, and Philip Roth, as well as contemporary Jewish American writers who are extending this vibrant tradition into the new millennium. These essays deepen and enrich our understanding of the Jewish literary tradition and the implications of the Shoah. Alan L. Berger is the Raddock Eminent Scholar Chair of Holocaust Studies and directs the Holocaust and Judaic Studies program and the Center for the Study of Values and Violence after Auschwitz at Florida Atlantic University. His previous books include *Children of Job: American Second-Generation Witnesses to the Holocaust*, also published by SUNY Press, and the *Encyclopedia of Holocaust Literature* (coedited with David Patterson and Sarita Cargas). Gloria L. Cronin is Professor of English at Brigham Young University and has written and edited numerous books, including *A Room of His Own: In Search of the Feminine in the Novels of Saul Bellow*.

The Life of Christ

This classic study of the idea of Noahide law traces the concept's historical development and shows how it is relevant to practical discussions of the halakhah pertaining to non-Jews and to relations between Jews and non-Jews. Individual analyses of each of the seven Noahide laws, drawing primarily on classical rabbinic texts by traditional commentators, are followed by a discussion of the underlying theory.

The Life and Words of Christ

At the end of World War II, Shoshanna, a survivor of Auschwitz, made her way home to Hungary. Of all her family, only she and one sister survived the camps. Years before, her young officer husband had disappeared into Russia. Believing herself a widow, Shoshanna fell under the protection of an older man who, like her, had lost everything in the Holocaust. Having given birth to this man's child before her beloved soldier returned, she made a choice that would cloud her life and her daughter's ever after. Elaine Kalman Naves is the daughter whose earliest memories were shaped by the consequences of her mother's decision as well as by haunting family tales. Shoshanna raised Elaine amid a wealth of family lore and all-too-vivid memories: the glamorous and eccentric aunts, handsome suitors and faithless husbands, death by order of the state, and murder at the hand of a lover. This is a lush and exotic family memoir set against momentous events, yet timeless in its truth-telling lessons.

The Image of the Non-Jew in Judaism

Shoshanna's Story

Momzilla or mother-in-law extraordinaire--which will you be? *Loving Your Daughter-in-Law* is filled with practical ideas of things that you can do to have a better relationship with this new woman in your son's life. It includes a guide for how to navigate your son's engagement, the wedding, and even your relationship with your daughter-in-law's parents. You will discover strategies for handling difficult issues: - How to let go of him and respect them - When to help and when to refrain from helping - How to handle simple disagreements or profound philosophical differences - When to speak and when to forever hold your peace - What to do when they decide to go somewhere other than your home for the holidays! Oh No! The chapters are user friendly and arranged in chronological order according to the stage of your

son's life, from his childhood, through his marriage, and until death do you part. Realize that you are not alone in your quandary of how to handle well the mother-in-law/daughter-in-law relationship. Be encouraged that there is hope and help. Find that your daughter-in-law is not the enemy but actually a friend in waiting.

My Mother Too?

The concept of social roles highlights sociology's distinctive approach to understanding human behavior. Social roles link behavior to structural positions and social expectations. They are important connecting rods between the individual and large-scale societal analysis. Consequently, role theory is an essential tool for understanding social institutions, the nature of interpersonal influence, socialization, and the ways in which individuals define no less than are defined by structural change. Bennett M. Berger provides a rich informal context for understanding how this has come about in American social science.

Loving Your Daughter-in-law

Beyond the Golden Door is the first book devoted to showing how Jewish playwrights of the twentieth century have dramatized the Jewish encounter with America. Questions dealt within this study include - How do you balance old world heritage with new world opportunity? What does it mean to be a Jew - or to be an American, for that matter?

The Jewish Spectator

Challenging the assumption that modernist writer Gertrude Stein seldom integrated her Jewish identity and heritage into her work, this book uncovers Stein's constant and varied writing about Jewish topics throughout her career. Amy Feinstein argues that Judaism was central to Stein's ideas about modernity, showing how Stein connects the modernist era to the Jewish experience. Combining through Stein's scholastic writings, drafting notebooks, and literary works, Feinstein analyzes references to Judaism that have puzzled scholars. She reveals the never-before-discussed influence of Matthew Arnold as well as a hidden Jewish framework in Stein's epic novel *The Making of Americans*. In Stein's experimental "voices" poems, Feinstein identifies an explicitly Jewish vocabulary that expresses themes of marriage, nationalism, and Zionism. She also shows how *Wars I Have Seen*, written in Vichy France during World War II, compares the experience of wartime occupation with the historic persecution of Jews. Affirming the importance of Jewish identity and modernist style to Gertrude Stein's legacy as a writer, this book radically changes the way we read and appreciate Stein's work.

