Gods, Goddesses, and Mythology, Volume 4

Contains alphabetized entries on deities, concepts, practices, places, and objects related to the mythologies of cultures throughout history, and features color photos and sidebars. This volume covers Dru-Gil.

Roman Gods & Goddesses

While the ancient Roman pantheon in many ways resembles that of ancient Greece, there is much that sets apart Roman mythology. Romans also borrowed from the religions of ancient Egypt, Asia Minor, and the Middle East, and legendary figures such as Romulus and Remus, tied closely to the history

of Rome, feature prominently in ancient stories. The major and lesser figures of Roman mythology are presented in this vibrant volume with sidebars spotlighting related facts and concepts about Roman mythology and religion.

Dictionary of Gods and Goddesses

Presents brief entries describing the gods and goddesses from the mythology and religion of a wide variety of cultures throughout history.

Gods and Goddesses in Greek Mythology

Discusses various Greek myths, including creation stories and tales of principal gods and goddesses.

The Routledge Dictionary of Gods and Goddesses, Devils and Demons

This dictionary covers, in one volume, over 1,800 of the most important deities and demons from around the world. From classical Greek and Roman mythology to the gods of Eastern Europe and Mesopotamia, from Nordic giants to Islamic jinns and Egyptian monsters, it is packed with descriptions of the figures most worshipped and feared around the world and across time. Fully cross-referenced and featuring two handy guides to the functions and attributes shared by those featured, this dictionary is the essential resource for anyone interested in comparative religion and the mythology of the ancient and contemporary worlds.

Greek Gods & Goddesses

Giving Western literature and art many of its most enduring themes and archetypes, Greek mythology and the gods and goddesses at its core are a fundamental part of the popular imagination. At the heart of Greek mythology are exciting stories of drama, action, and adventure featuring gods and goddesses, who, while physically superior to humans, share many of their weaknesses. Readers will be introduced to the many figures once believed to populate Mount Olympus as well as related concepts and facts about the Greek mythological tradition.

Gods and Goddesses of Greece and Rome (Reference)

This title explores the many gods, goddesses, and mythological figures that have pervaded human culture from prehistoric times through today.

Encyclopaedia of Hindu Gods and Goddesses

Provides information on the gods and goddesses of a wide range of cultures, from the ancient Sumerian to the modern Haitian.

Gods and Goddesses

"Read about the war between the Titans and the Olympians, Pandora's box, Demeter and Persephone, and six other myths"--Provided by publisher.

Gods and Goddesses in Greek Mythology Rock!

Young readers are introduced to some of the most exciting figures in Greek mythology in this vibrant new series. Each title describes the responsibilities and characteristics of a featured god or goddess. A detailed mythological family tree also provides useful background information. The Gods and Goddesses of Ancient Greece series is sure to inspire a fascination for mythology and a love of reading. Each Gods and Goddesses of Ancient Greece title features easy-to-read text, stunning visuals, and a challenging educational activity. Gods and Goddesses of Ancient Greece is a series of AV2 media enhanced books. A unique book code printed on page 2 unlocks multimedia content. These books come alive with video, audio, weblinks, slide shows, activities, hands-on experiments, and much more.

Hephaestus

What could be better than diving into cool water on a hot day? In this enormously enjoyable and informative history of swimming, Eric Chaline sums up this most summery of moments with one phrase: pleasure beckons at the water's edge. Strokes of Genius traces the history of swimming from the

first civilizations to its current worldwide popularity as a sport, fitness pastime, and leisure activity. Chaline explores swimming's role in ritual, early trade and manufacturing, warfare, and medicine, before describing its transformation in the early modern period into a leisure activity and a competitive sport—the necessary precursors that have made it the most common physical pastime in the developed world. The book celebrates the physicality and sensuality of swimming—attributes that Chaline argues could have contributed to the evolution of the human species. Swimming, like other disciplines that use repetitive movements to train the body and quiet the mind, is also a means of spiritual awakening—a personal journey of discovery. Swimming has attained the status of a cultural marker, denoting eroticism, leisure, endurance, adventure, exploration, and excellence. *Strokes of Genius* shows that there is not a single story of human swimming, but many currents that merge, diverge, and remerge. Chaline argues that swimming will become particularly important as we look toward a warmer future in which our survival may depend on our ability to adapt to life in an aquatic world.

Strokes of Genius

Keel and Uehlinger's unique study brings the massive Palestinian archaeological evidence of 8,500 amulets and inscriptions to bear on these questions. Vindicating the use of symbols and visual remains to investigate ancient religion, the authors employ iconographic evidence from around 1750 B.C.E. through the Persian period (c. 333 B.C.E.) to reconstruct the emergence and development of the Yahweh cult in relation to its immediate neighbors and competitors. They also fully explore whether female characteristics were present in the early Yahweh figure and how they might have evolved in Israelite religion. Keel and Uehlinger's major study marks the maturation of iconographical studies and affords an exciting glimpse into the vibrant religious life of ancient Canaan and Israel.

Gods, Goddesses, And Images of God

Students of archaeology, travellers, visitors to museums and all those interested in mythology will value this comprehensive handbook. It details the major gods and goddesses and presents a broad survey of others, giving a vivid picture of the complexity and richness of the imagery of Egyptian mythology.

