Includes its Annual report.

General catalogue of printed books

This catalogue, reissued in its third edition, contains entries for British and foreign participants at London's International Exhibition in 1862. A diverse range of industries - including mining, engineering, textiles, printing and photography - are represented. Also featuring many contemporary advertisements, this publication remains an instructive resource for social and economic historians.

General Catalogue of Printed Books

Includes list of members, 1882-1902 and proceedings of the annual meetings and various supplements.

... Catalogue of Printed Books

R. W. Sindall in the book "The Manufacture of Paper" discusses the art and nature of paper-making with some historical information. The author explains the independent effort of chemists and engineers dedicated towards the promotion and development of the paper-making industry among other things. This book is for people interested in the history, growth, and development of the paper industry from what it used to be into what it is today.