Studies in Two Literatures

IN the past so much of the finest criticism has been J- purely the result of the occasion offered, that it is pedantic to complain of the same phenomenon in the present. The school of great critics of the beginning of the century would scarcely have made a mark but for the accident that Hazlitt and Coleridge were called upon to lecture, De Quincey and Lamb to contribute to an ephemeral journal. The formation of literary opinion is the work of coral insects. Here one builds a fragment, and there another confirms it, and these volunteers are often of more signal service than the professional historians who endeavor to follow impartially the growth of literature. Mr. Symonds is of the former type; one feels that he has written largely as opportunity came to him. His subjects are fragmentary, and have been selected by others under the modification of his own fancy. This is strikingly the case with the opening section of his volume, the studies in the Elizabethan age, but it is partly true in all. The volume is a selection of what seemed most durable in the miscellaneous work of some ten or twelve years of apprenticeship to the press. Let it be said at once that Mr. Symonds bears the test of republication remarkably well. There is a solidity, a unity in his view of literary objects which gives him an advantage over almost all other critics of his particular generation. He is guided, almost obstinately, by certain principles of aesthetic judgment; he adopts the same attitude towards all literary products; he is above all entirely candid, and engaged, so far as can be perceived, in "rolling" no "log." All this combines to form an

intellectual austerity, which may occasionally irritate us in a single article or review, but which, in the course of a volume which is instinct with it, has an attractive side. Mr. Arthur Symons impresses the reader by his rectitude. Whether his opinions are correct must be decided by closer inquiry; but we get that satisfaction which is given by a writer who, though quite modest in delivery, is perfectly clear about his destination and entirely certain that he knows the road. In his eloquent letter of dedication he lays down the law of his own mind, and he has an amusing phrase. Having confessed himself a firm believer in a principle which is excessively questioned, he adds, naively:— "One forgets sometimes that it has entered into the brains of men to doubt anything so obvious."First come seven studies on plays of Shakespeare, followed by essays on Massinger and Day. These do not appear to us to call for particular notice here. The Shakespeare essays formed part of the "Henry Irving" edition of the poet, issued and fully noticed many years ago. Mr. Symons has done well to separate these from the rest of a bulky enterprise, and they are worth preserving, although somewhat juvenile in manner and showing to some excess the influence of Mr. Swinburne. The essay on Massinger is full and competent; but Mr. Symons does not strike us as having been much interested in the subject; while that on John Day suffers from the difficulty of treating a writer whose outlines are all nebulous and vague. For instance, Mr. Symons quotes a pretty line, and says that it "bears the very sign and seal of Day." But how can we know what the sign and seal are of a dramatist four-fifths of whose works are lost, and who survives on the score of a single lyrical extravaganza of great, but probably not especially characteristic, beauty? This is the traditional way of talking about the Jacobean poets, which Mr. Swinburne, following Charles Lamb, has carried to such dangerous extremes.... —The Saturday Review

Studies in Two Literatures

Excerpt from *Studies in Two Literatures* My dear Moore, Do you remember, at the time when we were both living in the Temple, and our talks used to begin with midnight, and go on until the first glimmerings of dawn shivered among the trees, your trees and mine; do you remember how often we have discussed, well, I suppose everything which I speak of in these studies in the two literatures which we both chiefly care about? Our discussions, indeed, never came to an end; for they were the interchange of ideas, the noting, for one another's benefit (or, say, amusement) of sensations; and just because we both wanted to get at the truth of things, and both realized how many aspects truth has, neither of us had the least interest in getting the better of one another in an argument, or in thinking of any argument as finally settled. On first principles we were always, I think, agreed; and how often in regard to individual applications of them! Has either of us ever doubted that a work of art has but one reason for existence, that it should be a work of art, a moment of the eternity of beauty? One forgets, sometimes, that it has entered into the brains of men to doubt anything so obvious. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Journal of Critical Studies in Language and Literature (JCSLL) is a bimonthly double-blind peer-reviewed "Premier" open access journal that represents an interdisciplinary and critical forum for analysing and discussing the various dimensions in the interplay between language, literature, and translation. It locates at the intersection of disciplines including linguistics, discourse studies, stylistic analysis, linguistic analysis of literature, comparative literature, literary criticism, translation studies, literary translation and related areas. It focuses mainly on the empirically and critically founded research on the role of language, literature, and translation in all social processes and dynamics. Articles submitted to JCSLL should bring together critical theories and concepts and in-depth, empirical, language- and literary-oriented analysis. They have to be problem-oriented and rely on well-informed contemporary as well as historical contextualisation of the analysed texts and contexts. Methodologies can be qualitative, quantitative or mixed, but must in any case be systematic and anchored in relevant linguistic, literary, and translation disciplines.

