In his webcast titled "Cave People" in reference to the philosopher Plato's "Allegory of the Cave," DoubleLine CEO Jeffrey Gundlach on March 12, 2023, briefly reprises his outlook on the federal debt spiral before reviewing other macroeconomic and market topics, including recessionary "storm clouds." Notably, while the government's establishment survey has resilient nonfarm payrolls, Mr. Gundlach marshals evidence showing "the rubric that there's this booming employment economy is contradicted by other areas." Among subjects addressed in the webcast, Mr. Gundlach covers Federal deficit and national debt spiral

Massive COVID-19-era monetary stimulus as explanation for the absence (to date) of recession

Protracted inversion of the U.S. Treasury yield curve

Weakening consumer confidence

U-3 unemployment rate exceeding 12-month moving average and nearing 36-month MA

Questionable veracity of once-trustworthy economic statistics due to plunging survey response rates

Recessionary divergence between cyclical and noncyclical employment

Deteriorating hiring plans at small businesses

Falling average weekly hours worked in manufacturing. "First they cut the hours, and then they cut the bodies."

Signs of stress among consumers, growing usage of credit cards and a 600-basis point rise to a "punishing" 23% in the average interest rate on credit card debt as forerunners of a future pullback in consumer spending

Inflation as gauged by headline and core CPI

Housing component of CPI versus the Zillow Rent Index and prospects of lower rents due to a construction boom in multifamily housing

Inflation as gauged by headline and core PCE

Inflation as gauged by export and import prices

Commodity prices signaling weak global growth

Review of the Treasury market and a warning regarding narrow credit spreads in high yield corporate bonds

Year-to-date performance of the credit sectors of fixed income, including market pricing of future defaults in CCC corporate bonds

Still-wide spreads on Agency mortgage-backed securities amid discount prices on these securities AAA spreads compared across non-Agency commercial mortgage-backed securities (CMBS), collateralized loan obligations and corporate bonds

Attractive CMBS versus corporate bonds across AAA, A and BBB cohorts, with warnings against index investing in CMBS

Emerging markets fixed income, which with the Federal Reserve's Nov. 1, 2023, pivot "finally joined the risk asset party," although Mr. Gundlach is awaiting a weaker dollar to support the sector

When Jennifer Mabbot goes camping in the Forest of Dean for some much needed soul-searching, she had no idea her life was about to take a very drastic turn. Witnessing a strange man burying a wooden box in the middle of the night, she thought it strange but nothing overly noteworthy. Until, that is, she came home to be confronted by two men, clearly intent on hurting her for the whereabouts of the burial site. Turning to the only person she could trust—her life-long best friend, Saul Haslen—she asks for help and gets more than she could possibly bargain for. Jennifer knows Saul does some sort of Government work, but actually he is an elite member of The Agency. With danger coming from all sides and neither of them fully understanding what's happening, they must work together to uncover the truth. Before, Jennifer would have sworn she knew practically everything there was to know of Saul. But they are both learning more about each other, personally and sexually. Within that intimate knowledge lies the key to both their futures, and lasting happiness.

The Sun Pub Quiz: 4000 quiz questions and answers

INSTANT NEW YORK TIMES BESTSELLER "One of the most important books I've ever read—an indispensable guide to thinking clearly about the world." – Bill Gates "Hans Rosling tells the story of 'the secret silent miracle of human progress' as only he can. But Factfulness does much more than that. It also explains why progress is so often secret and silent and teaches readers how to see it clearly." —Melinda Gates "Factfulness by Hans Rosling, an outstanding international public health expert, is a hopeful book about the potential for human progress when we work off facts rather than our inherent biases." - Former U.S. President Barack Obama Factfulness: The stress-reducing habit of only carrying opinions for which you have strong supporting facts. When asked simple questions about global trends—what percentage of the world's population live in poverty; why the world's population is increasing; how many girls finish school—we systematically get the answers wrong. So wrong that a chimpanzee choosing answers at random will consistently outguess teachers, journalists, Nobel laureates, and investment bankers. In Factfulness, Professor of International Health and global TED phenomenon Hans Rosling, together with his two long-time collaborators, Anna and Ola, offers a radical new explanation of why this happens. They reveal the ten instincts that distort our perspective—from our tendency to divide the world into two camps (usually some version of us and them) to the way we consume media (where fear rules) to how we perceive progress (believing that most things are getting worse). Our problem is that we don't know what we don't know, and even our guesses are informed by unconscious and predictable biases. It turns out that the world, for all its imperfections, is in a much better state than we might think. That doesn't mean there aren't real concerns. But when we worry about everything all the time instead of embracing a worldview based on facts, we can lose our ability to focus on the things that threaten us most. Inspiring and revelatory, filled with lively anecdotes and moving stories, Factfulness is an urgent and essential book that will change the way you see the world and empower you to respond to the crises and opportunities of the future. --- "This book is my last battle in my life-long mission to fight devastating ignorance...Previously I armed myself with huge data

sets, eye-opening software, an energetic learning style and a Swedish bayonet for sword-swallowing. It wasn't enough. But I hope this book will be." Hans Rosling, February 2017.

Mountain, mountain heights, mountain range and volcano names and their locations. Ocean, seas, marginal seas, and their locations respective to each other City, building, landmark and capital city names and location. Deserts, forests, jungles, glaciers! Country size, flags, language currency, religion, climate and population. Flag, flag colors, other flag attributes. Physical Geography jargon. World record facts regarding geography. Challenging multiple choice questions: We have seen several quiz books that have a poor selection of multiple choice questions, such as example below... What is the highest mountain in Turkey? A Mt. Whitney B Mt. Everest C Mt. Ararat D Mt. Cook Whilst this question is somewhat tricky in itself, the answers given allow most geographers to eliminate the 3 wrong answers quickly to come up with answer C. Instead of this approach, we have kept the quiz

more like shown below to make this strategy of quizzing harder for the challenger... What is the highest mountain in Turkey? A Mt. Elbrus B Mt. Davamond C Mt. Ararat D Mt. Bazarduzu Although it may be easy for some seasoned geographers, this question, by the choices given is harder for the most part, and will hopefully trigger more conversation/thought before answering.
