When Live, Laugh, Love Turns Into Curse, Hex, Spell

I tried to be a love and light witch, everything was "Blessed Be" and "Live Laugh Love" for a long time. I found a magical community that welcomed me with open arms, as long as I was a good witch. I wasn't going to be "bad" and let it destroy me, like I had been warned that it would. I came very close to losing the core of who I really am until tragedy struck. I then learned that there's nothing wrong with being a good witch. However, there comes a time in a person's life where it's no longer acceptable to be a door mat. It's during those times that people are due payback for how they've treated you. This book goes well beyond fairy dust and affirmations. It delves into a magical practice taught to me by generations of women from within my own family and those I have met along my journey. Inside this book you will find all sorts of mayhem inducing magic, meant specifically for teaching you how to defend yourself, your family, your home, and your place of business. "But where's the revenge?" you may ask. That is exactly what we're going to delve into in this book. You will learn how to create a new arsenal of tools to protect yourself, your family, and your home from ever being burdened by those sorts of unsavory people again.

Enjoy this classic work today. These selected paragraphs distill the contents and give you a quick look inside The Spell of

Scotland - The Spell Series: Look inside the book: It is a royal progress, out of Edinburgh into the Middle Marches; past Dalkeith where James IV rode to meet and marry Margaret of England; past Borthwick, where Queen Mary spent that strange hot-trod honeymoon with Bothwell—of all place of emotion this is the most difficult to realize, and I can but think Mary's heart was broken here, and the heartbreak at Carberry Hill was but an echo of this; past Lauder, where the nobles of ignoble James III hung his un-noble favourite from the stone arch of the bridge; into the level rays of a setting sun—always the setting sun throws a more revealing light than that of noonday over this Scotland. ...I wandered about, stopping in the empty sloping market-place to look at the Cross, which is as old as the Abbey; looking at the graveyard which surrounds the Abbey, where men lie, common men unsung in Scottish minstrelsy, except as part of the great hosts, men who heard the news when it was swift and fresh from Bannockburn, and Flodden, and Culloden; and where men and women still insert their mortality into this immortality—Elizabeth Clephane who wrote the 'Ninety and Nine' lies there; and out into the country and down by the Tweed toward the Holy Pool, the Haly Wheel, to wonder if when I came again in the middle night, I, too, should see the white lady rise in mist from the waters, this lady of Bemersyde who had loved a monk of Melrose not wisely but very well, and who drowned herself in this water where the monk in penance took daily plunges, come summer, come winter.

Magic Spell

The use of spell jars can be traced all the way back to ancient times, and evidence of rituals that are very similar can be discovered in a wide variety of cultures and traditions. One of the earliest examples comes from Ancient Egypt, where magic spells were written on papyrus or pieces of pottery and buried in tombs. These items were then discovered centuries later. Citizens in ancient Greece and Rome were known to protect themselves by carrying amulets and talismans with them at all times. It was also usual practice for them to employ little containers that were stuffed with various herbs and other components. During the Middle Ages in Europe, spell jars were known as witch bottles and were used to ward off evil spirits or to curse an enemy. These bottles were typically used to hold urine, hair, and fingernails before being buried on the property of the individual who had performed the spell. In some cases, the bodies were even found buried within the walls of the dwellings or beneath the floors. The use of spell jars in North America can be traced back to the African diaspora and the practice of Hoodoo, which is a form of African American folk magic. In Hoodoo, the jars are believed to hold the power to cast spells. Hoodoo practitioners produced and used spell jars filled with herbs, roots, and other substances for a variety of purposes, including love spells, money spells, and protection spells.

The Lost Words by composer James Burton takes its inspiration and text from the award-winning 'cultural phenomenon' and book of the same name by Robert Macfarlane and Jackie Morris: a book that was, in turn, a creative response to the removal of everyday nature words like acorn, newt and otter from a new edition of a widely used children's dictionary. Both the book and Burton's 32-minute work, which is written in 12 short movements for upper-voice choir in up to 3 voice parts (with either orchestral or piano accompaniment), celebrates each lost word with a beautiful poem or 'spell', magically brought to life in Burton's music. At its heart, the work delivers a powerful message about the need to close the gap between childhood and the natural world. Burton's piece was co-commissioned by the Hallé Concerts Society for the Hallé Children's Choir and the Boston Symphony Orchestra. The piano accompaniment version was premiered at the Tanglewood Festival in 2019 by the Boston Symphony Children's Choir, of which Burton is founder and director. The Hallé Children's Choir will premiere the orchestral version of the full work in Manchester, UK, post-pandemic. Vocal Score Co-commission by Boston Symphony and Hallé Concerts Society for their respective Children's Choirs. Two versions - with orchestral or with piano accompaniment. The vocal score is the same for both versions. James Burton is a composer but also a conductor. He is conductor of the Tanglewood Festival Chorus and choral director of the Boston Symphony. The book The Lost Words, exquisitely designed, has won multiple awards and is an international best-seller. The vocal score includes Jackie Morris's beautiful imagery in its cover design.

Have you ever lit a pink candle on a Friday night and thought about the love you would like to have in your life? Maybe even closed your eyes and pictured that perfect person? Have you ever walked into a room, known you were not alone, and said a prayer for protection? Have you ever looked at a telephone, wishing it would ring, and it did? If you have had these or similar experiences, you have put the cosmic forces of the universe to work without even realizing it. Imagine what would happen if you decided to consciously focus your energy, willing these things to happen. Would they? Spell Castings contains more than 100 easy-to-use, practical spells to help you achieve and accomplish your dreams. Spell Castings can be performed by the experienced Witch, but are easy enough for the novice. Specific procedures—including the use of various supplies needed to cast the spells—are completely explained.