Studies in Two Literatures

Excerpt from *Studies in Seven Arts* Do you remember the first two sentences of Pater's essay on 'The School of Giorgione'? I will copy them, for they make a kind of motto for my book, and sum up, I think, the way in which you and I (you always, and I since I have known you) have looked upon art and the arts. 'It is the mistake,' says Pater, 'of much popular criticism to regard poetry, music and painting - all the various products of art - as but translations into different languages of one and the same fixed quantity of imaginative thought, supplemented by certain technical qualities of colour in painting, of sound in music, of rhythmical words in poetry. In this way, the sensuous element in art, and with it almost everything in art that is essentially artistic, is made a matter of indifference; and a clear apprehension of the opposite principle - that the sensuous material of each art brings with it a special phase or quality of beauty, untranslatable into the forms of any other, an order of impressions distinct in kind is the beginning of all true æsthetic criticism.' With the art of poetry, or of literature in general, I am not here concerned: that is my main concern in most of my other books of criticism. A collection of articles and studies discussing early Islamic tenets and beliefs based on Islamic traditions and literature. A number of studies appear for the first time in English. The topics dealt with relate to the Islamic prostration in ritual prayer, Islamic traditions which are discussed through the analysis of hadith literature and reports and narratives related to the literary genre of the qicac al-anbiy ' (Stories of the Prophets). The readers of this collection of essays are scholars and students of early Islam, of the development hadith literature and of the narratives on Islamic prophets; all together the studies bring to light the dynamics between the formation of early traditions and their role in the origin and developments of Islamic literature.

Written by expert authors specializing in pharmacy practice and research, this valuable text will provide pharmacy students and practitioners with a thorough understanding of the principles and practices of drug literature evaluation with a strong grounding in research and biostatistical principles. *Principles of Research Design and Drug Literature Evaluation* is an ideal foundation for professional pharmacy students and a key resource for pharmacy residents, research fellows, practitioners, and clinical researchers. **FEATURES** * Chapter Pedagogy: Learning Objectives, Review Questions, References, and Online Resources * Instructor Resources: PowerPoint Presentations, Test Bank, and an Answer Key * Student Resources: a Navigate Companion Website, including Crossword Puzzles, Interactive Flash Cards, Interactive Glossary, Matching Questions, and Web Links From the Foreword: "This book was designed to provide and encourage practitioner's development and use of critical drug information evaluation skills through a deeper understanding of the foundational principles of study design and statistical methods. Because guidance on how a study's limited findings should not be used is rare, practitioners must understand and evaluate for themselves the veracity and implications of the inherently limited primary literature findings they use as sources of

drug information to make evidence-based decisions together with their patients. The editors organized the book into three supporting sections to meet their pedagogical goals and address practitioners' needs in translating research into practice. Thanks to the editors, authors, and content of this book, you can now be more prepared than ever before for translating research into practice." L. Studies in Seven Arts

With the onset of denationalising wave of globalization, literature and culture feel impelled to locate new arrangements of content and form, resulting in evolved cultural and social paradigm. Globalizing forces are reshaping our cultural, economic, and social landscapes. The literary discourse is also experiencing change at large, including in its migrant, diasporic, postcolonial, and transnational variants. This trans-fusion leads to identifying new transcultural and transnational approaches, perspectives, and theories. **RE-MAPPING THE CENTRE AND THE PERIPHERY: STUDIES IN LITERATURE & CULTURE** offers a comprehensive approach toward culture, language, and literature contributing to assess the dynamic of center (s) -periphery(ies) in the various spheres. The book sustains a plethora of themes ranging from adult hegemony, female subjectivity, and diaspora to Ganga Ghat and artificial intelligence. The book critiques the centre and the periphery and provides a fresh approach to the acclaimed oeuvres. The book also offers an unflinching critique of content and inequality through the lens of caste, class, gender, and race. The vivacity and horizons of research articles have been multiplied in curious and exciting ways. Throughout the book, a sense of place or the periphery is shown to be established, negated or supplanted by the literary works which are underpinned by the interlocking trajectories of several literary doctrines, and approaches. Besides literary and subtle observations, there are reflections gleaned from AI and mobile-assisted language learning. Plurality of observations, diversity of themes, and myriad interpretations will divulge an immense appeal to the Indian consciousness. The book posits that the scholarly articles express the confluent cultures which undermine the dichotomies between the colonizer and the colonized, the dominator and the dominated, the native and the (im)migrant, and the national and the ethnic.

