The Quotes Collection 111 is a series of short, smart sentences especially written for you. Based on different life issues, events and philosophies, these wit words of wisdom aim at uncovering old concepts, discovering new thoughts, encouraging the search for further truth, enlightening your mind, making new thought- connections, inciting a few insights or just at letting you decide whatever you want to get from them and their unique stand. You can trust The Quotes Collection 111 are always honest, true views on thoughts, feelings, facts and acts featuring fresh "words of art," original "paintings" surrounding the bright nuances of the Mind. In Logic, conditional sentences or propositions are clauses used to express factual implications (a reasoned relation that holds for all conditional statements) or hypothetical situations and their outcome and effect: their consequence. The validity of the main clause of the sentence is conditional on the existence of certain circumstances expressed in the dependant clause. There are several structural forms of these sort of statements, among them the logical, definitional, causal and decisional conditional sentences using different grammatical tenses and emotional states and patterns. For the purpose of the present text, I will address all types of conditional forms using this basic formula, stating implication between facts and those that set up any hypothetical situation using different tenses, mood tones and transitions. The formulations look as follows: "If (factual implication), then (consequence) and, If (hypothetical situation), then (consequence or effect). Hence, the Conditional Quotes are sequences of conditional sentences and questions showing a variety of everyday situations: curious queries, colossal crises, achievements, misperceptions, disagreements, expressions of humanity, obvious truths, mindlessness, enigmatic unfairness, cause- effect affect, "one plus one equals two," action- reaction situations, misplaced mood, lost purpose, surprising kindness, smart remarks, selective rights, awkward ironies, paradoxical habits, "Ah ha" moments, love, hate,

frustration, awe, ease, "same - old, same - old" and beyond. I hope the enclosed quotes remind you of the amazing power of the Truth through the observation and discernment of logical deductions, considering all facts and their obvious consequences- which you may or may not agree with. In the end, they may help you discover and apply a newly acquired Trail of Thought everywhere you go to make well informed daily decisions in your life. Peace, R.V. Evans, MFT

From a systematic point of view, all intelligence work can be studied on three levels: Acquisition, analysis, and acceptance. The author focuses on the third of these levels, studying the attitudes and behavioural patterns developed by leaders during their political careers, their willingness to consider information and ideas contrary to their own, their ability to admit mistakes and change course in the implementation of a failing policy and their capacity to cooperate.

With this new lectionary commentary series, Westminster John Knox offers the most extensive resource for preaching on the market today. When complete, the twelve volumes of the series will cover all the Sundays in the three-year lectionary cycle, along with movable occasions, such as Christmas Day, Epiphany, Holy Week, and All Saints' Day. For each lectionary text, preachers will find four brief essays--one each on the theological, pastoral, exegetical, and homiletical challenges of the text. This gives preachers sixteen different approaches to the proclamation of the Word on any given occasion. The editors and contributors to this series are world-class scholars, pastors, and writers representing a variety of denominations and traditions. And while the twelve volumes of the series will follow the pattern of the Revised Common Lectionary, each volume will contain an index of biblical passages so that nonlectionary preachers, as well as teachers and students, may make use of its contents.

So . . . Does Anyone Happen to Know What the Purpose of Life Is?

"I'm still here, still arriving at the White House in the wee hours of the morning, reading the papers and checking the wire, still waiting for the morning briefing, still sitting down to write the first story of the day and still waiting to ask the tough questions." From the woman who has reported on every president from Kennedy to Clinton for United Press International: a unique glimpse into the White House -- and a telling record of the ever-changing relationship between the presidency and the press. From her earliest years, Helen Thomas wanted to be a reporter. Raised in Depression-era Detroit, she worked her way to Washington after college and, unlike other women reporters who gave up their jobs to returning veterans, parlayed her copy-aide job at the Washington Daily News into a twelve-year stint as a radio news writer for UPI, covering such beats as the Department of Justice and other federal agencies. Assigned to the White House press corps in 1961, Thomas was the first woman to close a press conference with "Thank you, Mr. President," and has covered every administration since Kennedy's. Along the way, she was among the pioneers who broke down barriers against women in the national media, becoming the first female president of the White House Correspondents Association, the first female officer of the National Press Club and the first woman member, later president, of the Gridiron Club. In this revealing memoir, which includes hundreds of anecdotes, insights, observations, and personal details, Thomas looks back at a career spent with presidents at home and abroad, on the ground and in the air. She evaluates the enormous changes that Watergate brought, including diminished press access to the Oval Office, and how they have affected every president since Nixon. Providing a unique view of the past four decades of presidential history, Front Row at the White House offers a seasoned study of the relationship between the chief executive officer and the press -- a relationship that is sometimes uneasy, sometimes playful, yet always integral to democracy. "Soon enough there will be another president, another first lady, another press secretary and a whole new administration to discover. I'm looking forward to it -- although I'm sure whoever ends up in the Oval Office in a new century may not be so thrilled about the prospect."

