WEST'S LEGAL ENVIRONMENT OF BUSINESS is the #1 text for this course--setting the standard by delivering comprehensive, authoritative, and cutting-edge coverage in an interesting and accessible format. Its recipe for success includes the same "black letter law" flavor as its #1 Business Law counterpart, West's Business Law, but with a more specific focus on current topics like ethics, government regulation, and administrative law. Updated and expanded teaching materials, including the new West's Legal Environment NOW online assignment administration tool, keep this text unmatched in its ability to support the key objectives of the course.

West's Business Law

Marson and Ferris' Business Law provides a thorough account of the subject for students on Business degrees. It introduces students to the essential topics by exploring current and pertinent examples. It emphasizes the importance of cases and demonstrates the relevance of the law in a business environment.

West's Business Law

Based on the best-selling West's Business Law, this text maintains its most popular features and continues to offer flexibility for different teaching philosophies. While focusing on public law issues such as ethics, government regulation, and administrative law, it also provides a good balance of private law topics such as contracts and sales. Selected cases begin with either a "Historical and Social Setting" or a "Company Profile" and address the AACSB's curriculum requirements by focusing on global, political, ethical, social, environmental, technological, and cultural diversity issues.

West's Business Law

Business Law offers comprehensive coverage of the key aspects of business law in a straightforward manner that is easy to understand for non-law students. It describes and considers the full range of legal topics such as Contract, Company and Employment Law, as well as including coverage of emerging areas such as Health and Safety and Environmental Law as they apply to business.
