Do you know what research is?

Research is a learning and sharing process.

Start learning about your topic using books, websites and videos.

And don't take any notes.

Now you're ready for Step 3: GATHER.

A few things to remember: • Take notes in your own words

Gathered all the information you need?

Ask your teacher what options you have to demonstrate your research.

For this step, your notes are raw material

How about a metaphor? Notes — Research Project

Step 5 means it's time to SHARE what you've created!

When the sharing is over, it's time for Step 6: REFLECT.

Consider these questions: • What were the easiest and hardest parts?

Adapted from Henslin's best-selling comprehensive text, Core Concepts provides in-depth coverage of ten high-priority topics that are the foundation of many introductory sociology courses. This unique paperback offers a concise and economical format without sacrificing depth of coverage. Unlike a "brief" or "essentials" text, the ten chapters that make up Core Concepts are not edited down from a longer book. Instead, they provide full coverage of those topics that instructors emphasize the most in a one-semester or one-term introductory sociology course. Like Henslin's other texts, it features the author's familiar "down-to-earth" approach and personal writing style that highlight the sociology of everyday life. With wit, personal reflection, and illuminating examples, Henslin shares with readers a passion for sociology unmatched by any other introductory text.