This book explores the rhetorical functions of quotations from Jewish scriptures in Paul's argumentation. Katja Kujanpää's approach of combining rhetorical perspectives with textual criticism results in a more comprehensive study of quotations in Romans than has been previously seen.

The Constitutional Rights of Women

Each day you wake up, you are facing the first day of the rest of your life. What does that mean to you? Is it just another day, a planned set of activities, work, school, boredom, or questioning why or what is next? Where are you going, why and for what purpose? Is it important to you or anyone else? How do you relate to yourself and to others in your life or to those you might come in contact with? Some of us are quiet; others talk a lot. Some question everything, and some just take life as it happens, without caring too much. Are we changeable, or have we changed over our lifetime, or more importantly, do we want to change? What is important to you? What is true and real?

A Typological Grammar of Panare

"Author Mel A. Topf provides readers with the only comprehensive treatment of the history, concepts, jurisprudence, and controversies relating to state supreme court advisory opinions. This significant area of state constitutional law has no parallel in federal law, which bars advisory opinions from federal courts. Though just ten states have adopted such advisory opinions (many others have debated but rejected them), they have been implicated in major issues regarding American judicial power. The book explains the so-far-unexplained first appearance of advisory authority in 1780, and addresses the persistent aura of illegitimacy that has always shadowed this authority"--Provided by publisher.

EVIDENCE

In the post 911 world, people are more susceptible than ever to charismatic figures who offer simple, black v. white, us v. them, good v. evil, formulaic solutions. The rise of the Internet; increasingly sophisticated knowledge about how to influence and manipulate others; and the growing vulnerabilities of people across the planet—make for a dangerous, potentially devastating combination. Steven Hassan's new book Freedom of Mind provides the knowledge and awareness needed to help yourself and loved ones avoid or escape from such dangerous people and situations. This must-read volume is a significantly updated and revised edition of Hassan's groundbreaking Releasing the Bonds (2000). People who read and benefitted from that book—and also his earlier book, Combatting Cult Mind Control (1989)—will want to read Hassan's latest. It provides an up-to-the-minute guide to the reality of 'undue influence'—the preferred term for mind control—in the post 9/11 era. Unstable Global Environment Enhances Dangers of Unethical Control The world has changed greatly in the last decade. The rise of the Internet, the emergence of global terrorism and of dangerous totalistic

ideologies, and the shifts in global markets—these and other changes have created new opportunities for unscrupulous individuals, groups, and institutions to exert unethical control over others. Freedom of Mind exposes the techniques and methods that individuals, cults, and institutions of all types—religious, business, therapeutic, educational, governmental—use to undo a person's capacity to think and act independently. Individuals More Vulnerable than Ever The Internet is now the primary vehicle for recruitment and indoctrination. It is also a means for spreading sophisticated information about social psychology, hypnosis, and other techniques of social control, which are being used—in ways both effective and dangerous—by 'influence professionals.' Meanwhile, people are becoming increasingly vulnerable. Sleep-deprived, overweight and looking to improve themselves, overloaded with often frightening images and information; anxious about the current economic decline, climate change, and government corruption on all levels. People are more susceptible than ever to charismatic figures who offer simple, black v. white, us v. them, good v. evil, formulaic solutions. These factors—the rise of the Internet; increasingly sophisticated knowledge about how to influence and manipulate others; and the growing vulnerabilities of people across the planet—make for a dangerous, potentially devastating combination. Freedom of Mind Provides Help for Yourself, a Loved One, or a Friend Hassan's new book, Freedom of Mind, aims to fill the gap. It identifies and explains how to identify and evaluate potentially dangerous groups and individuals. Hassan details his groundbreaking approach, the 'Strategic Interactive Approach,' which can be used to help a loved one leave such a situation. Step-by-step, Hassan shows you how to: evaluate the situation; interact with dual identities; develop communication strategies using phone calls, letter writing and visits; understand and utilize cult beliefs and tactics; use reality-testing and other techniques to promote freedom of mind. He emphasizes the value of meeting with trained consultants to be effectively guided and coached and also to plan and implement effective interventions. The best way to protect yourself and your loved ones is knowledge and awareness.