A Dictionary of Egyptian Gods and Goddesses

The ancient Greeks believed there were a great number of gods and goddesses. These gods had control over many different aspects of life on earth. In many ways they were very human. They could be kind or mean, angry or pleasant, cruel or loving. They fell in love with each other, argued with each other and even stole from each other. The ancient Greeks built great temples and sanctuaries to their gods. They held festivals in their honour, with processions, sports, sacrifices and competitions. Stories of the gods' exploits were told to children by their mothers and to large audiences by professional bards and storytellers. People today still enjoy hearing stories about the Greek gods. This book tells the tales of gods and goddesses such as Zeus, Aphrodite, Apollo, and Athena and heroes and monsters such as Helen of Troy, Perseus, and Medusa will fascinate and engage your imagination. Here is a selection of what you will learn: The Creation and the Gods The Olympian Gods (and a few others) Prometheus, Epimetheus and Pandora Psyche and Eros Oedipus and His Children The Trojan War Learn more about Greek Gods NOW and scroll up to the top of this page and BUY it Now!

Greek Gods

From the mighty Zeus, King of the Gods, to the beautiful Aphrodite, Goddess of Love and Beauty, the tales in this volume will take you from the birth of the Olympian gods to the action-packed Trojan War. As you journey through the pages of this book, you'll find: stories of gods, goddesses, heroes, and monsters; artwork that brings the stories and the characters vividly to life; a family tree of the gods and goddesses; sidebars that put stories into historical and cultural context; a map of Greece and the Mediterranean that helps put the stories into geographic context; a cast of characters, listing fast facts about each profiled god, goddess, and hero; and a Find Out More section for those who want to dig deeper and discover more.

Treasury of Greek Mythology

Sharing many common beliefs, deities, and rituals, the religion of the Maya, Aztec, and Inca was rooted in both the earth and the sky, the rhythms of the seasons, and the movements of the sun, moon, and stars. Readers will meet rain and sun gods, corn gods and fertility gods, earth mothers who are both

creators and destroyers, and even a feathered serpent. Lavish primary-source images of arts and artifacts are paired with text that is both information-packed and enthralling. Readers who enter this pantheon are in for an awe-inspiring cultural journey through the divine mysteries of time and space.

Gods & Goddesses of the Inca, Maya, and Aztec Civilizations

The ancient Greeks believed that all of nature was alive with intelligent beings, each of whom controlled his or her special niche of the sky, land masses, or seas. Moreover, unlike the perfect supreme being envisioned by Jews, Christians, and Muslims, the Greeks viewed their gods as extremely powerful, yes, yet also flawed. Like people, those colorful, often amusing deities made mistakes, cheated on their spouses, and fought among themselves.

Gods and Goddesses in Greek Mythology

Take a journey to ancient Rome and learn about some of the most exciting figures in Roman mythology. Full-color illustrations bring each god or goddess to life while readers discover their characteristics, responsibilities, and tales of triumph and defeat. A detailed family tree at the back of the book helps young readers see the connections and relationships Roman gods and goddesses have with each other, while an introductory chart with phonetic spellings helps readers learn to pronounce the characters' names. The Gods and Goddesses of Ancient Rome series is sure to inspire both an interest in mythology and a love of reading. Gods and Goddesses of Ancient Rome is a series of AV2 media enhanced books. Each title in the series features easy-to-read text, stunning visuals, and a challenging educational activity. A unique book code printed on page 2 unlocks multimedia content. These books come alive with video, audio, weblinks, slide shows, activities, hands-on experiments, and much more.

Jupiter King of the Gods, God of Sky and Storms

This collection explores the multifaceted nature of the gods and goddesses worshipped in ancient Italy. It examines Italic, Etruscan, and Latin deities in context and in the material remains, and also in the Greco-Roman written record and later scholarship which drew on these texts. Many deities were worshipped in ancient Italy by different individuals and communities, using different languages, at different sanctuaries, and for very different reasons. This multiplicity creates challenges for modern historians of antiquity at different levels. How do we cope with it? Can we reduce it to the conceptual unity necessary to provide a meaningful historical interpretation? To what extent can deities named in different languages be considered the equivalent of one another (e.g. Artemis and Diana)? How can we interpret the visual representations of deities that are not accompanied by written text? Can we reconstruct what these deities meant to their local worshippers although the overwhelming majority of our sources were written by Romans and Greeks? The contributors of this book, a group of ten scholars from the UK, Italy, France, and Poland, offer different perspectives on these problems, each concentrating on a particular god or goddess. Gods and Goddesses in Ancient Italy offers an invaluable resource for anyone working on ancient Roman and Italian religion.

Gods and Goddesses in Ancient Italy

Includes bibliographic references and index.

Greek Mythology: The Gods, Goddesses, and Heroes Handbook

This masterly book is the climax of over twenty-five years of study of the impact of Canaanite religion and mythology on ancient Israel and the Old Testament. It is John Day's magnum opus in which he sets forth all his main arguments and conclusions on the subject. The work considers in detail the relationship between Yahweh and the various gods and goddesses of Canaan, including the leading gods El and Baal, the great goddesses (Asherah, Astarte and Anat), astral deities (Sun, Moon and Lucifer), and underworld deities (Mot, Resheph, Molech and the Rephaim). Day assesses both what Yahwism assimilated from these deities and what it came to reject. More generally he discusses the impact of Canaanite polytheism on ancient Israel and how monotheism was eventually achieved.