Spell Castings is divided into color-coded chapters to help you determine which spell you desire to cast. For example, the "purple" chapter includes spells to become more psychic or to help you perform more intuitive readings. A curious witch. A mystifying spell. And a dark destiny ... Hazel made it into the Lightgrove Coven. Well, sort of. She made it into their initiate program. Now she needs to go through their intensive program, and only if she aces it, she'll become a full member of the famous coven. He has been nothing but supportive, but even his patience has limits. Hazel haphazardly tries to juggle her new life, but when she can't master her own magic, misses her class (not her fault!), lets Sean down (again, she couldn't help it!), and strange spells and marks appear among students, things spiral out of control. Everyone has their own ideas about witchcraft. But what is a modern witch, really? And how does one go about jumping into witchcraft in the modern age? This book will answer all of those questions and more. Written by a practicing witch, this book presents a broad overview of general magical practices rooted in the bustling and diverse world of modern life. Among the many topics covered in these pages are some of the following: Have you ever wondered what the difference was between a Wiccan and a witch? Or if there was a difference? Well, now you can find out. This book covers several key differences as well as how non-Wiccan witches can work their magic without adhering strictly to the Wiccan religion. Beginning witches will learn how to raise several kinds of protective shields. From wards to protect you during your spell casting to shields that protect you from specific people and beyond, protection spells abound on these pages. Not only will you learn how to protect yourself, but your home and pets as well. Love spells are controversial. But what if there was a way to attract love without trampling the free will of another person? Well, I have good news: there is! This book contains a safe, ethical love spell that will help you find the love you are looking for without violating anyone else's personal freedoms or choice. There is a wild array of witches out there. And finding where you fit into the magical spectrum can be difficult. That is why the spells in this book are written to suit nearly any magical practitioner. You need only substitute out the energy you use most often and perhaps a few aesthetic points, and even the newest magical practitioner can wield these spells within the structure of their personal practice. You might think you know what magic looks like. But modern magic has been influenced, predominantly, by one religion for the last sixty years. Isn't it time for something a little bit new? Aren't you ready to see the full array of what magic can offer you and what you, in turn, can offer to the energies that you work with? This book will help you find all of that and more. Solitary Moon has several books on the subject of magic, each geared to a specific need. Every witch is welcome in these pages; every practice seen as part of the amazing constellation that is the modern magical community. The Beginner Witch is a book for modern magic users, written with an eye toward inclusivity and respect. The spells were written to accommodate people with mobility concerns or who might not fit into the usual magical binary. And each spell was crafted with an eye toward making them as welcoming to witches from across the world as possible. So please, sit down with Solitary Moon and see what modern magic can offer you. You won't be disappointed. Buy Now!

The In-betweens are a peculiar kind; cursed with body parts that resemble those of animals, they are considered less than human in the eyes of the Church, and live only as slaves, bound to the service of farmers all throughout the Holy Kingdom. Alistair knows their plight well. As though he were a slave himself, his father forces him to work beside them, from dawn til dusk. But one night, while stargazing, a bright light comes crashing down outside of his otherwise peaceful home, and reveals itself to be a ravenous beast hell-bent on killing him. The boy fends it off, but sustains a bite containing the beast's potent venom. In search of a cure, Alistair is torn from his old life, thrust into a whole new world and pitted against his homeland, overtaken by a mad religion that now wants his head. With the help of a slave-girl named Wolf, they'll have to mount a desperate race to the border, and even if they survive, they might just find that freedom is hardly ever free. The debut novel of Ethan M. Kleinhans, *The Venom Spell* ventures into the controversial topics of race and religion, and asks, quite simply, if there is a difference between being human, and being a person.

The Venom Spell

A romance set in Italy involving a love triangle of Helen, Inez, and Jack, tangled up in a spell of dual personalities, in the present and in the past. Excerpts: ... "SLOWLY THE SPELL BEGAN TO WORK UPON INEZ' BRAIN. SHE WAS NO LONGER IN THE PRESENT-SHE WAS A WOMAN OF ITALY OF FOUR CENTURIES BACK." ... "It has actually happened at last," the letter began, "and your favorite wager of 'a thousand to one on the unexpected' has really won. In other words, I, Helen Cartwright, condemned (by myself) to live and die an old maid as penalty for being so critical of the genus homo, now confess myself completely, hopelessly in love, and so happy in my new estate that I wonder why I ever hesitated." ... "Helen, dear," she [Inez] said, "here in the presence of Mr. Cartwright and Monsignor Cerini I ask your permission to keep in my heart the image of the man I learned to love while we both were beneath the spell. That man no longer exists in the flesh, but I still worship his memory. He can never exist again except as a part of an experience which could never be repeated. Is this asking too much, dear?" "What does it all mean?" cried Helen, gazing at her helplessly-"what does it all mean?" "It means that there have been two Jacks, Helen-one of whom became transformed for a time into a veritable master-spirit of the past. To this man, I admit, I gave a devotion which I shall never-could

never-give to any other; but he died, Helen, when the spell broke against that wall at the foot of the hill of Settignano. This man, even during his existence, gave me no devotion in return, and knew not the passion which he inspired in me. He had no heart, but it was not his heart I worshipped. To me his mind-broad, comprehensive, and understanding-stood for all that life could give. The other Jack-the man you married-has never wavered in the love he gave you from the first. He has suffered from the influence of the second personality in that he was forced into the background by the greater strength of this sub-conscious self; but he has also gained from its influence in the development which we all have seen. My Jack is dead, but yours still lives. He needs you, and he longs for the return to him of the wife he has always loved."
