The Horses Rejoice

The second book in The Horses Know Trilogy, The Horses Rejoice is a novel for horse lovers who know there is more to horses than meets the eye.

The Horses Know

"The human race has almost destroyed itself and those who remain know that they must avoid repeating the mistakes of their ancestors. But it's extremely difficult. Without horses, it would be impossible. Amarilla is one of those chosen by a horse as a Bond-Partner. She looks forward to a lifetime of learning from her horse and of passing on the mare's wisdom to those seeking help. But then she discovers that she is the one for whom the horses have all been waiting. The one who can help them in return. In order to give the horses the help they need, Amarilla will have to achieve that which has never been attempted before. Only her beloved mare can give her the motivation, the courage and the strength to believe she can succeed. If she does, a new era will dawn for horses and humans alike..." - author's website.

From A Spark Comes A Flame: A Spin Off Novella from The Horses Know Trilogy

From A Spark Comes A Flame is a spin off novella from The Horses Rejoice (book two of The Horses Know trilogy).

Horses Forever

Horses Forever is the sequel to The Horses Know Trilogy.

Farewell to the Horse

THE SUNDAY TIMES HISTORY BOOK OF THE YEAR 2017 'A beautiful and thoughtful exploration of the role of the horse in creating our world' James Rebanks 'Scintillating, exhilarating ... you have never read a book like it ... a new way of considering history' Observer The relationship between horses and humans is an ancient, profound and complex one. For millennia horses provided the strength and speed that humans lacked. How we travelled, farmed and fought was dictated by the needs of this extraordinary animal. And then, suddenly, in the 20th century the links were broken and the millions of horses that shared our existence almost vanished, eking out a marginal existence on race-tracks and pony clubs. Farewell to the Horse is an engaging, brilliantly written and moving discussion of what horses once meant to us. Cities, farmland, entire industries were once shaped as much by the needs of horses as humans. The intervention of horses was fundamental in countless historical events. They were sculpted, painted, cherished, admired; they were thrashed, abused and exposed to terrible danger. From the Roman Empire to the Napoleonic Empire every world-conqueror needed to be shown on a horse. Tolstoy once reckoned that he had cumulatively spent some nine years of his life on horseback. Ulrich Raulff's book, a bestseller in Germany, is a superb monument to the endlessly various creature who has so often shared and shaped our fate.

If Not for the Horses

A young boy and his family are uprooted from their farm in free Lithuania, forcibly resettled in another country by Adolf Hitler, and then uprooted again by the advances of Stalins Russian Army. After being shuttled back and forth between the two dictators, he and his family plan and orchestrate their escape via covered wagon while under siege. All the while the youngster, Joe Klemm, does not lose his optimism and love of life. This narrative vividly describes his story of survival and flight to the west, his life in West Germany, his immigration to America, and finally how he returned to Germany as a tank driver with the U.S. Army. The theme, life is great permeates this narrative.

Sonrise Stable

With the excitement of summer camps over, Rosie and Carrie work to get their horses in shape for the state 4-H competitive trail ride. The girls are surprised to learn that Abigail, the arrogant new boarder at Sonrise Stable, is also entered in the race. Can Scamper and Zach keep up with her flashy Arabian? How much is Rosie willing to risk in order to beat Abigail and win the competition?

Horse Lovers

From the National Book Award winner comes the moving novel of Sweet William, an old thoroughbred horse, who recounts the trials and tribulations of his life. Sweet William shares the glory of his days as a race horse--and as a broken-down mount transformed by the kindness of a strange old man.

Sweet William

"A rhyming chronicle of the wild, weird, and wonderful happenings of a singular day on which a curious horse escapes its corral on a mission"--

On the Day the Horse Got Out

Now back in print featuring the original text and illustrations in a gorgeous hardcover edition, the magnificent Lipizzan stallions of Vienna come to life again in this exciting story that is rich in history and horsemanship from a Newbery Medal-winning author.

White Stallion of Lipizza

An illuminating look at the story behind the success of one of the best dressage riders in the world. German Olympian Isabell Werth has six Olympic gold medals and scores of championship titles to her name—there are few her equal on paper. But an equestrian's success is wholly dependent on the relationship she has with her athletic partner her horse and Werth's astounding accomplishments would not have been possible without her unique approach to working with the animals she's loved since childhood. Even as a little girl, growing up on a farm on the Lower Rhine, it was clear that Werth possessed an extraordinary gift for empathizing with horses and foreseeing how they were likely to react in certain situations. This insight gave her a special ability as a rider and trainer. Here, Werth collaborates with accomplished sports journalist Evi Simeoni someone who has witnessed and written about her career from the very beginning to tell her life story. Readers will get the inside scoop when it comes to Werth's accomplishments and her failures, too. They'll hear her personal thoughts regarding some of the biggest controversies to rock the dressage world: Rollkur and Totilas. Perhaps most importantly, they'll learn about each of the sensitive and talented horses that has impacted Werth's life, including Gigolo, Satchmo, and Bella Rose. There is a meme that is popular in the riding community that says, "Two legs move our body, four legs move our soul." It is this sentiment that Werth feels perhaps best defines her.