Yahweh and the Gods and Goddesses of Canaan

Introduces the Greek god Hephaestus and explains his importance; features well-known Greek myths about this god; and includes map of ancient Greece and family tree of the Greek gods.

Hephaestus

Greek Mythology

From the tragic young Adonis to Zašhapuna, first among goddesses, this handbook provides the most complete information available on deities from the cultures and religions of the ancient Near East, including Anatolia, Syria, Israel, Sumer, Babylonia, Assyria, and Elam. The result of nearly fifteen years of research, this handbook is more expansive and covers a wider range of sources and civilizations than any previous reference works on the topic. Arranged alphabetically, the entries range from multiple pages of information to a single line—sometimes all that we know about a given deity. Where possible, each record discusses the deity's symbolism and imagery, connecting it to the myths, rituals, and festivals described in ancient sources. Many of the entries are accompanied by illustrations that aid in understanding the iconography, and they all include references to texts in which the god or goddess is mentioned. Appropriate for both trained scholars and nonacademic readers, this book collects centuries of Near Eastern mythology into one volume. It will be an especially valuable resource for anyone interested in Assyriology, ancient religion, and the ancient Near East.

A Handbook of Gods and Goddesses of the Ancient Near East

Many mythological traditions from around the world seek to explain the origins of the earth, human beings, and the forces of nature. This set examines the stories associated with gods and goddesses: their relationships with each other and with human beings; their faults, foibles, strengths, and special powers. It offers explanations of how the gods and goddesses gifted humans with life, water, fire, music, and dance. Nearly 220 essays detail gods and goddesses from around the globe: the Greek and Roman pantheon including Zeus, Neptune, Nike, and Aphrodite; Norse gods including Odin and Loki; Native American deities including Hunahpu and Xbalanque; and Egyptian gods and goddesses like Ra and Osiris.

Critical Survey of Mythology and Folklore

This book is the perfect introduction to some of the most popularly revered Gods and Goddesses. The simple text and charming illustrations make it a wonderful first guide for young readers.

Gods and Goddesses

This is the first systematic study of the cults of the Bosporean Kingdom, which existed in South Russia in the first centuries AD. The research is based on a variety of sources: archaeological evidence and inscriptions, largely unknown to the non-Russian readers, as well as historical and literary texts. The religion of the Bosporus is viewed in this monograph as a blend of Greek and indigenous Iranian traditions. Its first part is dedicated to the cult of Celestial Aphrodite. The second part examines the controversial cult of the Most High God and its alledged Jewish affinities. The book, illustrated with thirty figures, is an important contribution to the understanding of the religious life in Greek colonies, and the history of Eastern Mediterranean in Late Antiquity.

The Supreme Gods of the Bosphoran Kingdom

The author recounts how the Greek gods and goddesses earned their thrones on Mount Olympus, and retells some of the myths she learned as a child.

The Gods and Goddesses of Olympus

The muses were doing fine until he showed up....Dylan from Denver, on dinner with Thalia: "I'm not sure, but I feel this is fate. I feel a connection to you.Plus, you are totally adorable -- just have dinner with me." Thalia, on dinner with Dylan: "Stop stalking me." Thalia, Era, and Polly are giving life on earth another try. But it's hard for the Muse sisters to concentrate when Era's as flaky as always, and Polly is busy trying to prevent catastrophe. But the biggest problem of all comes disguised as a handsome, crazy football player who won't leave Thalia alone. The trouble is, she kind of likes him. But why does he seem so...familiar? Only the evil Furies know who "Dylan from Denver" really is, and there's no way they'll let him get his goddess....

Goddesses #2: Three Girls and a God

Some of the best stories about Ancient Greece are mixed with actual historical events: equal parts truth and fantasy, and that's what makes them so intriguing. The Trojan War for example, in which we see the hero Achilles, the bulwark of the Greek Army who saved the kidnapped Helen, is told from the perspective of his goddess mother. But did you know that according to the ancient Greeks, Achilles had the choice to live a long and happy life or die by his ambition to be remembered as a hero? Even with all the intervention of his Immortal mother who called in favors from the gods, she could not change the fate of her son, which was allegedly set by the Fates when he was born. Greek Gods, Goddesses, Heroes, Heroines, Monsters, and Classic Greek Myths of All Time is filled with interesting tidbits about the most popular heroes, gods and goddesses, as well as some little known facts and interpretations about their lives. You'll find timelines and the genealogy of the Immortals as well as the men and women who were subjected to their whims and used as pawns to further their intentions. It gives us deep insight into the philosophy of this "religion\