Aforismi e magie

'L'Aforisma è il sogno di una vendetta sottile. L'Aforisma è genio e vendetta e anche una sottile resa alla realtà biblica. Chi fa aforismi muore saturo di memorie e di sogni ma pur sempre non vincente né davanti a Dio né davanti a se stesso né davanti al suo puro demonio.' Alda Merini Non cercate di prendere i poeti perché vi scapperanno tra le dita.

Nuove magie

In fondo i conti con Dio non si possono fare. / Ho taciuto sul caso che non interessava / però ogni tanto io mi gratto le mani. / Perché ho toccato il fatto con mano, / e mi è sembrato strano. Leggendo questo e gli altri aforismi qui raccolti, la "parola del poeta" distillata da una delle autrici più amate e riconosciute del Novecento, non si può non pensare alla sua voce roca, al suo sguardo inquieto e traboccante di vita: Alda Merini come nessun'altra ha saputo raccontare un mondo di sfavillante bellezza e acuminata follia. Intensa, sensuale e mistica, ma sempre inclassificabile, la poetessa dei Navigli riecheggia in tutta la sua potenza fra i versi di quest'ultima raccolta, che disegnano il suo mondo interiore fatto di amore e abbandoni, di passione e dolore, con una pennellata di inconfondibile e profonda umanità.

Love Lessons

Alda Merini is one of Italy's most important, and most beloved, living poets. She has won many of the major national literary prizes and has twice been nominated for the Nobel Prize--by the French Academy in 1996 and by Italian PEN in 2001. In Love Lessons, the distinguished American poet Susan Stewart brings us the largest and most comprehensive selection of Merini's poetry to appear in English. Complete with the original Italian on facing pages, a critical introduction, and explanatory notes, this collection gathers lyrics, meditations, and aphorisms that span fifty years, from Merini's first books of the 1950s to an unpublished poem from 2001. These accessible and moving poems reflect the experiences of a writer who, after beginning her career at the center of Italian Modernist circles when she was a teenager, went silent in her twenties, spending much of the next two decades in mental hospitals, only to reemerge in the 1970s to a full renewal of her gifts, an outpouring of new work, and great renown. Whether she is working in the briefest, most incisive lyric mode or the complex time

schemes of longer meditations, Merini's deep knowledge of classical and Christian myth gives her work a universal, philosophical resonance, revealing what is at heart her tragic sense of life. At the same time, her ironic wit, delight in nature, and affection for her native Milan underlie even her most harrowing poems of suffering. In Stewart's skillful translations readers will discover a true sibyl of the twentieth and twenty-first centuries.

Eco-Words

How many words do we use in a day? How many of them are actually necessary to convey the flow of our thoughts? And how many could we do without, if we were to fast, abstain from using words? This book examines the power of words. It explores the links between communication, language and identity, arguing for a certain gravity to the practice of speech, for offering only meaningful words to the people we talk to. We are the words we hear and utter, we are the words we think, and Anna Lisa Tota invites us to use "eco-words" to change the world we live in: "This book is a proposal to myself and to you, dear Reader, an invitation to change together: while you read and while I write, bridging the temporal and spatial gap that separates us and makes it impossible for us to help each other". This volume will appeal to readers interested in the everyday practice of communication. It will also be useful to scholars and students of sociology, emotion, memory, body studies, philosophy, aesthetics, communication studies, psychology, and linguistics.