Four Legs Move My Soul

Unbreakable bonds. Thrilling equine emergencies. Heartwarming triumphs. In the eagerly anticipated third installment of "The Adventures of the Horse Doctor's Husband" series, readers embark on another thrilling journey through the exceptional world of equine emergencies. This collection of captivating short stories will immerse you in a whirlwind of heartwarming triumphs and poignant moments that reflect the unbreakable bond between humans and horses. Within these pages, you'll find yourself transported to the bustling rural landscapes where the horse doctor and her devoted husband tirelessly respond to the urgent calls that summon them to the aid of injured, ailing, and distressed equines. With every story based on real-life events, the authenticity of these remarkable tales is palpable, capturing the essence of both the horse lover's passion and the indomitable spirit of these magnificent creatures. From comedic escapades involving mischievous foals to a truck full of excited kids and their horse, the series' trademark humor will leave you chuckling and shaking your head in disbelief. While most are fun, a few are intense or even sad, but each story explores the breadth and depth of the human-animal connection. Like life, this can be a complicated thing, filled with nuance and emotion. The Adventures of the Horse Doctor's Husband 3 is a testament to the enduring power of love, compassion, and the extraordinary experiences that await those who devote themselves to the welfare of animals. Whether you're a dedicated equestrian, an animal lover, or simply in search of fascinating tales inspired by real-life events, this book is sure to warm your heart and ignite your imagination.

Adventures of the Horse Doctor's Husband 3

In the spirit of Nicholas Sparks comes *If Wishes Were Horses*. Author Robert Barclay has crafted a deeply moving story of love, hope, and forgiveness, as two damaged souls torn apart by a common tragedy slowly find a way to heal. Destined to be a much-beloved classic on a par with Robert James Waller's *The Bridges of Madison County*, Barclay's *If Wishes Were Horses* is a story rich in emotion that will touch the heart of every reader who fervently believes in second chances at love.

If Wishes Were Horses

A Collection of True Tales of Animal Empathy and Altruism that will Inspire Us to Reflect on Our Own Human Nature What do stories about humpback whales protecting a biologist from a shark, a pride of lions rescuing a girl from kidnappers, gorillas working together to dismantle poacher snares, a parrot

warding off an attacker in a park, a chimpanzee consoling a human, and an elephant trying to rescue a baby rhino tell us about animal nature? And what might they suggest about our very own human nature? Until just a few decades ago, there were only a few animals reported to behave empathetically and altruistically. More recently, the list of species who have been observed behaving in compassionate, helpful, and caring ways has grown exponentially, ranging from rats to elephants. Rescued by a Whale presents dozens of astonishing and heart-warming stories about animals, such as chickens, horses, dolphins, and wolves, who engage in acts of helpful kindness. During a time in history when studies show that human empathy is decreasing, our knowledge about animal empathy is increasing. These true tales of heroism, kindness, and compassion suggest that we have far more in common with other animals than we once believed and provocatively suggest that what's best about our human natures just might be our animal natures.

When Animals Rescue

Set in Europe in 4372 B.C., this is the story of the clash between bands of marauding nomads and the peaceful culture already in place.

The Year the Horses Came

Join Rosie as she learns about life, horses, and God from her grandmother and the horses they love. "Oh, Jet, you're the most beautiful pony in the world." Rosie put her hands on each side of Jet's head and gave the pony a kiss on her velvety muzzle. Jet nodded her head as if agreeing with Rosie. Grandma unlatched the stall door and led the pony out. "She certainly is. She's even prettier than her mother, Ebony, was. You remember Ebony was your mother's pony when she was a little older than you, Rosie. Ebony taught your mom to ride, just like Jet is teaching you. After your mom and aunt, Julie, outgrew her, many of my students learned to ride on Ebony." "Well, I'm never going to outgrow Jet. I'm going to ride her until I'm really old, like you, Grandma." "Rosie and Scamper" is a story of family, friendship, horses, and a great God who works all things in our lives for good. My love of horses began when a teenage neighbor offered me my first ride, on the back of her horse. From my 8-year-old perspective, it seemed like the biggest horse in the world. From that moment on, I was addicted. Horses were to become a very important part of my life, although I never could have imagined, at the time, how much God would teach me about Himself and my relationship to Him through these wonderful animals. www.sonrisestable.com