Greek Mythology

The subject of Greek mythology conjures up mythical stories of glorious and wonderful Greek gods, goddesses and heroes with tales of war, love and betrayal. Since ancient Greece was the birth place of philosophy, theater and politics it is understandable that such a great civilization would be capable of creating an elaborate belief system in which to help understand the world around them. Natural phenomena such as the sun, lightening and earthquakes were explained in intriguing, engaging tales that formed the structure of ancient Greek understanding. It was this belief system that has been the fascination of many the world over. Through the stories of the most prominent gods and goddesses, this book provides an insight into how Greek mythology was formed, why the Greek gods and goddesses were conceived and explores the fantastically woven stories that link these gods and goddesses together. Learn about Titans and the Olympians, the stories of their existence and why they represented elements of the natural world Discover the most prominent Greek gods, why they were either titans or Olympians and who the demigods and heroes really were. Read enthralling stories of prominent gods are such as: Cronus Atlas Prometheus Zeus Aphrodite Hermes and more... How are all these Greek mythology stories connected? The study of these gods are both interesting and complex. In order to understand them its necessary to understand how each story relates and the events that gave birth to further gods and their tales. This book delves a little deeper, highlighting the reason for the battles of the gods, the stories of their existence and their relationship to natural phenomena. Learn the answers to some of the most interesting questions Why did Uranus banish his children? How did a group of gods earn the name 'Titans'? What plan was in place to overthrow the Titans? Why did Cronus eat his own offspring? Why was Atlas punished for the war between the Titans and the Olympians? How does ancient Greece influence us today and what relevance does this civilization have to our society? Understand how ancient Greek mythology gave birth to everyday terms used in modern day language. It is surprising just how many terms are attributed to the ancient Greeks. Immerse yourself with in this wonderful ancient world with this informative Greek mythology book and educate yourself with stories that will transport you into the mindset of this fascinating civilization.

Greek Mythology: The Gods, Goddesses, and Heroes Handbook

Explore Captivating Myths of the Greek Gods and Heroes Although the Greek gods and goddesses were powerful immortal beings, they were in many ways still very like the humans who worshiped them. The gods and goddesses are stricken with jealousy; they fall in love; they get angry when they feel slighted, and bestow gifts when they are honored. Likewise, the heroes are larger than life: they're stronger, faster, and more skilled than ordinary mortals, but they are still subject to pain, illness, and death. This book on Greek mythology will take you on a captivating journey so you can experience the enjoyment of the entertaining stories while also learning about the Greek myths that lie at the roots of Western language, culture, and civilization. Within this book, you'll find the following Greek myths and topics covered The Creation of the Titans The Birth of the Olympians and the Downfall of the Titans Prometheus and Epimetheus The Birth of the Muses The Olympian Gods and Goddesses Hera, Queen of the Gods Hermes, Trickster, and Messenger of the Gods Grey-Eyed Athena, Goddess of Wisdom and Strategy Hephaestus, God of Fire and Smithcraft Artemis, Virgin Goddess of the Hunt Apollo, God of Music and Healing Dionysus, God of Wine and Ritual Madness Ares, God of War, and Aphrodite, Goddess of Love The Story of Demeter and Persephone Demigods, Heroes, and Monsters The Story of Perseus Heracles Theseus and the Minotaur Get the book now and learn more about Greek mythology

Greek Mythology

In ancient times, the Greeks created the gods and goddesses to represent the various personalities of human nature. In *Gods and Goddesses in Love*, Agapi Stassinopoulos tells the stories of the primary goddesses and gods, and how their myths can provide insight into your own romantic relationships. Included are two fun and fascinating quizzes: one for women to determine their own dominant personality type and which goddess she most embodies; and a second that will help every woman

understand more about the "god" she is involved with, or searching for. In the book, the seven archetypal goddesses are portrayed in modern terms, highlighting not only each goddess's unique strengths but also the pitfalls or stumbling blocks she is likely to encounter in a relationship with her partner. Also included are interviews with real couples who reveal how they overcame obstacles to find true love. For anyone who desires the self-knowledge and empowerment to find their ideal other, *Gods and Goddesses in Love* is an uplifting, instructive, and enlightening guide for achieving greater fulfillment in love.

Gods and Goddesses in Love

Retells fifteen stories of the ancient Greek gods and goddesses, including both well-known myths and such lesser-known tales as the story of the origin of the dolphins and how Haephaestus became the husband of Aphrodite.

The Orchard Book of Greek Gods and Goddesses

A collection of 15 stories about the Greek gods and goddesses--Zeus, the most powerful, his wife Hera, and their large extended family.

Greek Gods and Goddesses

From the best-known authors on witchcraft, a three-part reference for discovering and celebrating the Masculine Principle of Divinity. A companion to the Farrars' *The Witches' Goddess*, this volume documents the ancient balance between God and Goddess. In part one, they explore the numerous faces of God throughout history: the Anti-God, the Son/Lover God, the Vegetation God, the War God, and more. In part two, they examine twelve gods from history and feature an invoking ritual for each god. Finally, part three offers a comprehensive dictionary with over 1,000 gods from cultures all over the world and throughout time. With over 30,000 copies sold, this title is likely to become the standard work on the masculine god aspect. *The Witches' God* is part of *The Paranormal*, a series that resurrects rare titles, classic publications, and out-of-print texts, as well as publishes new supernatural and otherworldly ebooks for the digital age. The series includes a range of paranormal subjects from angels, fairies, and UFOs to near-death experiences, vampires, ghosts, and witchcraft.

The Witches' God

Handbook of Hindu Gods, Goddesses, and Saints

The Goddess, Mother of the Trinity

A systematic coverage of Jung's criticism of biblical imagination, the Goddess as Mother of the Trinity, and Jung's appropriation of Eckhart to make the above points. The three sections comprising this work are entitled *Jung's Critique of Biblical Imagination: An Appreciative Undermining*, *The Goddess as Mother of the Trinity*, and *Jung and Meister Eckhart: Breakthrough to the Goddess*.