Azzurrincantesimi e magie rosa. Una via alla consapevolezza

Dettate al telefono a uno dei suoi più cari amici, le poesie di Alda Merini sono la testimonianza in versi della sincerità di una delle voci più amate della poesia italiana, una voce che non ha mai tradito la sua meraviglia. Uscita per la prima volta alla fine del 2005, questa raccolta di 53 liriche nasce dal cuore della vicenda biografica della poetessa dei Navigli, in particolare dall'incontro con un giovane uomo, la sua indifferenza e il tradimento. I componimenti, tra gli ultimi di Merini, si muovono lungo una linea cronologica scandita dalla passione e dalla disperazione, toccando gli estremi della potenza e del cedimento, fino a che Dio stesso sarà chiamato come testimone contro l'amante infedele. Con un tono spontaneo e insieme carico di mistero - enfatizzato dalla scelta di non inserire segni di interpunzione tra e nei versi - Merini si inginocchia davanti al suo amante e alla poesia, l'unica in grado di restituire la potenza del suo sentire. Poesia, Amore e Dolore si uniscono dunque in una danza leggera, dando vita a parole pronunciate attraverso una cornetta ancora prima di imprimersi sulla carta, così da invertire il naturale ciclo dell'atto creativo e finendo per abitare, con la loro portata emotiva e spirituale, tutti i livelli della realtà.

Nel cerchio di un pensiero

Quando nel 1947 l'India raggiunge l'indipendenza, c'è enorme fermento per una nazione da costruire a partire dai suoi fondamenti culturali: scuole e biblioteche. In questo clima Ranganathan pubblica *The Organization of libraries*, con lo scopo di «mettere in relazione l'organizzazione delle biblioteche e l'educazione e di fornire una breve introduzione alle tecniche biblioteconomiche». L'opera, che diventa subito lo strumento di promozione di una costituenda rete di biblioteche scolastiche integrata nel sistema bibliotecario nazionale, è organizzata in tre parti: Biblioteche ed educazione (con ampi richiami a J. Dewey e Kilpatrick), Biblioteconomia pratica (con la più estesa presentazione della *Colon Classification* mai pubblicata in Italia) e Il sistema bibliotecario nazionale.

Manna e miele, ferro e fuoco

Se esiste un filo che lega le poesie e le prose uscite dalla penna di Alda Merini, e raccolte in questo volume, è un filo intessuto di follia e verità, di amore e corpo, che avvolge il buio dell'esistenza. I versi più indimenticabili e gli incipit più riusciti della poetessa dei Navigli paiono infatti scritti nella notte

più profonda, spremendo l'oscurità per ricavarne lampi di luce. Questa antologia originale e preziosa è un omaggio al talento inarginabile dell'autrice e insieme un viatico per i lettori che ancora non la conoscono. Tra le sue pagine scopriamo un ritratto inedito di Alda Merini attraverso i suoi testi più noti e altri dimenticati: dalle poesie di Un'anima indocile, La volpe e il sipario e Le madri non cercano il paradiso agli aforismi di Nuove magie e Colpe di immagini senza dimenticare la prosa, con Lettere a un racconto e La nera novella, unico esperimento noir della sua ampia produzione. Respiro nella notte ci immerge nel mondo della poetessa più amata e citata della nostra contemporaneità, un mondo in cui la follia è paura, solitudine, lavaggio del cervello, ma anche atto di creatività suprema. Un mondo fatto di amici veri o immaginati, di echi di sogni lontani e di corpi che reclamano carezze, vicinanza e amore. Perché, in fondo, Alda Merini è la poetessa dell'amore: quello che consuma e salva, che nasconde l'urgenza di essere visti e ascoltati nonostante le nostre fratture. L'amore più alto, cantato in quell'impasto unico e inarrivabile tra la lingua comune - con la quale tutti noi raccontiamo le emozioni - e quella letteraria, quasi mistica, che è la cifra profonda della parola meriniana.

L'organizzazione delle biblioteche

Providing the most complete record possible of texts by Italian writers active after 1900, this annotated bibliography covers over 4,800 distinct editions of writings by some 1,700 Italian authors. Many entries are accompanied by useful notes that provide information on the authors, works, translators, and the reception of the translations. This book includes the works of Pirandello, Calvino, Eco, and more recently, Andrea Camilleri and Valerio Manfredi. Together with Robin Healey's Italian Literature before 1900 in English Translation, also published by University of Toronto Press in 2011, this volume makes comprehensive information on translations from Italian accessible for schools, libraries, and those interested in comparative literature.