Sonrise Stable

Horse lovers rejoice! The Foot of the Horse is a detailed and comprehensive guide to the anatomy and function of the equine foot. Thomas Clarendon's expertise shines through as he explains the intricacies of the hoof and offers advice for keeping your horse healthy. Whether you're a seasoned rider or a curious beginner, this book is a must-have for horse enthusiasts. This work has been selected by scholars as being culturally important, and is part of the knowledge base of civilization as we know it. This work is in the "public domain in the United States of America, and possibly other nations. Within the United States, you may freely copy and distribute this work, as no entity (individual or corporate) has a copyright on the body of the work. Scholars believe, and we concur, that this work is important enough to be preserved, reproduced, and made generally available to the public. We appreciate your support of the preservation process, and thank you for being an important part of keeping this knowledge alive and relevant.

The Foot of the Horse, Its Structure and Functions

The Strength Of Oak is a prequel to The Horses Know Trilogy, and is for horse lovers who know there is more to horses than meets the eye.

The Strength Of Oak

The Horses Return is the last book in The Horses Know Trilogy. It is for horse lovers who know there is more to horses than meets the eye.

The Horses of the Sahara and the Manners of the Desert

A horse of her own would be awesome. But Kate figures that might be a long way away, especially since she had to give up riding lessons and move to her late grandfather's farm. Besides, it would be a lot

more fun to have a best friend to ride with. When Kate discovers a barn on their new farm that's perfect for a horse, and a dusty bridle too, she starts to think that her dream might come true. Then she meets Tori at school, who is totally the best. So when they discover a thoroughbred that appears to be all alone, could it be the answer to her prayers? Maybe. If she can convince her dad ... and figure out what's going on with that horse.

The Horses Return

From the creative team behind the bestselling, Caldecott Medal--winning *Finding Winnie* comes an extraordinary wartime adventure seen through the eyes of the world's most beloved bear. Here is a heartwarming imagining of the real journey undertaken by the extraordinary bear who inspired Winnie-the-Pooh. From her early days with her mama in the Canadian forest, to her remarkable travels with the Veterinary Corps across the country and overseas, and all the way to the London Zoo where she met Christopher Robin Milne and inspired the creation of the world's most famous bear, Winnie is on a great war adventure. This beautifully told story is a triumphant blending of deep research and magnificent imagination. Infused with Sophie Blackall's irresistible renderings of an endearing bear, the book is also woven through with entries from Captain Harry Colebourn's real wartime diaries and contains a selection of artifacts from the Colebourn Family Archives. The result is a one-of-a-kind exploration into the realities of war, the meaning of courage, and the indelible power of friendship, all told through the historic adventures of one extraordinary bear.

A Horse for Kate

Is the internet really transforming children and young people's lives? Is the so-called 'digital generation' genuinely benefiting from exciting new opportunities? And, worryingly, facing new risks? This major new book by a leading researcher addresses these pressing questions. It deliberately avoids a techno-celebratory approach and, instead, interprets children's everyday practices of internet use in relation to the complex and changing historical and cultural conditions of childhood in late modernity. Uniquely, *Children and the Internet* reveals the complex dynamic between online opportunities and online risks, exploring this in relation to much debated issues such as: Digital in/exclusion Learning and literacy Peer networking and privacy Civic participation Risk and harm Drawing on current theories of identity, development, education and participation, this book includes a refreshingly critical account of the challenging realities undermining the great expectations held out for the internet - from governments, teachers, parents and children themselves. It concludes with a forward-looking framework for policy and regulation designed to advance children's rights to expression, connection and play online as well as offline.

Winnie's Great War

The Book of Thel is a poem by William Blake, dated 1789 and probably composed in the period 1788 to 1790. It is illustrated by his own plates, and is relatively short and easy to understand, compared to his later prophetic books. The metre is a fourteen-syllable line. It was preceded by *Tiriel*, which Blake left in manuscript. A few lines from *Tiriel* were incorporated into *The Book of Thel*. Most of the poem is in unrhymed verse. This book consists of eight plates executed in illuminated printing. Sixteen copies of the original print of 1789-1793 are known. Three copies bearing a watermark of 1815 are more elaborately colored than the others. William Blake (1757 – 1827) was a British poet, painter, visionary mystic, and engraver, who illustrated and printed his own books. Blake proclaimed the supremacy of the imagination over the rationalism and materialism of the 18th-century. Largely unrecognised during his lifetime, Blake is now considered a seminal figure in the history of both the poetry and visual arts of the Romantic Age.