Paul Tillich, Carl Jung and the Recovery of Religion

Is religion a positive reality in your life? If not, have you lost anything by forfeiting this dimension of your humanity? This book compares the theology of Tillich with the psychology of Jung, arguing that they were both concerned with the recovery of a valid religious sense for contemporary culture. *Paul Tillich, Carl Jung and the Recovery of Religion* explores in detail the diminution of the human spirit through the loss of its contact with its native religious depths, a problem on which both spent much of their working lives and energies. Both Tillich and Jung work with a naturalism that grounds all religion on processes native to the human being. Tillich does this in his efforts to recover that point at which divinity and humanity coincide and from which they differentiate. Jung does this by identifying the archetypal unconscious as the source of all religions now working toward a religious sentiment of more universal sympathy. This book identifies the dependence of both on German mysticism as a common ancestry and concludes with a reflection on how their joint perspective might affect religious education and the relation of religion to science and technology. Throughout the book, John Dourley looks back to the roots of both men's ideas about mediaeval theology and Christian mysticism making it ideal reading for analysts and academics in the fields of Jungian and religious studies.

Re-Imagining Mary

Artists plumb the depths of soul which Jung calls the collective unconscious, the inheritance of our ancestors' psychic responses to life's drama. In this sense the artist is priest, mediating between us and God. The artist introduces us to ourselves by inviting us into the world of image. We may enter this world to contemplate briefly or at length. Some paintings invite us back over and over again and we return, never tiring of them. It is especially these that lead us to the Great Mystery, beyond image. Re-Imagining Mary: A Journey through Art to the Feminine Self is about meeting the Cosmic Mary in image and imagination, the many facets of the Mary image that mirror both outer reality and inner feminine soul. Jungian analyst Mariann Burke offers personal reflections and suggests symbolic meanings in works by several artists including: Fra Angelico, Albrecht Durer, Henry Ossawa Tanner, Nicolas Poussin, Parmigianino, Duccio di Buoninsegna, Salvador Dali, Andy Warhol, and Frederick Franck. Aspects of Mary explored include: Mary not only as Mother of God, a title from the Judeo-Christian tradition, but as Mother God, a title reaching back to an ancient longing for a Female Divinity. In western Christianity this Mary bears the titles and the qualities worshipped for thousands of years in the Female images of God and Goddess. These titles include Mary as Sorrowful One and as Primordial Mother. Recovering Mary both as light and dark Madonna plays a crucial role in humanity's search for a divinity who reflects soul. Also discussed is Mary as the sheltering Great Mother that Piero della Francesca suggest in the Madonna del Parto and Mater Misericordia. Frederick Franck's *The Original Face* and the Medieval *Vierge Ouvrante* also suggest this motif of Mary as Protector of the mystery of our common Origin. Franck's inspiration for his sculpture of Mary was the Buddhist koan-"What is your original face before you were born?" What is spirituality? What does it mean to grow spiritually and psychologically closer to the Feminine Self? How can we begin to see the "outer" image as a manifestation, a projection of the psyche? Can we be challenged by being "betwixt and between" a male dominated Church without a recognized female divinity where God is generally imagined external to the soul and a more feminine depth psychological approach to the Marian mystery and to the Feminine Self? Will we answer the call of the mystic within us? If so, how will we be changed?

Soul and Psyche

The first introduction to the history and method of biblical-psychological interpretation.

Bodied Mindfulness

"I see spirituality and social change to be integrally related to each other. I believe that liberation efforts that are supported by spiritual experiences of integration promote human dignity as well as social equality." Bodied Mindfulness combines spiritual, social and analytical perspectives to explore topics central to women's development: spirituality, women's bodies, cultural constructions of women's sexuality in language, sexual ethics, the sexual contract in politics and at work, and the relation between nature and culture. It is Tomm's deeply held conviction that women need to bring a vital spirituality to feminist social criticism in order to resolve these issues and increase their power to promote social justice and ecological balance. Tomm embraces a vast store of knowledge from diverse sources, including Buddhist, shamanist and feminist resources. In a move away from abstract theorizing, she explicitly connects theory with realities lived by women. Grounding theory in personal experience — her own and others — Tomm delivers a powerful and empowering account of women's spirituality. The resulting ontological transformation allows women to live deeply in the body while strengthening their relation to human and non-human matter and energy. Bodied Mindfulness will be of great interest to feminist scholars in all disciplines, but most particularly to those in Women's Studies and Religious Studies.

Mystical Languages of Unsayings

The subject of *Mystical Languages of Unsayings* is an important but neglected mode of mystical discourse, apophasis, which literally means "speaking away." Sometimes translated as "negative theology," apophatic discourse embraces the impossibility of naming something that is ineffable by continually turning back upon its own propositions and names. In this close study of apophasis in Greek, Christian, and Islamic texts, Michael Sells offers a sustained, critical account of how apophatic language works, the conventions, logic, and paradoxes it employs, and the dilemmas encountered in any attempt to analyze it. This book includes readings of the most rigorously apophatic texts of Plotinus, John the Scot Eriugena, Ibn Arabi, Marguerite Porete, and Meister Eckhart, with comparative reference to important apophatic writers in the Jewish tradition, such as Abraham Abulafia and Moses de Leon.

