Origamisterne? Gerne! - Natural Christmas - Weihnachtliches Bastelset zum Sofort-Losfalten

The Snail Soup Can Decoy to keep the candy stash safe. The Customizable "Keep Out" Sign to deter meddlesome siblings and parents. A Bunk Bed Communicator made from cardboard tubes ("Psst! Can you keep the snoring down?"). Clever, whimsical, and kind of genius, here are 67 unique projects that will turn any dad with DIY leanings into a mad scientist hero that his kid(s) will adore. No screens, no hi-tech gadgetry. Made by Dad combines the rough-edged, handmade ethos of a Boy Scout manual or The Dangerous Book for Boys with a sly sense of humor that kids love. Scott Bedford, a creative director by day and Webby Award-winning blogger by nights and weekends, wields an X-ACTO knife, magic marker, and prodigious imagination to create endlessly delightful projects for his two sons. He

knows that kids like contraptions and gadgets, things that are surprising—a chair that appears to be balanced on eggshells. Things that are complex—a multilevel city, with buildings, tunnels, and roads, built from old boxes around the legs of a table. And especially things with humor—the Snappy Toast Rack, made to resemble a crocodile's gaping mouth. The projects are shown in full-color photographs, and the instructions are illustrated in detailed line drawings that exude personality. Some are quick and simple enough to be done in a coffee shop; others are more of an afternoon project—yielding hours and hours of rich, imaginative playtime.

Paper Folding Fun

Seizing his one chance to escape, Ethan Hosking leaves his violent ex-boyfriend, leaves his entire life, and walks into the path of a raging bushfire. Desperate to start over, a new man named Aubrey Hobbs walks out of the fire-ravaged forest, alive and alone. With no ID and no money, nothing but his grandfather's telescope, he goes where the Southern Cross leads him. Patrick Carney is the resident lighthouse keeper in Hadley Cove, a small town on the remote Kangaroo Island off the coast of South Australia. After the tragic death of his lover four years ago, he lives a solitary life; just him, a tabby cat, the Indian and Southern Oceans, and a whole lot of loneliness. He's content with his life until a stranger shows up in town and turns Patrick's head. Patrick never expected to be interested in anyone else. Aubrey never expected to be happy. Between Aubrey's love of the stars and Patrick's love of the ocean, these two fragile hearts must navigate new waters. If they can weather the storm of their pasts, they could very well have a love that eclipses everything.

Language acquisition is a human endeavor par excellence. As children, all human beings learn to understand and speak at least one language: their mother tongue. It is a process that seems to take place without any obvious effort. Second language learning, particularly among adults, causes more difficulty. The purpose of this series is to compile a collection of high-quality monographs on language acquisition. The series serves the needs of everyone who wants to know more about the problem of language acquisition in general and/or about language acquisition in specific contexts.

Simple Traditional Origami

Theodor Fontane (1819-98), widely regarded as Germany's most significant novelist between Goethe and Thomas Mann, pioneered the German novel of manners and upper-class society, following a trend in European fiction of the period. *The Stechlin* is Fontane's last book and his political testament. Like *Effi Briest*, his great work on the place of women in Bismarck's empire, it is set at the apex of the Wilhelmine era, both in Berlin and on the estate of a Prussian Junker on the shores of Lake Stechlin. It is a significant historical and cultural document, probably the finest chronicle of the life style of the German upper classes in the late nineteenth century; Fontane portrays the best in the life and ways of the passing Prussian aristocrats, while describing his hopes for the future of Germany and its nobility, which were never to be fully realized. Although this novel has been translated into many languages, it has never before been available in English; this edition thus fills an important gap in the significant works of European literature accessible to English readers.