Children and the Internet

"Ellie believes that she will live in her little village on the coast of Nova Scotia for always. But when her father gets a job on Sable Island, she must say farewell to her beloved home and her mother's final resting place. Not even the idea of seeing the wild horses that roam the island can ease her pain of leaving. And after arriving on the sandy, windswept crescent of land, Ellie feels adrift and alone ... until one afternoon when she awakens on a dune to find herself looking into the curious eyes of a wild stallion. Little by little, as the days pass, Ellie gets closer to the beautiful chocolate-colored horse. Yet she soon discovers something that could take him away from his home, his herd, and her. Ellie has lost too much already. Will she lose her island horse, too?"--P. [2] of cover.

The Book of Thel

A Reason To Be Noble is a prequel to The Horses Know Trilogy and can be read before, alongside or after the trilogy and its other prequels.

The Island Horse

Animals - Horses.

A Reason To Be Noble: A Prequel to The Horses Know Trilogy

National Book Award Finalist: "This man's ideas may be the most influential, not to say controversial, of the second half of the twentieth century."—Columbus Dispatch At the heart of this classic, seminal book is Julian Jaynes's still-controversial thesis that human consciousness did not begin far back in animal evolution but instead is a learned process that came about only three thousand years ago and is still developing. The implications of this revolutionary scientific paradigm extend into virtually every aspect of our psychology, our history and culture, our religion—and indeed our future. "Don't be put off by the academic title of Julian Jaynes's *The Origin of Consciousness in the Breakdown of the Bicameral Mind*. Its prose is always lucid and often lyrical...he unfolds his case with the utmost intellectual rigor."—The New York Times "When Julian Jaynes . . . speculates that until late in the twentieth millennium BC men had no consciousness but were automatically obeying the voices of the gods, we are astounded but compelled to follow this remarkable thesis."—John Updike, *The New Yorker* "He is as startling as Freud was in *The Interpretation of Dreams*, and Jaynes is equally as adept at forcing a new view of known human behavior."—*American Journal of Psychiatry*

Wild Horses

Untamable. Damaged. Angry. Once full of promise and life, now a fiery knot of resentment and detachment. This is the story of Dream of Night, an injured and abused racehorse. It's also the story of Shiloh, a sarcastic eleven-year-old foster child. By chance, Dream of Night and Shiloh both find themselves under the care of Jessalyn DiLima. Just in time—it's a last chance for them both. Jess fosters animals and kids like Dream of Night and Shiloh for a reason—she's a little broken, too. And as the three of them become an unlikely family, they recognize their similarities in order to heal their pasts—but not before one last tragedy threatens to take everything away.

Silvae

As Charles Darwin suggested more than a century ago, the differences between animals and humans are "of degree and not of kind." Not long ago, ethologists denied that animals had emotions or true intelligence. Now, we know that rats laugh when tickled, magpies mourn as they cover the departed with greenery, female whales travel thousands of miles for annual reunions with their gal pals, seals navigate by the stars, bears hum when happy, and crows slide down snowy rooftops for fun. In engaging text, photographs, and infographics, *Inside Animal Hearts and Minds* showcases fascinating and heart-warming examples of animal emotion and cognition that will foster wonder and empathy. Learn about an orangutan who does "macramé," monkeys that understand the concept of money, and rats that choose friendship over food. Even language, math, and logic are no longer exclusive to humans. Prairie dogs have their own complex vocabularies to describe human intruders, parrots name their chicks, sea lions appear capable of deductive thinking akin to a ten-year-old child's, and bears, lemurs, parrots, and other animals demonstrate numerical cognition. In a world where a growing body

of scientific research is closing the gap between the human and non-human, *Inside Animal Hearts and Minds* invites us to change the way we view animals, the world, and our place in it.

The Origin of Consciousness in the Breakdown of the Bicameral Mind

The final book of the Bible, Revelation prophesies the ultimate judgement of mankind in a series of allegorical visions, grisly images and numerological predictions. According to these, empires will fall, the "Beast" will be destroyed and Christ will rule a new Jerusalem. With an introduction by Will Self.

Dream of Night

One lonely sea horse learns that she has a lot of friends--friends she can really "count" on to help. Full-color illustrations.