Sells reveals essential common features in the writings of these authors, despite their wide-ranging differences in era, tradition, and theology. By showing how apophysis works as a mode of discourse rather than as a negative theology, this work opens a rich heritage to reevaluation. Sells demonstrates that the more radical claims of apophatic writers—claims that critics have often dismissed as hyperbolic or condemned as pantheistic or nihilistic—are vital to an adequate account of the mystical languages of unsaying. This work also has important implications for the relationship of classical apophysis to contemporary languages of the unsayable. Sells challenges many widely circulated characterizations of apophysis among deconstructionists as well as a number of common notions about medieval thought and gender relations in medieval mysticism.

Elizabethan Essays

The age of Elizabeth I exercises a fascination unmatched by other periods of English history. Yet while the leading figures may seem familiar, many Elizabethan personalities, including the queen herself, remain enigmatic; their attitudes to life, politics and religion often difficult to comprehend. Patrick Collinson redraws the main features of the political and religious struggle of the reign. In engaging with the virgin queen herself he tackles the old conundrum: was she a religious woman? He also investigates the no less inscrutable religious position adopted by the by the notorious turncoat, Andrew Perne, the reliability as a historian of the martyrologist John Foxe (whose religion is in no doubt) and the religious environment which shaped William Shakespeare.

Elizabethans

The age of Elizabeth I continues to exercise a fascination unmatched by other periods of English history. Yet while the leading figures may seem familiar, many Elizabethan figures, including the queen herself, remain enigmatic. In *Elizabethans* Patrick Collinson examines the religious beliefs both of Elizabeth and of Shakespeare, as well as redrawing the main features of the political and religious structure of the reign. He understands the characters of the period as individuals but is also sensitive to the attitudes and beliefs of the day.

Cross-currents of Jungian Thought

Carl Jung praised Fr. Victor White, O.P. as the only theologian to truly understand his work, and even considered him his only worthy successor. Clodagh Weldon's new biography explores the life and theology of this Dominican priest, focusing particularly on the influence of Jung's work on White's own religious writings. Grounded in extensive research of primary and, until now, unseen documents, including letters, diaries, and even White's descriptions of his dreams, this book will be valuable reading for theologians, psychologists, and anyone interested in Carl Jung and the relationship between psychology and religion.

Fr. Victor White, O.P.

Psychotherapy" in fact provides an accessible Takes a thorough look at the Archetypes provided by the great mother.

Bibliographic Guide to Psychology

Jung's psychology describes the origin of the Gods and their religions in terms of the impact of archetypal powers on consciousness. For Jung this impact is the basis of the numinous, the experience of the divine in nature and in human nature. His psychology, while possessed of a certain claim to science, is based on depths of subjective experience which transcends psychology and science as ordinarily understood. *Jung and his Mystics: In the end it all comes to nothing* examines the mythic nature of Jung's psychology and thought, and demonstrates the influence of mysticism and certain religious thinkers in formulating his own work. John P. Dourley explores the influence of Mechthild of Magdeburg and fellow mystics/Beguines, and traces the mystic impulse and its expression through Meister Eckhart and Jacob Boehme to Hegel in the nineteenth century. All of these mystics were of the apophatic school and understood the culmination of their experience to lie in an identity with divinity in a nothingness beyond all form, formal expression or immediate activity. Dourley shows how this is still of relevance in our lives today. The book concludes that Jung's understanding of mysticism could greatly alleviate the conflict between faiths, religious or political, by drawing attention to their common origin in the depths of the human. *Jung and his Mystics: In the end it all comes to nothing* is aimed

at scholars and senior research students in Jungian Studies, including religionists, theologians and philosophers of religion, especially those with an interest in mysticism. It will also be essential reading for those interested in the connection between religious and psychological experience.

The Great Mother

Revision of papers presented at a conference on the Mother Goddess at Carleton University in November 1987 with the help of Social Sciences and Humanities Research Council of Canada and the Department of Religion, Carleton University.

Jung and his Mystics

How can we make sense of ourselves within a world of change? In *Analytical Psychology in a Changing World*, an international range of contributors examine some of the common pitfalls, challenges and rewards that we encounter in our efforts to carve out identities of a personal or collective nature, and question the extent to which analytical psychology as a school of thought and therapeutic approach must also adapt to meet our changing needs. The contributors assess contemporary concerns about our sense of who we are and where we are going, some in light of recent social and natural disasters and changes to our social climates, others by revisiting existential concerns and philosophical responses to our human situation in order to assess their validity for today. How we use our urban environments and its structures to make sense of our pathologies and shortcomings; the relevance of images and the dynamic forms that underpin our experience of the world; how analytical psychology can effectively manage issues and problems of cultural, religious and existential identity – these broad themes, and others besides, are vividly illustrated by striking case-studies and unique personal insights that give real lucidity to the ideas and arguments presented. *Analytical Psychology in a Changing World* will be essential reading for Jungian and post-Jungian scholars and clinicians of depth psychology, as well as sociologists, philosophers and any reader with a critical interest in the important cultural ideas of our time.