Two Texts and I

What is the role of literature in our global landscape today? How do local authors respond to the growing worldwide power of English and the persisting effects of the colonial systems that paved the way for globalization today? These questions have often been approached very differently by postcolonialists and by students of world literature, but over the past two decades, a developing dialogue between these divergent approaches has produced robust scholarship and sometimes fractious debate, as issues of language, politics, and cultural difference have come to the fore. Drawing on a wide variety of cases, from medieval Wales to contemporary Syria and Australia, and on works written in Arabic, Basque, English, Hindi, and more, this collection explores the mutual illumination that can be gained through the interaction of postcolonial and world literary perspectives.

Principles of Research Design and Drug Literature Evaluation

Graham addresses several fundamental problems in classical Chinese philosophy, and in the nature and structure of the classical Chinese language. These inquiries and reflections are both broad based and detailed. Two sources of continuity bring these seemingly disparate parts into a coherent and intelligible whole. First, Graham addresses that set of fundamental philosophical questions that have been the focus of dispute in the tradition, and that have defined its character: What is the nature of human nature? What can we through linguistic and philosophical scrutiny discover about the date and composition of some of the major texts? What sense can we make of the Kung-sun Lung sophistries? A second source of coherence is Graham's identification and articulation of those basic and often

unconscious presuppositions that ground our own tradition. By so doing, he enables readers to break free from the limits of their own conceptual universe and to explore in the Chinese experience a profoundly different world view.

Re-mapping the Centre and the Periphery: Studies in Literature & Culture

This book explores the Tanhuma-Yelammedenu Literature, an important Jewish homiletic genre prevailing in late antiquity and early Byzantine Palestine. Originating in the culture of the study house, and addressing the synagogue audience, this literature allows us to follow the reception of the rabbinic culture in the wider Jewish society.

Language and Literature Studies

There is a number of problems connected with the study and teaching of any Oriental literature in general and of Tamil literature specifically which have to date been mostly ignored, although they are indispensable for solid knowledge and correct interpretation and understanding of the literature in question. These include problems of authenticity and authorship, of transmission and tradition, writing tools and materials, of relationship of orality to literacy, of Sanskrit to Tamil, the prehistory of Tamil written literature, the numerous texts that have been lost, scholarly lineages and the rediscovery of ancient Tamil literature etc. The book deals with all these problems as well as with some specific Tamil cultural phenomena such as the concept of "threefold Tamil" or the relationship of literature ('marked') to grammar ('marker'), with the derivation of the term "Tamil" and with the history of Tamil literary historiography. It will be indispensable as an introduction to the study of the more than 2000 years of Tamil literary history. By addressing questions which have thus far been almost completely neglected, it has also decisive impact on the interpretative comprehension of Tamil literature and on the teaching of this very rich heritage of verbal art.

Studies in Chinese Philosophy and Philosophical Literature

This book is about the interaction between literary studies and the philosophy of literature. It features essays from internationally renowned and emerging philosophers and literary scholars, challenging readers to join them in taking seriously the notion of interdisciplinary study and forging forward in new and exciting directions of thought. It identifies that literary studies and the philosophy of literature address similar issues: What is literature? What is its value? Why do I care about characters? What is the role of the author in understanding a literary work? What is fiction as opposed to non-fiction?

Yet, genuine, interdisciplinary interaction remains scarce. This collection seeks to overcome current obstacles and seek out new paths for exploration.

Studies in the Tanhuma-Yelammedenu Literature

This book provides a fresh account of modernist writing in a perspective based on the reading strategies developed by postcolonial studies.

The discipline of library and information science is interdisciplinary and multicultural. Capable of assimilating important concepts from diverse domains of knowledge, it is an integrative force. Many writers from diverse disciplines of knowledge have contributed to its development. The documented knowledge contained in a library's collection is a proxy for cultural knowledge transmission from place to place. In many domains of knowledge, the primary means of knowledge transfer between specialists is through records. For user focused services, librarianship has the ability to adapt and accept new ideas, methods, and approaches.