Nuove magie

The Book of Lies was written by English occultist and teacher Aleister Crowley under the pen name of Frater Perdurabo. As Crowley describes it: "This book deals with many matters on all planes of the very highest importance. It is an official publication for Babes of the Abyss, but is recommended even to beginners as highly suggestive." The book consists of 91 chapters, each of which consists of one page of text. The chapters include a question mark, poems, rituals, instructions, and obscure allusions and cryptograms. The subject of each chapter is generally determined by its number and its corresponding Qabalistic meaning.

The Book of Lies

Navigare tra le nuove fragilità contemporanee Le generazioni dei nostri padri dicevano che non c'era bisogno di curare la mente, e qualsiasi parola che iniziasse per «psico» suonava come una bestemmia, sussurrata con paura del giudizio altrui. Tuttavia, gli stravolgimenti degni di un Armageddon che stiamo vivendo negli ultimi anni hanno acceso l'attenzione sulla salute psicologica di tutti: dagli adulti ai ragazzi, dalle famiglie alle scuole ai luoghi di lavoro. La sensazione è che quella «società della performance» di cui ancora portiamo i segni, nella quale fallimento e debolezza non sono contemplati, stia cedendo il

passo a una nuova realtà basata sulla ricerca della felicità e di tempo da dedicare a sé e ai propri affetti. Riscoprendo al contempo il valore della sofferenza: come scrive Giulio Costa, «ogni trauma merita una storia», e ogni storia merita di essere ascoltata ed elaborata per poter rimettere insieme i pezzi di un mondo che si sgretola, in cui è normale avere paura del futuro. La disciplina dell'imperfezione, con un citazionismo che spazia da Hannah Arendt a Zerocalcare, ci accompagna in un viaggio tra le acque burrascose delle fragilità contemporanee, che il susseguirsi di crisi ed emergenze e la frenesia della quotidianità hanno trasformato nella tempesta perfetta. Una lettura coinvolgente e diretta, per tracciare una rotta e condurre l'imbarcazione della nostra vita verso approdi sicuri, grazie a piccoli suggerimenti per riconoscere le proprie oscurità, accettarle e perdonarle.

IL POETA AI CONFINI DELLA TERRA PROMESSA

Mentiamo tutti, tutti i giorni, più volte al giorno, a conoscenti, amici, colleghi, familiari. A noi stessi. La nostra mente sembra non resistere al fascino di dire bugie. Eppure mentire è più complicato che dire la verità. Allora perché lo facciamo? Il territorio della menzogna è pieno di insidie, entrarci vuol dire muoversi in una dimensione incerta e contraddittoria. Il pensiero bugiardo è un labirinto: un dedalo di strade più o meno tortuose, un gioco di specchi, un enigma che la psicologia può aiutarci a decifrare, almeno in parte. "Le bugie"

Amata scrittura

Separare, distinguere, misurare, sono attività tipicamente umane. Qualunque tentativo di antropizzare uno spazio presuppone una marchiatura, l'impressione di un segno che significa possesso, ma che al contempo delimita anche la nostra identità, serve a separarci dagli altri. Tuttavia, a differenza dei moderni, gli antichi non hanno mai pensato di chiudere le frontiere. Neppure l'impero di Roma, al culmine della sua potenza, ha mai avvertito la necessità di sigillare i propri confini per impedire a chi stava fuori l'ingresso nel grande recinto della civiltà greco-romana. Molte delle parole con cui le lingue classiche designano la nozione di confine, anzi, contengono in sé l'idea della comunicazione, la possibilità dello scambio, l'ipotesi del passaggio, rammentandoci che l'esclusione è solo una delle due facce, quella meno nobile, della frontiera.

Mistica d'amore

Un alternarsi di orrore e solitudine, di incapacità di comprendere e di essere compresi, in una narrazione che nonostante tutto è un inno alla vita e alla forza del "sentire". Alda Merini ripercorre il suo ricovero decennale in manicomio: il racconto della vita nella clinica psichiatrica, tra elettroshock sguardo della poetessa su questo inferno, come un'onda che alterna la lucidità all'incanto. Un diario senza traccia di sentimentalismo o di facili condanne, in cui emerge lo "sperdimento"