Inside Animal Hearts and Minds

Seventeen-year-old Rema lives in a brutal kingdom where travel between regions is forbidden, people are starving, and looking at someone the wrong way can mean death. Nineteen-year-old Darmik is the king's son and Commander of the King's Army. He spends his days roaming the island, doing his father's bidding and trying to maintain control over the people. When a chance encounter throws Rema and Darmik together, they share an instantaneous connection, but any sort of relationship between them is strictly forbidden. Darmik's brother, the Crown Prince, notices Darmik's interest in Rema and, in a calculated, political move, blackmails her. Faced with an impossible choice, Rema is forced to sacrifice her heart in order to save her family. As Rema is taken to the palace with the Crown Prince, Darmik confronts the growing rumor that a legitimate blood heir to the throne exists and is trying to overthrow Darmik's family. In Darmik's quest to hunt down and kill the threat, he discovers that nothing is as it seems. Locked in the king's castle, Rema finds herself a key player in a massive power struggle. When Darmik shows up, she's not sure if she can trust him. The line between friends, enemies, and loyalty becomes blurred. As truths are unlocked, Rema understands that she just might be the key to finding the rightful heir and restoring peace to the kingdom . . . if she can manage to stay alive long enough.

Revelation

From an award-winning historian, the outlandish story of the man who gave rights to animals. In Gilded Age America, people and animals lived cheek-by-jowl in environments that were dirty and dangerous to man and beast alike. The industrial city brought suffering, but it also inspired a compassion for animals that fueled a controversial anti-cruelty movement. From the center of these debates, Henry Bergh launched a shocking campaign to grant rights to animals. *A Traitor to His Species* is revelatory social history, awash with colorful characters. Cheered on by thousands of men and women who joined his cause, Bergh fought with robber barons, Five Points gangs, and legendary impresario P.T. Barnum, as they pushed for new laws to protect trolley horses, livestock, stray dogs, and other animals. Raucous and entertaining, *A Traitor to His Species* tells the story of a remarkable man who gave voice to the voiceless and shaped our modern relationship with animals.

One Lonely Seahorse

Mick Herron, "the le Carré of the future" (BBC), expands his world of bad spies with an even shadier cast of characters: the politicians, lobbyists, and misinformation agents pulling the levers of government policy. "Confirms Mick Herron as the best spy novelist now working."—NPR's *Fresh Air* Now an Apple TV+ series starring Gary Oldman and Kristin Scott Thomas. In London's MI5 headquarters a scandal is brewing that could disgrace the entire intelligence community. The Downing Street superforecaster—a specialist who advises the Prime Minister's office on how policy is likely to be received by the electorate—has disappeared without a trace. Claude Whelan, who was once head of MI5, has been tasked with tracking her down. But the trail leads him straight back to Regent's Park itself, with First Desk Diana Taverner as chief suspect. Has Taverner overplayed her hand at last? Meanwhile, her Russian counterpart, Moscow intelligence's First Desk, has cheekily showed up in London and shaken off his escort. Are the two unfortunate events connected? Over at Slough House, where Jackson Lamb presides over some of MI5's most embittered demoted agents, the slow horses are doing what they do best, and adding a little bit of chaos to an already unstable situation . . . There are bad actors everywhere, and they usually get their comeuppance before the credits roll. But politics is a dirty

business, and in a world where lying, cheating and backstabbing are the norm, sometimes the good guys can find themselves outgunned.

The Key

"In a gloomy, smoke-filled world where the sun has vanished, all light and warmth comes from the firestones mined underground by the Quelled – a people branded by the race known as Chosen. On her sixteenth birthday, the rebellious Quelled girl Elsha is selected as handmaid to the Firelord – the most powerful of the Chosen. Suddenly Elsha is swept into a world of privilege, but also of prejudice and hatred and inequality. And her pursuit of her vision of a world of warmth, as sung about in the ancient myths, leads her on a dangerous path..."

A Traitor to His Species

Explore the timeless wisdom of God's Word through this beautiful horse devotional. Horses nuzzle their way into our hearts and have a way of teaching us a lot about ourselves, about life, and even about God. Just ask horse enthusiast Cara Whitney, wife of comedian and actor Dan Whitney (aka Larry the Cable Guy). Through years spent working with these majestic animals, Cara Whitney has learned countless spiritual lessons that have brought her closer to God. She shares those stories in Unbridled Faith. In 100 heartfelt devotions with stunning photography, you'll: Learn about being flexible in your faith from a gangly legged colt. Discover the secret to overcoming temptation through a horse's "sneak and eat" game. From a pony with a sweet tooth, find out why we should be glad God doesn't answer yes to all of our prayers. Be reminded that you are priceless to God by a one-eyed quarter horse named Roanie. This devotional is perfect for anyone who adores horses and the simple farm life.

Bad Actors

Visiting his childhood home in Rhode Island after learning that his first girlfriend has passed away, part-time actor Jono Riley remembers his coming of age at the side of three best friends, a period that was marked by a mysterious shooting.