Human-Animal Studies: Literature

Cross-Cultural Studies is the culminating effort of a distinguished team of international scholars who have worked since the mid-1980s to create the most complete analysis of Caribbean literature ever undertaken. Conceived as a major contribution to postcolonial studies, cultural studies, cultural anthropology, and regional studies of the Caribbean and the Americas, Cross-Cultural Studies illuminates the interrelations between and among Europe, the Caribbean islands, Africa, and the American continents from the late fifteenth century to the present. Scholars from five continents bring to bear on the most salient issues of Caribbean literature theoretical and critical positions that are currently in the forefront of discussion in literature, the arts, and public policy. Among the major issues treated at length in Cross-Cultural Studies are: The history and construction of racial inequality in Caribbean colonization; The origins and formation of literatures in various Creoles; The gendered literary representation of the Caribbean region; The political and ideological appropriation of Caribbean history in creating the idea of national culture in North and South America, Europe, and Africa; The role of the Caribbean in contemporary theories of Modernism and the Postmodern; The decentering of such canonical authors as Shakespeare; The vexed but inevitable connectedness of Caribbean literature with both its former colonial metropolises and its geographical neighbors. Contributions to Cross-Cultural Studies give a concrete cultural and historical analysis of such contemporary critical terms as hybridity, transculturation, and the carnivalesque, which have so often been taken out of context and employed in narrowly ideological contexts. Two important theories of the simultaneous unity and diversity of Caribbean literature and culture, propounded by Antonio Benítez-Rojo and Édouard Glissant, receive extended treatment that places them strategically in the debate over multiculturalism in postcolonial societies and in the context of chaos theory. A contribution by Benítez-Rojo permits the reader to test the theory through his critical practice. Divided into nine thematic and methodological sections followed by a complete index to the names and dates of authors and significant historical figures discussed, Cross-Cultural Studies will be an indispensable resource for every library and a necessary handbook for scholars, teachers, and advanced students of the Caribbean region.

Studies in New Testament and Early Christian Literature

This collection brings together scholarship in theoretical and applied linguistics, literary and cultural studies, and second language studies. The contributors here investigate the nature of linguistic, cultural, and cognitive diversity, offering rich insights for theoretical advancement in multiple disciplines. Their theoretical and practical explications on discourse, literature, and linguistic structure contribute to a multifaceted conversation about diversity in language structure and use. From the relationships between eye contact and mindfulness, to the question of the universality of critical thinking, the topics in this volume represent a wide variety of approaches to the study of language. Specific areas in which advances are made here include sociolinguistics, second language pedagogy, and literature studies.

This is a translation of Frauwallner's *Abhidharmastudien*. It analyzes the literary traditions, doctrinal tendencies, and structural methods of the Buddhist Abhidharma canon in order to expose the beginnings of systematic philosophical thought in Buddhism. Frauwallner's insights illuminate the path of meditation toward liberation, the development of Buddhist psychology, and the evolution of the Buddhist view of causality and the problem of time. He provides a clear explanation of the gradual development of Buddhist thought from its early doctrinal beginning to some of the most complex and remarkable philosophical edifices in history.

Shows how Renaissance writers and artists struggled to reconcile past traditions with experiences of 'discovery.' In what ways have colonial and postcolonial studies transformed our perceptions of early modern European texts and images? How have those perceptions enriched our broader understanding of the colonial and the postcolonial? Focusing on English, Portuguese, Spanish and French colonial projects, Shankar Raman explains how encounters with new worlds and peoples irrevocably shaped both Europeans and their 'others'. There are in-depth case studies on: the Portuguese drama and epic of Gil Vicente and Luis Vaz de Camoes; travel narratives and exotic engravings from Theodore de Bry's influential compilations; and the English plays and verse of Christopher Marlowe, John Donne and Richard Brome.

Astronomy and Astrophysics Abstracts, which has appeared in semi-annual volumes since 1969, is devoted to the recording, summarizing and indexing of astronomical publications throughout the world. It is prepared under the auspices of the International Astronomical Union (according to a resolution adopted at the 14th General Assembly in 1970). *Astronomy and Astrophysics Abstracts* aims to present a comprehensive documentation of literature in all fields of astronomy and astrophysics. Every effort will be made to ensure that the average time interval between the date of receipt of the original literature and publication of the abstracts will not exceed eight months. This time interval is near to that achieved by monthly abstracting journals, compared to which our system of accumulating abstracts for about six months offers the advantage of greater convenience for the user. Volume 18 contains literature published in 1976 and received before March 1, 1977; some older literature which was received late and which is not recorded in earlier volumes is also included.