The Publishers Weekly

Second volume of an exciting new series exploring global theology. Though the global center of Christianity has been shifting south and east over the past few decades, very few theological resources have dealt with the seismic changes afoot. The *Majority World Theology* series seeks to remedy that lack by gathering well-regarded Christian thinkers from around the world to discuss the significance of Christian teaching in their respective contexts. *The Trinity among the Nations* focuses on Christian understandings of the character and work of God in various contexts. The contributors highlight global trends in trinitarian theology in relation to historic Christian confessions, especially the Nicene Creed, and draw out the rich implications of the doctrine of God for the church and Christian living today. Whitaker's Book List

Jung's explanation of the religious tendency of the psyche addresses many sides of the contemporary debate on religion and the role that it has in individual and social life. This book discusses the emergence of a new mythic consciousness and details ways in which this consciousness supersedes traditional concepts of religion to provide a spirituality of more universal inclusion. *On Behalf of the Mystical Fool* examines Jung's critique of traditional western religion, demonstrating the negative consequences of religious and political collective unconsciousness, and their consequent social irresponsibility in today's culture. The book concludes by suggesting that a new religiosity and spirituality is currently emerging in the West based on the individual's access to the sense of ultimacy residual in the psyche, and seeking expression in a myth of a much wider compass. This book will be of interest to scholars and students at all levels who are engaged in the expanding field of Jungian studies. It will also be key reading for anyone interested in the theoretical and therapeutic connections between the psyche and religious experience.

Elenchus of Biblica

Dr. Dourley, Catholic priest and professor of religion, explores Jung's assessment of Christianity, questioning its essentially masculine orientation and its emphasis on perfection, rather than wholeness, as the goal.

Mother Goddess and Other Goddesses

Gillian Alban meticulously pursues the Fairy Melusine snake-woman image through the plot and the poetry of A. S. Byatt's novel *Possession*, into medieval legend, and beyond into her antecedents in ancient myth. The book describes the erotically inspiring force of Melusine's love story and draws parallels with goddesses such as Lamia, Ishtar or Inanna, Isis, and Asherah. Mother, creator, and leader, the figure of Melusine was ultimately vilified and tellingly converted into the demon of patriarchal accounts, as seen in the examples of Lilith, Medusa, Scylla, and the serpent in the Garden. Alban deconstructs part of Genesis, including the roles of Adam and Eve and Cain's crime, and illuminates the Old Testament worship of the goddess Asherah alongside the male Yahweh. A forceful exploration of literature, history, and myth, this study sweeps away limiting assumptions about the female sex. Melusine the Serpent Goddess restores the dignity acknowledged to women of old, making a forceful statement about the power and creativity of women.

Analytical Psychology in a Changing World: The search for self, identity and community

A strong challenge to traditional Human Resource Development. Internationally renowned authors address HRD presenting multifaceted alternative perspectives to the current practice and theory of HRD.

The Trinity among the Nations

This book provides an exploration of some of the essential aspects of Judaism, Christianity and Islam. Leading Jungian analysts, theologians and scholars bring to bear psychological, religious and historical perspectives in an attempt to uncover the nature and psychology of the three monotheisms.

On Behalf of the Mystical Fool

Mysterium Coniunctionis was first published in the *Collected Works of C.G. Jung* in 1963. For this second edition of the work, numerous corrections and revisions have been made in cross-references to other volumes of the *Collected Works* now available and likewise in the Bibliography. *Mysterium Coniunctionis* was Jung's last work of book length and gives a final account of his lengthy researches in alchemy. It was Jung's empirical discovery that certain key problems of modern man were prefigures in what the alchemists called their 'art' or 'process'. Jung maintained that 'the world of alchemical symbols does not belong to the rubbish heap of the past, but stands in a very real and living relationship to our most recent discoveries concerning the psychology of the unconscious'. The volume includes ten plates, a Bibliography, an Index, and an Appendix of original Latin and Greek texts quoted in the work.

American Book Publishing Record

Original Scholarly Monograph

The Illness that We are

Cousins evaluates our present religious condition and reflects on the importance of tradition, spirituality, and mysticism in understanding ourselves and others.

—NOV

In this first extensive Jungian treatment of Milton's major poems, James P. Driscoll uses archetypal psychology to explore Milton's great themes of God, man, woman, and evil and offers readers deepened understanding of Jung's profound thoughts on Godhead. The Father, the Son, Satan, Messiah, Samson, Adam, and Eve gain new dimensions of meaning as their stories become epiphanies of the archetypes of Godhead. God and Satan of *Paradise Lost* are seen as the ego and the shadow of a single unfolding personality whose anima is the Holy Spirit and Milton's muse. Samson carries the Yahweh archetype examined by Jung in *Answer to Job*, and Messiah and Satan in *Paradise Regained* embody the hostile brothers archetype. Anima, animus and the individuation drive underlie

the psychodynamics of Adam and Eve's fall. Driscoll draws on his critical acumen and scholarly knowledge of Renaissance literature to shed new light on Jung's psychology of religion. *The Unfolding God of Jung and Milton* illumines Jung's heterodox notion of Godhead as a quaternity rather than a trinity, his revolutionary concept of a divine individuation process, his radical solution to the problem of evil, and his wrestling with the feminine in Godhead. The book's glossary of Jungian terms, written for literary critics and theologians rather than clinicians, is exceptionally detailed and insightful. Beyond enriching our understanding of Jung and Milton, Driscoll's discussion contributes to theodicy, to process theology, and to the study of myths and archetypes in literature.