La poesia italiana oggi

Viviamo in un tempo e in una società sempre più caratterizzati da adulti che si attardano nel crescere, con la pretesa onnipotente di poter vivere bambini ad oltranza. Con adulti che indugiano ad uscire da un limbo fatto di eterno presente, i figli avranno difficoltà a trovare posto come tali. Così, non di rado, tra genitori e figli si formulano rapporti alla pari, con l'effetto di limare le differenze tra le generazioni creando confusione di appartenenza e di identità. Le situazioni cliniche vissute e raccolte dall'autrice, durante tanti anni di lavoro nelle Istituzioni, ne sono testimonianza e l'hanno spinto a dare vita a questo libro. È un diario di lavoro, un saggio a carattere divulgativo, rivolto a tutti coloro che, addetti ai lavori e non, sono attenti ai richiami e alla suggestione della vita interiore. È un testo agile, che si propone non come un manuale di istruzioni, per crescere o far crescere, ma come un'occasione di riflessione sui motivi che ci inducono a rinunciare alla crescita e sui motivi che dovrebbero spingerci a varcare la soglia del limbo per vivere pienamente noi stessi e gli altri.

La disciplina dell'imperfezione

En deux cents articles qui cheminent entre ACCADEMIA DELLA CRUSCA et ZANZOTTO (ANDREA), ce dictionnaire inédit dresse un panorama complet de la littérature italienne, du Moyen Âge à nos jours. Les écrivains et leur œuvre y occupent naturellement le premier plan, mais les genres littéraires, les écoles et les institutions qui sous-tendent la création littéraire y tiennent aussi leur place. Comme pour les autres dictionnaires de la série, les articles sont empruntés au fonds éditorial d'Encyclopaedia Universalis et les meilleurs spécialistes (Dominique FERNANDEZ, Pierre LAROCHE, Angélique LEVI,

Jean-Paul MANGANARO, Philippe RENARD, Jean-Noël SCHIFANO...) y ont apporté leur concours. Sans équivalent en langue française, indispensable aux étudiants comme aux spécialistes, ce Dictionnaire est aussi un trésor de découvertes pour les amateurs, amoureux de l'Italie et de sa littérature.

Perché mentiamo

Ho bisogno di poesia, questa magia che brucia la pesantezza delle parole, che risveglia le emozioni e dà colori nuovi.

Frontiera

Questo manuale è nato per venire incontro alle esigenze formative degli studenti delle scuole di psicoterapia e di psichiatria e definire in modo critico i fondamenti dell'intervento psicoterapeutico nei contesti clinici, al fine di evitare pratiche sommarie e suggestive e di incorrere in numerosi errori concettuali. Nella formazione dei professionisti è necessario sgombrare il campo dai modelli teorici obsoleti (metapsicologici) sui quali si fondano le divergenze tra le varie scuole; gli studi empirici e l'esperienza professionale convergono nel ritenere che la psicoterapia sia efficace essenzialmente in virtù degli effetti del campo intersoggettivo asimmetrico che si crea tra terapeuta e paziente, necessario per riattivare in quest'ultimo la fiducia, la spinta vitale e il "desiderio". E poi c'è l'altro tempo, il tempo interiore, capiente e accogliente, il tempo circolare, che si apre e che contiene, e che più si apre più contiene. È il tempo custode e fecondo, che fa alleanza con tutto quello che siamo, che vive di spazio, respira di essere. Perché ogni giorno facciamo il tempo, ogni giorno cominciamo tutto il tempo che siamo.

Dal fondatore di Libreriamo La poesia giusta al momento giusto Cosa sarebbe la nostra vita senza la poesia? Senza quella capacità che hanno i versi di esprimere, con poche, semplici parole, concetti complessi, emozioni universali? Quante volte abbiamo desiderato poter citare la poesia di un certo autore per rendere più chiaro ciò che stavamo provando? Questo libro è un ricchissimo compendio di liriche adatte a tutte le occasioni. Tra queste pagine si potrà trovare in modo immediato il verso ideale da utilizzare in ogni situazione. Come un moderno Cyrano de Bergerac, che suggerisce le parole, Saro Trovato ci conduce alla scoperta di versi più o meno noti, che è affascinante recuperare nella nostra vita quotidiana: durante un primo appuntamento, per chiedere perdono a un amico, per dire arrivederci a qualcuno, per una dedica a chi si stima. Ma anche in un colloquio di lavoro o in una riunione tra colleghi. Grazie alla parola poetica alcuni momenti diventano speciali, si fissano nella memoria in modo indelebile. E alcune situazioni delicate possono avere esiti imprevedibili.