Melusine the Serpent Goddess in A. S. Byatt's *Possession* and in Mythology

The publication of W. Pauli's *Scientific Correspondence* by Springer-Verlag has motivated a vast research activity on Pauli's role in modern science. This excellent treatise sheds light on the ongoing dialogue between physics and psychology.

New Books on Women and Feminism

The concept of 'Archetypes' and the hypothesis of 'A Collective Unconscious' are two of Jung's better known and most exciting ideas. In this volume - taken from the *Collected Works* and appearing in paperback for the first time - Jung describes and elaborates the two concepts. Three essays establish the theoretical basis which are then followed by essays on specific archetypes. The relation of these to the process of individuation is examined in the last section. *The Archetypes and the Collective Unconscious* is one of Jung's central works. There are many illustrations in full colour.

HRD in a Complex World

This book takes the principles of archetypal pedagogy and applies them in exciting new ways to fields as diverse as literary studies, therapy and, of course, teacher education.

Jung and the Monotheisms

Drawing on the wisdom and teaching experience of highly respected theologians, the *Engaging Theology* series builds a firm foundation for graduate study and other ministry formation programs. Each of the volumes—*Scripture*, *Jesus*, *God*, *Anthropology*, and *Church*—is concerned with retrieving, carefully evaluating, and constructively interpreting the Christian tradition. Comprehensive in scope and accessibly written, these volumes, used together or independently, will stimulate rich theological reflection and discussion. More important, the series will create and sustain the passion of the next generation of theologians and church leaders. The word *God*, said Martin Buber decades ago, is the most heavy-laden of all human words. None has become so soiled, so mutilated. Twenty-first-century discourse and action often perpetuate that lack of reverence. In this volume Joseph Bracken shows us a better way. • He begins with Christianity's roots in Judaism and the inherent struggle to explain the reality of three persons in God who is one. • He allows readers to engage in the lively and fruitful trinitarian debates of the early church and discover how the classical doctrine of the Trinity has shaped the church through the centuries. • He offers a solid theological treatment of the history of the doctrine of God and its relevance for Christians today—for dialogue between Christian men and women, between Christianity and other religions, and between religion and science. Systematic theology at its best, *God: Three Who Are One* helps us find unexpected unity and consensus in a world full of troubling differences. Along the way, Bracken urges us to pray as well as think and to let rational reflection lead to praise and worship, thereby giving the doctrine of the Trinity its due reverence and care.

Mysterium Coniunctionis

This second volume examines how sexual mores and behavior, religious dogma and practice, and literary creativity and authenticity have influenced and been influenced by the existentialist thought of Kierkegaard, Heidegger, Sartre, Nietzsche, Husserl and Buber, and the writings of Camus, Dostoevsky, Beckett, Shestov, Berdyaev and Tillich. It compares human and cultural attributes with the attributes of pagan and monotheistic Gods, and Buddhist, Gnostic, Christian and Muslim mysticism with Jewish Kabbalah. It explains society's harsh treatment of Vincent van Gogh and Antonin Artaud, and analyzes the existentialist approach to existence, absurdity, human dialogue, cosmology, and quantum mechanics. It will appeal to students and professionals in fields as diverse as philosophy, psychology, sociology, anthropology, religion, law, art, drama, literature, cosmology and physics.

Introduction to Shakti & cultivating Shakti: The dynamic aspect of the divine

The number one priority for “awakening:” activating the aspect of Shakti that draws inward so you can see through the veil of your thoughts to what lies beneath... divinity.

Why is Shakti special? She is the bridge between the physical and the transcendent. So you can't bring the transcendent into the physical without her.

The process of cultivating Shakti: becoming aware of energy, and how to expand it in the direction of awareness and love (even initially “negative” energy).

About Sally's new course: Cultivating Shakti, in which participants will learn how to cultivate life force energy, in all forms from mystical to seemingly ordinary, in themselves to fuel and nourish their awakening.

The gifts and limitations of traditions: after spending time in a tradition, you can clearly discern which aspects of it work for you, and discard what doesn't.

Traditions both protect us from “freelance craziness” but also tend to protect their own authority.

“This is the way to do it” can be helpful in the beginning, but at a certain point the tradition helps you come to know and follow your own guidance and be your own person, within the tradition.

Tips for navigating the transition point between following a tradition to the letter, and following your own inner guide.

Sally's personal journey, particularly of moving from student to teacher.

Don't start teaching too soon. People tend to become teachers because it gives them life meaning, but before they have completed the inner work they really need to be of service. You need to find esteem from within, rather than from without.

Sally's book, Awakening Shakti, contains the juice of the hindu archetypes, the essence, the Shakti—which many books about the archetypes miss.

Meditation for the Love of It is perfect for anyone who is ready to step out of their initial practice and find what works specifically for them.

Doorways to the Infinite is a series of 108 meditations that explores sacred union and sacred sexuality, based on a 7th century text written as a dialogue between Shiva and Shakti.

You can find all of Sally Kempton's courses, books and blogs on SallyKempton.com, and her meditations at glo.com.
